

# Table of Contents

<b>Thermodynamic Analysis of SHS Processes</b>	
S.S. Mamyan	1
<b>Thermodynamic Analysis of Combustion Synthesis of Alumia/Boride Composite</b>	
S. Yin, Y. Liu and H. Lai	9
<b>Mathematical 3d-Modeling for Spinning Gasless Combustion Waves</b>	
T.P. Ivleva and A.G. Merzhanov	13
<b>The Convective-Conductive Mode of the Reaction Zone Propagation: a New Mechanism of Combustion of 'Gasless' Systems</b>	
B.S. Seplyarskii	21
<b>Non-Equilibrium Thermodynamic and Nonlinear Dynamic Analysis of Combustion Wave in SHS Process</b>	
Z.G. Zou, Z.Y. Fu and R.Z. Yuan	27
<b>The Effect of Electric Diffusion and Heat Losses on the SHS Wave</b>	
I.M. Kotin	35
<b>Metal Liquid in SHS Reaction for TiB<sub>2</sub> Ceramics</b>	
Z.Y. Fu, H. Wang, W.M. Wang, Q.J. Zheng and R.-. Yuan	41
<b>The Role of Molecular Gas-Phase and Conduction Heat Transfer in Propagation of Combustion Wave</b>	
A.Y. Gordopolov, S.G. Vadchenko and A.S. Mukas'yan	45
<b>Shock-Induced Chemical Reaction in Ti-C Blends</b>	
A.Y. Gordopolov, Y.A. Gordopolov, V.M. Fedorov and R.M. Shikhverdiev	49
<b>Kinetic Parameters of the Thermal Explosion Reaction of Ni-Al-Fe System</b>	
X.D. He, J.C. Han and X.H. Zhang	51
<b>SHS under Microgravity</b>	
A.G. Merzhanov, A.S. Rogachev, V.N. Sanin, V.A. Shcherbakov, A.E. Sytschev and V.I. Yukhvid	55
<b>Self-Organization of the Liquid Flame Front</b>	
A.I. Lesnikovich and S.A. Kirillov	63
<b>Luminescence of the Corundum-Containing Ti Compounds Composites by Self-Propagating High-Temperature Synthesis</b>	
T.D. Xia, T.Z. Liu, W.J. Zhao, B.Y. Ma and T.M. Wang	71
<b>Reactive Fabrication of Nanocrystalline Titanium Carbides by Mechanical Alloying</b>	
X.K. Zhu, B.C. Cheng, K.Y. Zhao, Q.S. Lin and X.Q. Zhang	77
<b>Chemically Activated SHS in Synthesis of Refractory Carbide Powders</b>	
S.L. Kharatyan and H.H. Nersisyan	83
<b>Multiphase Ceramics and Cermets Made in One Step Synthesis and Densification by SHS/QP</b>	
H. Wang, Z.Y. Fu, W.M. Wang, Q.J. Zhang and R.Z. Yuan	93
<b>Hysteresis Effects in High-Temperature Resistivity of SHS Ceramics</b>	
A.V. Karpov, I.P. Borovinskaya, Y.G. Morozov and V.A. Bunin	97
<b>Joining of SiC Ceramic to Ni-Based Superalloy with Cu Intermediate Layer</b>	
S.J. Li, X.B. Liang, H.P. Duan, X.M. Zang and Y. Zhang	101
<b>TiNi and Other Intermetallic Compounds Prepared by SHS Process and the Applications</b>	
Y.J. Wu, X.M. Zhang, Y.Q. Li, W.H. Yin, L. Zhou and Z.H. Jin	111
<b>Investigation on In-Situ NiAl-Based Composite Fabricated by HPES</b>	
J.T. Guo and C.Y. Cui	117
<b>Thermodynamic Analysis of TiO<sub>2</sub>-Al-C-ZrO<sub>2</sub> Combustion Synthesis System</b>	
Q. Tang, Q. Dong, W.C. Li and D.Y. Wu	129
<b>Characteristics of Combustion Reaction in Al-Fe<sub>2</sub>O<sub>3</sub> System under Gravitational Field</b>	
T. Lin, S.J. Guo, S. Yin, Z.M. Guo and Y. Wei	133
<b>Porous NiTi Alloy Prepared from Combustion Synthesis</b>	
Y.H. Li, L.J. Rong and Y.Y. Li	137
<b>Development of SHS Nitride-Based Composites in LSCPM, USTB of China</b>	
C.C. Ge, J.T. Li and K.X. Chen	143

<b>Self-Propagating High-Temperature Synthesis of Nitrides - Progress of SHS in SICCAS</b>	
B.L. Zhang, H.R. Zhuang, W.L. Li, S.Y. Xu, X.Y. Luo and X.R. Xu	153
<b>SHS and Some Properties of Sialon Ceramics</b>	
K.L. Smirnov and I.P. Borovinskaya	159
<b>Synthesis of Si<sub>3</sub>N<sub>4</sub>-TiN-SiC Composites by Combustion Reaction under High Nitrogen Pressures</b>	
X.H. Zhang, X.D. He, J.C. Han and G.Q. Chen	165
<b>Structural Formation and Mechanism in Combustion Synthesis of Nitrogen Ceramics (AlN, Si<sub>3</sub>N<sub>4</sub> and AlN-SiC)</b>	
J.T. Li, K.X. Chen and C.C. Ge	173
<b>Self-Propagating Low-Temperature Synthesis of Ultrafine BaTiO<sub>3</sub> Powders</b>	
C.C. Ge and F. Hu	185
<b>SHS Immobilization of Radioactive Wastes</b>	
T.V. Barinova, I.P. Borovinskaya, V.I. Ratnikov, T.I. Ignatjeva and V.V. Zakorzhevsky	193
<b>Interface Phenomena in Ceramic-Lined Composite Pipes Produced by GS-T SHS Process</b>	
Z.M. Zhao, M.H. Ye, J.J. Wang, X.K. Du and J.H. Wen	201
<b>The Design and Application of Automation Equipment for Producing SHS Curved Ceramic-Lined Composite Pipes</b>	
J.J. Wang, Z.M. Zhao, M.H. Ye, X.G. Chen, X.K. Du and J.H. Wen	207
<b>SHS Welding of Hard Alloy and Steel</b>	
V.A. Shcherbakov	215
<b>Properties of Ceramic-Lined Composite Steel Pipes and their Application</b>	
S. Zhang, X. Zhou and D. Qian	219
