

Table of Contents

Preface

Chapter 1: Turning and Forming of Structural Metals

A Mechanistic Cutting Force Model for Thin-Wall End Face Turning Operation P. Borthakur and T.C. Bera	3
Experimental Investigation on the Mechanical Properties and Formability Analysis of Stainless Steel 316 Thin Sheets at Different Annealing Temperatures K.S. Naidu, R. Datta and M. Bhargava	11
Influence of Process Parameters on Forming Forces in Single Point Incremental Forming of Commercially Pure Titanium R. Kumar, A. Singh and G. Kumar	19

Chapter 2: Metal Welding

Prediction of Mechanical Shear Force of Friction Stir Spot Welded Joints Using Neural Network System H.A. Abdel-Aleem, A.M. Gaafer, A.M. Hanafy and E.H. Mansour	31
Influences of Filler Metals on Microstructure and Mechanical Characteristics of GTA Weld Carbon Steel/ Austenitic Stainless Steel Dissimilar Metal Joint W. Saka, T.F. Lawal and M.O.H. Amuda	41
Interfacial Temperature Variation in Friction Stir Lap Welding of AA7075 N. Kumar and A. Bhattacharya	57

Chapter 3: Corrosion and Surface Treatment

A Review of Corrosion Threat in Marine Industry O. Odunlami, M. Fajobi, U. Nnaji, U. Abigail, T. Gawati, O. Temitayo and H. Adisa	67
Effect of Palm Kernel Shell Reinforcement on the Mechanical and Corrosion Properties of AA7075 Aluminium Alloy O.O. Joseph, J. Atiba, S. Ante, O.O. Joseph and S. Eyenuro	79
Effect of Carburization Time and Carburization Temperature on Carburization of Mild Steel Using Carbon Nanotubes Obtained from a Horizontal CVD Reactor A.S. Hassan, A.S. Afolabi and M.O. Daramola	89

Chapter 4: Improvement of Technologies and Technological Equipment

Setup Time Reduction: A Case Study of a Wire Coating Extruder Machine P. Wisetwoharn, A. Vanichchinchai, D. Sumrit and S. Kitchot	101
Investigation of Bamboo Powder Self-Adhesive Molding Method Using Semiconductor Laser for Additive Manufacturing K. Tanaka, R. Kitazaki, N. Yutaro, M. Nakagawa, T. Hirogaki, E. Aoyama and H. Nobe	107
Estimation of End-Milled Surface by Machine Tool Equipped with an Idling-Stop Function in a Feed Driving System Y. Tada, R. Imai, M. Nakagawa, T. Hirogaki and E. Aoyama	115
Influence of Glass Cloth in Build-Up Layer on Cu Direct Laser Via-Hole Drilling for Multi-Layer Printed Wiring Boards T. Fujimoto, S. Nowatari, M. Nakagawa and T. Hirogaki	123
