

Table of Contents

Preface, Committee, Organizers and Sponsors

Chapter 1: Synthesis, Obtaining and Materials Modification

Synthesis of New Hexakis-Heterocyclic Compounds and their Use in the Formation and Stabilization of Au and Ag Nanoparticles M.I. Montalvo-Sierra, M.A. Martins Alho, A.M. Herrera-Gonzalez, J. García-Serrano and P.B. Bocardo-Tovar	3
Corrosion Resistance of Hot Dip Aluminized Copper Alloys A. Barba Pingarrón, M.Á. Hernández, A. Covelo and R. Valdez	8
Effect of Mechanical Vibration during the Solidification Process of an Aluminium Alloy A356 E. Cardoso-Legorreta, A. Arenas Flores and F.L. García	14
Immobilization of SA-α-2,6-Gal Receptors Related to Influenza on Magnetic Nanoparticles Coated with Chitosan K.M. Gregorio-Jauregui, S.A. Carrizales-Alvarez, J.E. Rivera-Salinas, H. Saade, J.L. Martinez, R.G. Lopez and A. Ilyina	19
Physical Properties of Thin Films of GaAs and $\text{Al}_x\text{Ga}_{1-x}\text{As}$ Grown by Solid-Arsenic-Based MOCVD R. Castillo-Ojeda, J. Diaz-Reyes, M. Galván-Arellano and R. Peña-Sierra	25
Solid Solutions Study of BaTiO_3 Doped on B Site by Electronic Compensation F.R. Barrientos-Hernández, A. Arenas-Flores, I.A. Lira Hernández, C. Gómez-Yáñez and M. Pérez Labra	30
Structural and Textural Study of Highly Porous Carbon Nanospheres P. González García, E. Urones-Garrote, D. Ávila-Brandé, L. García-González and L.C. Otero-Díaz	36
Study of the Effect of Synthesis Method on Obtaining $\text{Ca}_{0.3}\text{La}_{0.7}\text{MnO}_3$ L.E.C. Hernández, M.H.S. Montiel, G.L. Alvarez, F.G. Legorreta, A.M.M. Bolarín and F. Sánchez de Jesús	41
Synthesis and Characterization of Azobenzene-Containing Polydiacetylene Polymers E. Albarrán Preza, E. Vigueras-Santiago and S. Hernández López	46
Synthesis and Characterization of CdSe Nanoparticles with Cadmium Precursor Variation in Colloidal Synthesis J. Sarmiento Arellano, E. Rosendo, R. Romano, G. Nieto, T. Díaz, G. García, H. Juárez, M. Pacio, R. Galeazzi, C. Morales and A.I. Oliva	52
Synthesis and Evaluation of Bifunctional Monomers Derived from Post-Industrial PET as Crosslinking Agents for Acrylic Monomers A. Cruz-Aguilar, J. Coreño-Alonso and A.M. Herrera González	59
Synthesis and Mechanochemistry of N, N'-bis (thylthyenyl)-2,3-butanediimine with Corrosion Inhibitor Properties L.H. Perales, C. Jardínez, R.A. Vázquez García, O. Coreño Alonso, M.A. Veloz Rodríguez, J. Cruz Borbolla, J. Coreño-Alonso, T. Pandiyan, L.E. Hernández Cruz and M. Martínez García	64
Synthesis Method for Obtaining Anode-Supported Tubular Solid Oxide Fuel Cells by Slip Casting I.L. Samperio-Gómez, C.A. Cortés-Escobedo, A.M. Bolarín-Miró and F. Sánchez de Jesús	70
Synthesis, Characterization and Mesomorphic Properties of N, N'-(1,4-Phenylene(methanylylidene))bis(4-(hexyloxy)aniline) M. Caldera Villalobos, J. García Serrano and A.M. Herrera González	75
Synthesis, Characterization and Optoelectronic Properties of Oligo(p-Phenylvinylidenequinolines) with Different Substituents J.F. Montiel Hernández, P. García Bernal, R.A. Vázquez García, A.I. Martínez Pérez, J.L. Maldonado, J. Coreño Alonso and O. Coreño Alonso	80
Thermodynamic Study of Leached Metals (Cu, Zn and Ni) from Waste Printed Circuits by Electrochemical Method J.F. Montiel Hernández, M.I. Reyes Valderrama, I. Rivera Landero, C.H. Rios-Reyes, M.A. Veloz Rodríguez, F. Patiño Cardona and V.E. Reyes-Cruz	86

