

## Table of Contents

### Preface

## I. Research, Production and Use of Steel Ropes

<b>A Wire Contact in the Construction of a Steel Rope</b> J. Krešák, P. Peterka, S. Kropuch and A. Bérešová	3
<b>Analysis of Operation of Carrying-Hauling Ropes of Monocable Aerial Ropeways in Poland</b> T. Rokita and W. Oleksy	9
<b>Aviator System as an Alternative to Warehouse Handling Devices</b> P. Bindzár, M. Straka, T. Thate and M. Balog	15
<b>Determination of Elastic Modulus of Steel Wire Ropes for Computer Simulation</b> J. Boroška, A. Pauliková and V. Ivančo	22
<b>Effect of Operational Condition Changes on the Durability of the Rope for Pusher of Circular Wagon Tipper</b> J. Kulka and M. Mantič	28
<b>Multi-Criteria Evaluation – A Tool for the Selection of Steel Wire Rope</b> J. Šaderová, A. Rosová, P. Bindzár and P. Kacmary	33
<b>Non-Destructive Testing of Steel Wire Rope Transmission Area to Rope End by Magnetic Flux Leakage</b> P. Peterka, J. Krešák, S. Kropuch, A. Bérešová and D. Mitrík	39
<b>Qualitative Assessment of the Working Condition of Ropes in Rope Attachments</b> J. Kwaśniewski, T. Krakowski, H. Ruta, S. Molski, M. Pypno and K. Ratuszny	45
<b>Rope Mechanisms, Quality and Safety Management in Logistics Facilities</b> I. Drahotský and V. Cempírek	50
<b>Study of Steel Wire Ropes Defects</b> M. Lesňák, J. Procházka, I. Hlavatý, J. Pištora and G. Kostiuková	55
<b>The Possibility of Products Consumption Forecasting Having a Seasonal Character in Ensurance of Steel Wire Ropes Maintenance</b> P. Kacmary, J. Šaderová, A. Rosová and M. Straka	61
<b>Two Alternatives for Mathematical Expression of Triangular Strands in Six Strand Ropes</b> E. Stanová and G. Fedorko	66

## II. Research Production and Use of Conveyors

<b>Advantages of High Angle Belt Conveyors (Hac) in Mining</b> M. Grujić and D. Erdeljan	73
<b>Analysis of the SCI, SCI-E and SSCI Journals in the Fields of Mining Transport, Haulage and Hoisting</b> I. Ristović, P. Dašić and J. Dašić	78
<b>Application of Reverse Logistics Processes in Belt Conveying</b> N. Husáková	86
<b>Application of SELBESTTRA Software for Choosing a Transportation System for Mineral Raw Materials through Special Protection Areas</b> D. Erdeljan and M. Grujić	92
<b>Application the Renewal Theory to Determining the Models of the Optimal Lifetime for Conveyor Belts</b> A. Grinčová, M. Andrejiová and P. Grendel	97
<b>Belt Damage Aspect to Impact Loading</b> E. Ambriško, V. Taraba, S. Szabo and M. Leco	102
<b>Computerised Decision-Making Support System Based on Data Fusion for Machinery System's Management and Maintenance</b> P. Stefaniak, R. Żimroz, W. Bartelmus and M. Hardygóra	108

<b>Conveyor New Concept for Parcel Logistics in Air Transport</b> V. Vořtová, K. Jerabek and V. Němec	114
<b>Effect of Strength Parameters and the Structure of Steel Cord Conveyor Belts on Belt Puncture Resistance</b> H. Komander, M. Bajda, G. Komander and G. Paszkowska	119
<b>Evaluation of the Effectiveness of an Eco-Friendly Technology for Splicing Steel Cord Conveyor Belts</b> M. Hardygora, M. Bajda and R. Blazej	125
<b>Identification of Factors Causing Damage to Conveyor Belts during the Transportation of Coal</b> E. Škrabul'áková, D. Marasová, M. Tomašková and P. Grendel	130
<b>Implementation of the Concorde Transport System in the Production</b> J. Král', J. Král', A. Rjabušin, L. Harsányi, K. Madáč and J. Melko	135
<b>Influences of Surface Determination for Measurements Obtained by Industrial Computed Tomography</b> T. Tóth, A. Véggh, M. Dovica and J. Živčák	142
<b>Mathematical Model for Determining the Lifetime of Conveyor Belts Depending on some Selected Parameters</b> M. Andrejiová, A. Grinčová and A. Pavlisková	147
<b>Mathematical Modelling of the Process of Conveyor Belt Damage Caused by the Impact Stress</b> V. Taraba, D. Marasová, D. Kubala and V. Semjon	153
<b>Numerical Models of Rubber-Textile Composites of Conveyor Belts</b> T. Bouda, P. Bocko and T. Hájek	159
<b>Possibilities of Experiments and of Using Experimental Results Obtained from the Test Equipment for Measuring Properties of Conveyor Belts Pipe Conveyor</b> B. Stehlíková, V. Molnar and G. Fedorko	165
<b>Recent Developments in Vibration Based Diagnostics of Gear and Bearings Used in Belt Conveyors</b> J. Obuchowski, A. Wylomańska and R. Zimroz	171
<b>Research of Electric and Mechanical Diagnostic Parameters of Drive Equipment</b> P. Stepanov and S. Lagutkin	177
<b>Reverse Material Flow of Worn-Out Conveyor Belts</b> N. Husáková and S. Honus	183
<b>Selection of Belt Conveyors Drive Units Number by Technical – Economical Analysis</b> Z. Despodov, S. Mijalkovski, V. Adziski and Z. Panov	189
<b>Selection of the Optimal Alternative of the Deposit Opening Applying the Decision-Making Process</b> D. Marasová, S. Lukáč, E. Ambriško and M. Cehlár	196
<b>Spatial Planning Using GIS Technology for Optimal Multi-Criteria Location of Belt Conveyor Route</b> J. Górnjak-Zimroz	202
<b>Test Equipment for Analysis of Samples Rubber – Textile Conveyor Belts by Help Industrial Metrotomographs</b> P. Michalik and V. Molnar	208
<b>The Dynamics of Impacts Tools the Loading Boom Bucket Wheel Excavators</b> H. Gondek, J. Neruda and J. Pokorný	213
<b>The Usability of Terrestrial 3D Laser Scanning Technology for Tunnel Clearance Analysis Application</b> G. Novaković, A. Lazar, S. Kovačič and M. Vulić	219
<b>The Use of Screw Conveyors in Practical Applications</b> M. Tomašková and J. Sinay	225
<b>The Use of Sophisticated Materials in the Construction of an Ultra-Light Trailer</b> J. Král', Š. Cosmin-Roszkos, J. Král', A. Rjabušin, L. Harsányi, K. Madáč and J. Melko	232
<b>Use of Thermovision for Monitoring Temperature Conveyor Belt of Pipe Conveyor</b> P. Michalik and J. Zajac	238
<b>Vibration Diagnostics of Conveyor's Rolling Bearings</b> J. Libor, F. Vas and G. Czifra	243

### **III. Research Production and Use of Hoisting Machines and Vertical Conveying**

**Affordable Photogrammetry as Applied in the 3D Modelling and Monitoring of Underground Mining Exploitation and Transport**

I. Ristović and M. Vulić

251

**Material Assessment of the Causes of Degradation of the Hoist Engine Bearing**

Z. Jonšta, M. Gabčová, G. Kostiuková, I. Vlčková and Z. Folta

257
