

Table of Contents

Preface

Chapter 1: Semiconductors

Strain Dependence on the Threshold Current between InP Substrate and InP/Si Substrate LDs

G.K. Periyanyagam, K. Agata, T. Ishizaki, J. Zhang and K. Shimomura 3

Advancements in MOSFET Channel Materials a Comparative Review

S. Sania, P. Gangwani, M. Mohil and R. Kaur 15

FinFET vs Planar MOSFET: A Performance-Based Comparative Study

S. Sahu, T. Saikia, P. Gangwani and R. Kaur 29

Morphology-Dependent Magnetism and Raman Modes Induced by Surface-Disorder and Cation-Site Defects in Indium-Substituted SnO₂ Thin Films

S. Ghosh 43

Comparative Analysis of Dual Dopants in Nickel Oxide: Unraveling the Impact of MgRu vs MgCu on Dielectric Properties

A. Alkhatib and Z. Bitar 55

Chapter 2: Composites

Effect of Particle Size Variation on the Microstructure, Mechanical, and Corrosion Properties of TiNi-Nano Silica Reinforced Composites

M. Ahmad 83

Multifunctional Lignin/Natural Rubber Composite Films for Sustainable Nitrogen Delivery in Agriculture

S. Saengsuwan, A. Thanong and S. Radabutra 93

Chapter 3: Materials and Techniques in Civil Engineering

Thermal Efficiency of Polystyrene-Filled Concrete Blocks in Residential Buildings: A Case Study in Al Amarah City

I.A.H. Al-Najati, W.K.J. Allamy, D.S.J. Al-Saedi and M.A.M. Al Saiydee 107

Optimizing PCM-Enhanced Multi-Layer Roofs for Nearly Zero Energy Building Performance in Arid Climates

H. Abdulelah, A.L. Tarish and A.H.N. Al-Mudhafar 121

Chapter 4: Waste Recycling

Nickel Recovery from Spent Catalyst as Active Material in Nickel Manganese Cobalt (NMC) Cathode Synthesis

A. Jumari, E.R. Dyartanti, A. Nur and R.R. Sianturi 137

Synthesis and Characterization of Prussian Blue and Oxide Red Pigments from Metal Waste

E.N. Shohih, N.M. Apdhila and M.I. Hakim 145

Bioplastic Films Derived from Corn Cob Waste and ZnO from Battery Waste: Mechanical Properties and Electrical Conductivity

M. Kaavessina, M. Gasim, S.N. Wulandari, Z.S. Umam, S. Sulastri and T.Y. Lim 157