Chapter 2: Materials Characterization

Analysis of Hardness, Resistivity and Corrosion of HfN Thin Films Fabricated by D.C. Sputtering

A. Courrech Arias, L. García-González, J. Hernandez Torres, T. Hernandez Quiroz and G. Galicia Aguilar 93

Biocompatibility Evaluation of Co-Ribbons Prepared by Melt-Spinning

M.A. Alvarez-Perez, M. García Hipólito, O. Alvarez-Fregoso and J.A. Juarez-Islas 98

Chemical Conditions for ZnS Thin Films Preparation by Chemical Bath Deposition

I.J. González Panzo, P.E. Martin-Varguez and A.I. Oliva 103

Corrosion Resistance on the Interlayer of AISI 316L/AISI 304 Stainless Steels Joined with an Iron Based Metallic Glass Ribbon at 1000 °C by Induction Heating

J.A. Verduzco, J.A. Gonzalez, V.H. Verduzco, C.E. Borja, J.G. Quezada and I.A. Figueroa 108

Dissolution of Iron from Oxides in a Solution of Citric Acid and Sodium Thiosulfate

P.N. Olvera Venegas, L.E. Hernández Cruz and G.T. Lapidus 114

Ductile Powders Mechanically Alloyed in an Effective Way

J. Guerrero-Paz 119

Effect of Substrate Temperature on the Properties of Hafnium Nitride Films Prepared by DC Sputtering

L. García-González, J. Hernandez Torres, L.Z. Peredo, A.A.R. Serrano, C.S.L. Vázquez, A.M.C. Arias and N.F. Ramírez 124

Electrical Characterization of Interface Defects in MOS Structures Containing Silicon Nanoclusters

A. Arias, N. Nedev, M. Curiel, D. Nesheva, E. Manolov, B. Valdez, D. Mateos, O. Contreras, O. Raymond and J.M. Siqueiros 129

Electrical Properties of Porous Carbon Powders Synthesized by Nanocasting of Aniline in Mesoporous Silica

L. Hoyos, M. Mesa, A. Ramirez, E. Vigueras-Santiago and G. Lopez-Tellez 133

Electrochemical Synthesis of Palladium Nanoparticles on HOPG Electrode

D. Garrido-Márquez, L.H. Mendoza Huizar, C. Hilda-Rios-Reyes and C. Galán-Vidal 139

Influence of the Temperature on the Diffusion Coefficient Value during the Cobalt Electrodeposition on Different Substrates

N. Ramos Lora, L.H. Mendoza Huizar, C. Hilda-Rios-Reyes and C.A. Galán-Vidal 144

Microstructural and Thermal Characterization of Copper Based Composites for Thermal Management in Electronic Packaging

C.A. León, G. Rodríguez-Ortiz, E.A. Aguilar-Reyes, M. Nanko and M. Takeda 148

Precipitation Hardening Analysis of an Al-8%Ag Alloy

S.E. Hernández Martínez, J. García Rocha, J.d.J. Cruz Rivera and J.L. Hernandez Rivera 154

Study of Cantilever Structures Based on Piezoelectric Materials for Energy Harvesting at Low Frequency of Vibration

R. Ambrosio, H. Gonzalez, M. Moreno, A. Torres, R. Martinez, E. Robles, A. Saucedo, A. Hurtado and A. Heredia 159

Synthesis and Characterization of Copper(II) Complexes with Long Chain Dithiocarbamates

N. Torres-Gomez, A.R. Vilchis-Nestor, R.M. Gomez-Espinosa and I. Garcia-Orozco 164

The Influence of Temperature and Carrier Gas Flow in the Obtainment of Carbon Nanotubes by Chemical Vapor Deposition

A. Gómez Sánchez, L. Domratheva Lvova, V. López Garza, L. García González, P. González García, F.G. Granados Martínez and N. Flores Ramirez 169

