

Table of Contents

Preface

Dynamic Recrystallization - on Historical Perspective W.J. McG. Tegart	1
The Cold Worked State J. Gil Sevillano	19
The Hot Worked State C.M. Sellars	29
Particle Effects on Recrystallization of Metals T. Furu, K. Marthinsen and E. Nes	41
Deformation and Recrystallization of Metal Matrix Composites N. Hansen, D.J. Jensen and Y.L. Liu	55
Monte Carlo Modeling of Dynamic Recrystallization: Recent Developments M.J. Luton and P. Peczak	67
Epitaxial Grain Growth in Thin Films F.F. Lange	81
Grain Growth Studies in Si₃N₄-Ceramics G. Petzow and M.J. Hoffmann	91
Recrystallization Nucleation Mechanisms in High Purity Aluminium Single Crystals after Plane Strain Compression A. Akef and J.H. Driver	103
Origin of Recrystallization Texture in a Channel Die Deformed Aluminum Crystal M. Blicharski, J. Liu and H. Hu	109
On the Growth Rate of Cube-, Rotated Cube- and Rotated Goss-Grains in Commercial Aluminium Alloys O. Daaland, P.-. Dronen, H.E. Vatne, S.E. Naess and E. Nes	115
Studies of Annealing in Cold Rolled Copper B.J. Duggan, K. Lücke, G. Köhlhoff and C.S. Lee	121
Investigation of the Nucleation of Recrystallization in an Al-Cu Single Crystal by Means of EBSD O. Engler, C. Escher and G. Gottstein	127
The Effects of Solute Atoms on Nucleation and Twinning during Primary Recrystallization of Deformed Copper Single Crystals C. Funke, P. Haasen, U. Klement and P.J. Wilbrandt	133
Formation of Recrystallized Grains along Deformation Bands in Aluminum Single Crystals F. Inoko and K. Kashiwara	139
Effect of Rolling Conditions on the Formation of Cube Texture in Aluminum Single Crystals of S-Orientations T. Kamijo, H. Morita, S. Kataoka and H. Fukutomi	145
Geometric Dynamic Recrystallization in Aluminium and Aluminium Alloys above 0.6T_m M.E. Kassner, H.J. McQueen and E. Evangelista	151
Early Stages of Recrystallization in Aluminium J. Kwiencinski, J. Ryfka and J.W. Wyrzykowski	157
Effect of Deformation-Induced Vacancies on Recrystallization M. Militzer, W.P. Sun and J.J. Jonas	163
Modeling of the Stress-Strain Curve and the Occurrence of Dynamic Recrystallization in Hot Rolling of Steels R.A.N. Marques Barbosa and H. Costa Braga	169
Transition from Discontinuous to Continuous Recrystallization in Strip-Cast Aluminium Alloys A. Oscarsson, H.E. Ekström and W.B. Hutchinson	177
Recent Results on Recrystallization Mechanism in Deep Drawing Steels Achieved by Single Orientation Measurements in SEM B. Plutka and H.P. Hougardy	183

