

Table of Contents

Preface

Committees

Chapter 1: Multifunctional Nanostructured Coatings

Fabrication and Characterisation of Nanostructured Coatings by Magnetron Sputtering for Wear Resistant Applications

D. Vallauri, S. Grassini, B. DeBenedetti and R. Alexandre 3

Bimetallic PdZn Nanoparticles for the Partial Hydrogenation of Phenylacetylene

V. Engels, A.E.H. Wheatley, A. Berenguer-Murcia, D.A. Jefferson and B.F.G. Johnson 13

Oxidation Behaviour and Thermal Stability of Nanocomposited Ti-Al-Si-B-N and Ti-Cr-B-N Coatings

A. Fabrizi, C. Paternoster, R. Cecchini, P.V. Kiryukhantsev-Korneev, A. Sheveyko, M. Cabibbo, M. Haidopoulos and S. Spigarelli 19

Nanoindentation of Silicon

P.M. Nagy, P. Horváth, G. Pető and E. Kálmán 29

Chapter 2: Modelling and Recrystallization

Backstress, the Bauschinger Effect and Cyclic Deformation

M.E. Kassner, P. Geantil, L.E. Levine and B.C. Larson 39

Constitutive Equations for Mg Alloy Hot Work Modeling

H.J. McQueen, P. Leo and E. Cerri 53

Microstructure and Mechanical Characterization of an Al-Zn-Mg Alloy after Various Heat Treatments and Room Temperature Deformation

P. Leo, E. Cerri, H.J. McQueen and S. Chiozzi 67

Features on Grain-Structure Evolution during Asymmetric Rolling of Aluminium Alloys

S. Farè, M. Vedani and G. Angella 77

New Model for Characterization of Dynamic Recrystallization and Prediction of Grain Size Applied to Two Wrought Magnesium Alloys

I. Rieiro, J. Castellanos, M. Carsí, J. Muñoz and O. Ruano 87

Developing Superplasticity in Metallic Alloys through the Application of Severe Plastic Deformation

R.B. Figueiredo, M. Kawasaki and T.G. Langdon 97

Effect of Al₃(Sc,Zr) Particles on Tensile Properties of an Al-Zn-Mg-Cu-Sc-Zr Alloy

O.N. Senkov, M.R. Shagiev and D.B. Miracle 113

Seam Welds in Hollow Profile Extrusion: Process Mechanics and Product Properties

L. Donati and L. Tomesani 121

FeCrAl Alloys Produced by Roll-Bonding and Annealing of Al(RE)-Clad Stainless Steel: How Addition of Hf and Zr Affects their Oxidation Behaviour

D. Pilone, F. Felli and U. Bernabai 133

Room Temperature Plastic Flow Localization in a Mn-Alloyed Austenitic Steel

D. Firrao, P. Matteis, G.M.M. Mortarino, P. Russo Spena, G. Scavino and F. D'Aiuto 139

Effects of Temperature and Sheet Thickness on Formability of AZ31 Magnesium Alloy

P. Ricci, M. El Mehtedi, L. Barone and S. Spigarelli 147

Chapter 3: Nano-Structured Materials and Severe Plastic Deformation

Consolidation of Amorphous Aluminum Alloy Powder by Equal Channel Angular Extrusion

O.N. Senkov 155

A Multipass ECAP Study of Modified Aluminium Alloys E. Cerri, P.P. De Marco and P. Leo	163
Plastic Flow and Grain Refinement under Simple Shear-Based Severe Plastic Deformation Processing D. Orlov, Y. Todaka, M. Umemoto, Y. Beygelzimer, Z. Horita and N. Tsuji	171
Nanostructures and Microhardness in Al and Al–Mg Alloys Subjected to SPD H.J. Roven, M. Liu, M.Y. Murashkin, R. Valiev, A.R. Kilmametov, T. Ungár and L. Balogh	179
TEM Characterization of Two Spark Plasma Sintered Fe-1.5wt.%Mo Steels Stabilized with SiO₂ and TiO₂ M. Cabibbo	187
Damping of FeMo Alloys Obtained from SPS Sintering of Nanostructured Powders M. Cabibbo, P. Deodati, S. Libardi, A. Molinari, R. Montanari and N. Ucciardello	203
Hot Working of the ZEK200 Magnesium Alloy S. Spigarelli, M. El Mehtedi and P. Ricci	212
Development of Ultra-Fine Microstructure in Titanium via Powder Metallurgy for Improved Ductility and Strength D. Eylon, W.A. Ernst and D.P. Kramer	223
Bulk Metallic Glasses M. Baricco, T.A. Başer, G. Fiore, R. Piccin, M. Satta, A. Castellero, P. Rizzi and L. Battezzati	229
Fatigue Properties of Steels with Ultrasonic Attrition Treated Surface Layers J. Uusitalo, L.P. Karjalainen, D. Retraint and M. Palosaari	239

Chapter 4: Hot Plastic Deformation

Texture and High-Angle Boundary Formation during Deformation Processing T.R. McNelley, S. Swaminathan, J.Q. Su and A.P. Zhilyaev	251
Hot Formability and Texture Formation in Al Alloys J. Hirsch	259
Superplastic Deformation of Twin Roll Cast AZ31 Magnesium Alloy L. Ceschini, M. El Mehtedi, A. Morri, G. Sambogna and S. Spigarelli	267
Study of Hot Formability of High Nitrogen Martensitic Stainless Steel M. El Mehtedi	279
Failure at Elevated Temperatures: Influence of Dynamic Restoration H.J. McQueen	285
Long-Term Heat Treatments on Ti6Al4V-SiC_f Composite. Part I - Microstructural Characterization R. Donnini, S. Kaciulis, A. Mezzi, R. Montanari and C. Testani	331
Long-Term Heat Treatments on Ti6Al4V-SiC_f Composite. Part II - Mechanical Characterization P. Deodati, R. Donnini, R. Montanari, C. Testani and T. Valente	341
Pre-Primary Stage of Low Strain Rate Creep in Metals L. Kloc and V. Sklenička	351
Constitutive Equations in Creep of the AE44 Magnesium Alloy S. Spigarelli	357
Creep Response and Microstructural Changes during Intermittent Heating of Advanced Tempered Martensitic 9-12%Cr Steels V. Sklenička, K. Kuchařová, M. Svoboda and I. Saxl	367
Warm Formability of AZ31 Magnesium Alloy Sheets under Different Process Conditions C. Bruni, A. Forcellese, F. Gabrielli and M. Simoncini	379

Chapter 5: Process Mechanics and Microstructure

Role of Boundaries in Control of Deformation Rate and Strength of Crystalline Materials W. Blum	391
Interpretation of Profile and Intercept Counts in Microstructure Characterization I. Saxl and V. Sklenička	403

Ti – ZrO₂ Interactions during Manufacturing of High Porous Ti/Ti-Based MMC of Regulated Structure

Y. Orlova, K. Maekawa and H.J. Rack

411

New Lean Duplex Stainless Steels for Structural Applications

I. Calliari, M. Dabalà, E. Ramous and G. Straffelini

419