Thermal Behavior, Chemical, Mineralogical and Optical Characterization of Clays (Kaolin) for Industrial Use as Refractory Material

R. Moreno-Tovar, F. Pérez-Moreno, A. Arenas-Flores and L.M. Romero-Guerrero 174

Thermodynamic Study of Iridium in HCl: The Effect of Concentration

S.S. Serrano López, V.E. Reyes-Cruz, C. Hilda-Rios-Reyes and M.A. Veloz Rodríguez 179

Wear Characterization of Nodular Cast Iron Based on Clusters of Nodules

C.A. Paredes-Orta, F. Manriquez-Guerrero, J. Torres-González, F. Castañeda and I.R. Terol-Villalobos 184

Chapter 3: Materials Applications

<i>In Vivo</i> Biocompatibility of Dental Scaffolds for Tissue Regeneration L.J. Villarreal-Gómez, R. Vera-Graziano, M.R. Vega-Rios, J.L. Pineda-Camacho, P.A. Mier-Maldonado, H. Almanza-Reyes and J.M. Cornejo Bravo	191
Bismuth and Gold Nanoparticles Prepared by Laser Ablation in Aqueous Solutions L. Escobar-Alarcón, E. Velarde Granados, D. Villa Sanchez, O. Olea-Mejia, E. Haro-Poniatowski, A. Arrieta Castañeda and D.A. Solis-Casados	196
Developing Alternative Building Materials from Mining Waste J. Flores Badillo, J. Hernández Ávila, F. Patiño Cardona, N.Y. Trápala Pineda and J.A. Ostos Santos	202
Elimination of Dyes Present in Textile Industry Wastewater Using Adsorbent Materials Prepared from Broccoli Stem A.A. Peláez Cid, A. Vázquez Barranco and A.M. Herrera González	207
Photocatalytic Degradation of Malachite Green Dye and Pharmaceuticals Using Co:TiO₂ Thin Films J. Perez-Alvarez, D.A. Solis Casados, S. Romero and L. Escobar-Alarcón	212
Selective Recovery of Zn(II) and Fe(III) by Liquid - Liquid Extraction Using Cyphos IL 109 as Extractant L.H. Perales, L.E. Hernández Cruz, F.L. García, B.M. García and M.Á. Rodríguez	217
Strength Insertion Implant Fixed on Trabecular Bone Density Based on Insertion Torque and Pull Out C.I.G. López, J.C.M. Moreno and J.C. Pinillos	222
Synthesis of Silver Submicroparticles and Nanoparticles over Microfiltration Membranes Impregnated with Surfactants M.d.P. González, R.D. Rivera-Rangel, P. Herrasti and M. Avila-Rodriguez	227

Chapter 4: New Materials Development and Simulation Materials

Anisotropic Emission in Strain-Balanced Quantum Well Solar Cells C.I. Cabrera, J.C. Rimada, L. Hernandez, A. Enciso and D.A. Contreras-Solorio	235
Composites Manufactured with Recycled Pet and Reinforced with Zinc Particles J. Osorio-Ramos, M. Romero-Romo, E. Refugio-García, E. Terres-Rojo and E. Rocha-Rangel	240
Development and Characterization of Cementing Composites with Blast Furnace Slag Replacement R. Sánchez-Ramírez, M. Diaz-Cruz, S. Díaz de La Torre and E. Rocha-Rangel	246
Effect of Nanostructures on Corona Poling Assisted Second Harmonic Generation in Hybrid Organic-Inorganic Films A. Franco, R.O. Torres-Mendieta, E. Alvarez-Zauco and J.A. García-Macedo	251
Obtaining Al₂O₃/Ti/TiO₂-Functional Graded Material through Air Oxidation of Al₂O₃/Ti Composite E. Rocha-Rangel, J. Rodriguez-Garcia, S.J. Esparza-Vazquez, J.G. Miranda Hernández and E. Refugio-García	256
Rutile Molecular Model and its EUC Determination by PM7 C.H. Rios-Reyes, L.H. Mendoza Huizar and J. Coreño-Alonso	260