Strain-Induced Secondary Recrystallization V. Randle	189
Deformation Enhanced Grain Growth in a Two Phase Titanium Alloy S. Richter and C.H. Hamilton	195
Recovery of Deformation Microstructures in Pure Aluminium G.I. Rosen, D.J. Jensen and N. Hansen	201
Combination of Diffusional Transformations to Induce Grain Refined Microstructures R.M.A. de Andrade and I.G. Solórzano	207
High Temperature Deformation and Dynamic Recrystallization of some Two-Phase Copper Alloys M.G. Ardakani and J.F. Humphreys	213
Time Dependence of Grain Size Distribution of Austenite in an Eutectoid Steel Containing Nb M.M. Cabreira and P.R. Rios	219
Recrystallization and Microtexture Development in an Aluminium-Iron Alloy N. Deards and H.K.D.H. Bhadeshia	225
Very Fine Grains and Very High Strain Rate Superplasticity in Aluminum-Based Alloys Produced from Amorphous Powders K. Higashi, T. Mukai, S. Tanimura, A. Inoue, T. Masumoto and K. Ohtera	231
Recrystallization Behaviour of a Mechanically Alloyed ODS Ni-Base Superalloy Y.G. Kim, L.J. Park, S.H. Hong, J.J. de Barbadillo and J. Poole	237
Role of Iron during Recovery and Recrystallization of Aluminium-Iron Alloys G.J. Marshall and R.A. Ricks	245
Some Aspects on the Evolution of the Recovery and Recrystallization of Zirconium-Niobium Alloys W.A. Monteiro and M.G. Yamaue	251
Effect of Second Phase Particles on the Recrystallization Kinetics of a Cu-Cr-Zr Alloy M.A. Morris, M. Leboeuf and D.G. Morris	257
The Development of Microstructure and Texture during the Zone-Annealing of the Mechanically Alloyed ODS Material: MA 760 M. Mujahid and J.W. Martin	263
Avoiding Grain Growth during the Supersolidus Sintering of High Speed Steels J.I. San Martín, S. Jauregi, I. Urrutibeaskoa, V. Martínez, R. Palma and J.J. Urcola	269
The Importance of PSN in Recrystallization of Moderately Deformed Al-Si-Alloys S.R. Skjervold and K.M. Pedersen	275
Role of Inhibitor for Secondary Recrystallization Texture Evolution in Fe-3% Si Alloy Y. Yoshitomi, K. Iwayama, T. Nagashima, J. Harase, H. Masui and N. Takahashi	281
On the Relationship between the Kinetics of Secondary Recrystallization and Magnetic Properties of Grain Oriented Silicon-Iron G.C. Abbruzzese and S. Fortunati	287
Inclusion of Dynamic Recrystallization in Process Models for Hot Working J.H. Beynon, X.K. Li and A.R.S. Ponter	293
Model Calculations of Grain Growth by Anisotropic Boundary Energy and Mobility in Textured Materials H.J. Bunge and E. Dahlem-Klein	299
Nucleation and Growth Models Applied to Recrystallization M.A. Fortes and D.A. Pardo	305
Growth Rates of Recrystallized Grains in Highly Deformed Commercial Purity Aluminium, an Experimental and Modelling Study T. Furu and E. Nes	311
Two Dimensional Simulation of the Recrystallization Kinetics in the Case of Inhomogeneous Stored Energy H.W. Hesselbarth, L. Kaps and F. Haessner	317
Microstructural Evolution during Hot Rolling of Low Carbon Steels M. Hinojosa, U. Ortiz, L.L. Leduc and R. Colás	323
A Microstructural Model of Recrystallization J.F. Humphreys	329

