

Table of Contents

Preface

I. Research, Production and Use of Steel Ropes

A Wire Contact in the Construction of a Steel Rope J. Krešák, P. Peterka, S. Kropuch and A. Bérešová	3
Analysis of Operation of Carrying-Hauling Ropes of Monocable Aerial Ropeways in Poland T. Rokita and W. Oleksy	9
Aviator System as an Alternative to Warehouse Handling Devices P. Bindzár, M. Straka, T. Thate and M. Balog	15
Determination of Elastic Modulus of Steel Wire Ropes for Computer Simulation J. Boroška, A. Pauliková and V. Ivančo	22
Effect of Operational Condition Changes on the Durability of the Rope for Pusher of Circular Wagon Tipper J. Kulka and M. Mantič	28
Multi-Criteria Evaluation – A Tool for the Selection of Steel Wire Rope J. Šaderová, A. Rosová, P. Bindzár and P. Kacmary	33
Non-Destructive Testing of Steel Wire Rope Transmission Area to Rope End by Magnetic Flux Leakage P. Peterka, J. Krešák, S. Kropuch, A. Bérešová and D. Mitrík	39
Qualitative Assessment of the Working Condition of Ropes in Rope Attachments J. Kwaśniewski, T. Krakowski, H. Ruta, S. Molski, M. Pypno and K. Ratuszny	45
Rope Mechanisms, Quality and Safety Management in Logistics Facilities I. Drahotský and V. Cempírek	50
Study of Steel Wire Ropes Defects M. Lesňák, J. Procházka, I. Hlavatý, J. Pištora and G. Kostiuková	55
The Possibility of Products Consumption Forecasting Having a Seasonal Character in Ensurance of Steel Wire Ropes Maintenance P. Kacmary, J. Šaderová, A. Rosová and M. Straka	61
Two Alternatives for Mathematical Expression of Triangular Strands in Six Strand Ropes E. Stanová and G. Fedorko	66

II. Research Production and Use of Conveyors

Advantages of High Angle Belt Conveyors (Hac) in Mining M. Grujić and D. Erdeljan	73
Analysis of the SCI, SCI-E and SSCI Journals in the Fields of Mining Transport, Haulage and Hoisting I. Ristović, P. Dašić and J. Dašić	78
Application of Reverse Logistics Processes in Belt Conveying N. Husáková	86
Application of SELBESTTRA Software for Choosing a Transportation System for Mineral Raw Materials through Special Protection Areas D. Erdeljan and M. Grujić	92
Application the Renewal Theory to Determining the Models of the Optimal Lifetime for Conveyor Belts A. Grinčová, M. Andrejiová and P. Grendel	97
Belt Damage Aspect to Impact Loading E. Ambriško, V. Taraba, S. Szabo and M. Leco	102
Computerised Decision-Making Support System Based on Data Fusion for Machinery System's Management and Maintenance P. Stefaniak, R. Żimroz, W. Bartelmus and M. Hardygóra	108

Conveyor New Concept for Parcel Logistics in Air Transport V. Vořtová, K. Jerabek and V. Němec	114
Effect of Strength Parameters and the Structure of Steel Cord Conveyor Belts on Belt Puncture Resistance H. Komander, M. Bajda, G. Komander and G. Paszkowska	119
Evaluation of the Effectiveness of an Eco-Friendly Technology for Splicing Steel Cord Conveyor Belts M. Hardygora, M. Bajda and R. Blazej	125
Identification of Factors Causing Damage to Conveyor Belts during the Transportation of Coal E. Škrabul'áková, D. Marasová, M. Tomašková and P. Grendel	130
Implementation of the Concorde Transport System in the Production J. Král', J. Král', A. Rjabušin, L. Harsányi, K. Madáč and J. Melko	135
Influences of Surface Determination for Measurements Obtained by Industrial Computed Tomography T. Tóth, A. Véggh, M. Dovica and J. Živčák	142
Mathematical Model for Determining the Lifetime of Conveyor Belts Depending on some Selected Parameters M. Andrejiová, A. Grinčová and A. Pavlisková	147
Mathematical Modelling of the Process of Conveyor Belt Damage Caused by the Impact Stress V. Taraba, D. Marasová, D. Kubala and V. Semjon	153
Numerical Models of Rubber-Textile Composites of Conveyor Belts T. Bouda, P. Bocko and T. Hájek	159
Possibilities of Experiments and of Using Experimental Results Obtained from the Test Equipment for Measuring Properties of Conveyor Belts Pipe Conveyor B. Stehlíková, V. Molnar and G. Fedorko	165
Recent Developments in Vibration Based Diagnostics of Gear and Bearings Used in Belt Conveyors J. Obuchowski, A. Wylomańska and R. Zimroz	171
Research of Electric and Mechanical Diagnostic Parameters of Drive Equipment P. Stepanov and S. Lagutkin	177
Reverse Material Flow of Worn-Out Conveyor Belts N. Husáková and S. Honus	183
Selection of Belt Conveyors Drive Units Number by Technical – Economical Analysis Z. Despodov, S. Mijalkovski, V. Adziski and Z. Panov	189
Selection of the Optimal Alternative of the Deposit Opening Applying the Decision-Making Process D. Marasová, S. Lukáč, E. Ambriško and M. Cehlár	196
Spatial Planning Using GIS Technology for Optimal Multi-Criteria Location of Belt Conveyor Route J. Górnjak-Zimroz	202
Test Equipment for Analysis of Samples Rubber – Textile Conveyor Belts by Help Industrial Metrotomographs P. Michalik and V. Molnar	208
The Dynamics of Impacts Tools the Loading Boom Bucket Wheel Excavators H. Gondek, J. Neruda and J. Pokorný	213
The Usability of Terrestrial 3D Laser Scanning Technology for Tunnel Clearance Analysis Application G. Novaković, A. Lazar, S. Kovačič and M. Vulić	219
The Use of Screw Conveyors in Practical Applications M. Tomašková and J. Sinay	225
The Use of Sophisticated Materials in the Construction of an Ultra-Light Trailer J. Král', Š. Cosmin-Roszkos, J. Král', A. Rjabušin, L. Harsányi, K. Madáč and J. Melko	232
Use of Thermovision for Monitoring Temperature Conveyor Belt of Pipe Conveyor P. Michalik and J. Zajac	238
Vibration Diagnostics of Conveyor's Rolling Bearings J. Libor, F. Vas and G. Czifra	243

III. Research Production and Use of Hoisting Machines and Vertical Conveying

Affordable Photogrammetry as Applied in the 3D Modelling and Monitoring of Underground Mining Exploitation and Transport

I. Ristović and M. Vulić

251

Material Assessment of the Causes of Degradation of the Hoist Engine Bearing

Z. Jonšta, M. Gabčová, G. Kostiuková, I. Vlčková and Z. Folta

257