Modelling of Recrystallization in Al-2%SiC D.J. Jensen	335
Mathematical Model of Dynamic Recrystallization Y.V. Kaptan, Y.N. Gornostyrev, V.N. Urtsev, V.I. Levit and V.A. Maslennikov	341
Computer-Simulation of Austenite Grain Growth and Recrystallization during Thermomechanical Rolling of Microalloyed HSLA-Steels A. Kern and U. Schrieffer	349
Model Calculations of Primary Recrystallization Textures Based on Oriented Nucleation and Growth U. Köhler, E. Dahlem-Klein, H.J. Bunge and H. Klein	355
3-D Grain Growth Kinetics Using Q-Pot Models. Tetraikadehedron Space Discretisations A. Martín-Meizoso and J.M. Martínez Esnaola	361
Computer Simulation of 2-Dimensional Subgrain Coalescence T.O. Saetre and N. Ryum	367
On the Use of Extended Volume Concepts to Model Microstructural Evolution during Recrystallization R.A. Vandermeer	373
Abnormal Grain Growth in Systems with Different Dimensionality C.H. Wörner and P.M. Hazzledine	379
High-Temperature Mechanism of Dynamic Recrystallization of Ferritic Steel A. Belyakov, R. Kaibyshev and R. Zaripova	385
Application of Recrystallization, Grain Growth and Precipitation to Model Hot Forging of Microalloyed Steels for Automotive Components C. Bertrand, J.M. Cabrera, A. Herrero, P. Mateos and J.M. Prado	391
Influence of Composition on the Dynamic Recrystallization and Subsequent Hot Ductility of Mild Steels L.E. Cepeda, J.M. Rodríguez-Ibabe and J.J. Urcola	399
Warm Working of Ferrite in the Simulated Rod Rolling of IF Steels P.R. Cetlin, J.J. Jonas and S. Yue	405
A Contribution to the Study of Dynamic Recrystallization in a Nb/Ti Microalloyed Steel D. Drobniak and N. Radović	411
Thermomechanical Processing, Recrystallization, Grain Growth and Precipitation in Alloy 625, Nickel-Base Superalloy L. Ferrer, B. Pieraggi and J.F. Uginet	417
Formation of Submicrocrystalline Structure in Materials during Dynamic Recrystallization O.A. Kaibyshev, R. Kaibyshev and G.A. Salishchev	423
Controversies in the Theory of Dynamic Recrystallization H.J. McQueen	429
Dynamic Recrystallization in Austenitic Stainless Steels H.J. McQueen, N.D. Ryan and E. Evangelista	435
Effect of Dynamic Recrystallization on Grain Refinement of IF Steels A. Najafi-Zadeh, J.J. Jonas and S. Yue	441
Effect of Warm-Forming Thermomechanical Parameters on the Microstructure and Properties of Microalloyed Steels with V and Ti F. Peñalba, M. Carsí, C. García de Andrés, F. Zapiráin and M.P. de Andrés	447
Microstructural Changes Following Dynamic Recrystallization in Microalloyed Austenite C. Roucoules, S. Yue and J.J. Jonas	455
Static Recrystallization of Type 316L Stainless Steel under Hot Working Conditions R. Barbosa and C.M. Sellars	461
Static Recrystallization of Low Carbon Steels M. Hinojosa, U. Ortiz and R. Colás	467
Strain Accumulation and Post-Dynamic Recrystallization in C-Mn Steels P. Hodgson, J.J. Jonas and S. Yue	473
Interaction between Precipitation and Recrystallization during High Temperature Deformation of HSLA Steels J. Kliber, I. Schindler and M. Gavacova	479
Precipitation and Recrystallization in Austenite of Nb-V Microalloyed Steel M. Longauerová, S. Longauer and R. Misicko	485

Recrystallization Behaviour of 3% Si Steel after High-Temperature Deformation M. Manabe, T. Obara and T. Kan	491
Influence of the Different Modes of Hot Deformation within the Steady State on Static Recrystallization Kinetics and Recrystallized Grain Size of Commercial Aluminium S. Martin, S. Gutierrez and J.J. Urcola	497
Static Recrystallization and Grain Growth in a 1045 Steel R. Martínez-Sánchez and J.G. Cabañas-Moreno	503
On the Recrystallization Kinetics of Commercial Aluminium-1% Manganese Alloy Deformed under Hot-Working Conditions E.S. Puchi and G. Rojas	509
Static Recrystallization Associated with Hot Working of Austenitic Stainless Steels N.D. Ryan, E. Evangelista and H.J. McQueen	515
Static Grain Growth in Dynamically Recrystallized Nickel T. Sakai and M. Ohashi	521
Static Softening Processes in Low Carbon Steel Microalloyed with Niobium and Vanadium I. Schindler and J. Kliber	527
Effect of Interpass Time on Austenite Recrystallization in Nb-Containing HSLA Steels W.P. Sun, M. Militzer, D.Q. Bai and J.J. Jonas	533
Recovery of Cold Rolled Aluminium Containing SiC Whiskers Y.L. Liu, D.J. Jensen and N. Hansen	539
Grain Refinement Processing for Superplastic Aluminium-Based Composites Reinforced with Si₃N₄ M. Mabuchi and K. Higashi	545
On Recrystallization in Metal Matrix Composites W.J. Poole, S.P. Silveti, J.D. Embury and U.F. Kocks	551
Effect of Reinforcement Particles on the Recrystallization of an Al-Li Based Composite C.N. Sparks and C.M. Sellars	557
High Temperature Deformation Behaviour and Microstructural Development of Al₂O₃ Particle Reinforced 6061 Aluminium Composite D. Yu and T. Chandra	563
Deformation Microstructure and Evolution of Recrystallization Texture in Ni₃Al+B J. Ball and G. Gottstein	569
Texture Evolution in Al₂O₃ Sheets by Grain Growth during Sintering A. Böcker, H.J. Bunge, J. Ernst and W. Krahn	575
Grain Growth in Liquid-Sintered Alumina J. Echeberria, F. Castro and F.L. Riley	579
Dynamic Recrystallization of YBa₂Cu₃O_{7-x} Superconductive Ceramics M.F. Imayev, O.A. Kaibyshev, F. Musin and M.O. Yamalova	585
Effect of Grain Size on Dynamic Fragmentation of Alumina L.H.L. Louro, J.R.A. Ribeiro and M.A. Meyers	591
Recrystallization of Ordered Alloys and Intermetallics D.G. Morris and M.A. Morris	599
Dynamic Recrystallization and Superplasticity of Ni₃Al+B during High Temperature Compression D. Ponge, D.S. Grummon, C.S. Lee and G. Gottstein	605
Dynamic Recrystallization in TiAl and Ti₃Al Intermetallic Compounds G.A. Salishchev, R.M. Imayev, V.M. Imayev and N.K. Gabdullin	613
The Development of Grain-Specific Texture and Grain Boundary Character during Grain Growth of Al-1%Si Films on SiO₂/Si Substrates D. Gerth and R.A. Schwarzer	619
The Effect of Grain-Specific Texture on Hillock Growth in Al-1%Si Films on SiO₂/Si Substrates D. Gerth and R.A. Schwarzer	625
Multiple Twinning in the Solid Phase Crystallization of Amorphous Germanium H. Hofmeister and T. Junghanns	631
The Effect of Substrate Conditions on the Formation of Crystalline Particles in Amorphous Germanium Films T. Junghanns and H. Hofmeister	637

X-Ray Texture Measurements for Determining Quantitatively the Recrystallized Volume Fraction in Aluminium Alloys P. Burgholzer, M. Hojas and W. Kühlein	643
A Study of Recovery, Recrystallization, Grain Growth and Phase Transformations during the Annealing of Cold-Worked Zircaloy-4 Z. Farhat and D.O. Northwood	649
A Direct Method for Determining the Recrystallization of a Cold Rolled Copper J.M. Guilemany, J. Fernández, F. Peregrin and O. Guixá	655
On the Formation of Low Energy Grain Boundaries in a Spheres-on-Plate Experiment G. Günther, P.J. Wilbrandt and P. Haasen	661
The Assessment of Recrystallization in Low Carbon Low Alloy Steel Using Alternating Current Potential Drop (ACPD) Measurements Z. Husain, P.F. Morris and A.A. Howe	667
A Factorial Study of the Recrystallization Structures and Textures for Low-Carbon Steel Sheet L.A.I. Kestens, D. Vanderschueren, P. van Houtte, E. Aernoudt, J. Dilewijns and C. Standaert	673
Automatic Local Texture Measurements by EBSD N.C.K. Lassen and D.J. Jensen	679
The Effect of Composition and Microstructure on the Recrystallization Texture in AA3004 R.K. Bolingbroke and G.J. Marshall	685
Effect of Austenite Recrystallization on Ferrite Transformation Textures M.P. Butrón-Guillén and J.J. Jonas	691
Texture Changes by Grain Coarsening in AlMn-Alloys with Different Initial Textures E. Dahlem-Klein and H.J. Bunge	697
Structure and Properties of Cold Rolled and Annealed Commercial Purity Copper D. Drobnjak, P. Zivanovic, S. Vucic and V. Radmilović	703
Preferred Orientations Formed by Grain Growth and Primary Recrystallization Grain Sizes in Fe-3%Si J. Harase, K. Tomimasu, S. Nakashima, T. Nagashima, K. Takashima, Y. Yoshitomi and N. Takahashi	709
Influence Growth of Primary Recrystallized Grains on Secondary Recrystallization Texture in Fe-3%Si Alloy Y. Yoshitomi, Y. Ushigami, J. Harase, H. Masui, T. Nakayama and N. Takahashi	715
Microstructure and Local Texture of Partially Recrystallized Titanium Sheet S. Zaefferer and R.A. Schwarzer	721
