

Table of Contents

Preface

Quantitative Analysis of Microstructure and Modeling of Sintering J.M. Chaix	1
Computer Simulation of Liquid Phase Sintering: Gravity Induced Skeletal Structure Evolution – A Review Z.S. Nikolic	19
Deconsolidation of Polycrystalline Skeletons in Sintered Composite Materials A.F. Lisovsky	43
Samsonov's Model for Electronic Mechanism of Sintering and its Relevance G.S. Upadhyaya	57
Solid State Sintering of SiC-Ceramics K. Biswas	71
Liquid Phase Sintering of SiC-Ceramics K. Biswas	91
Doped LaGaO₃ Based Solid Oxide Fuel Cell Materials and their Sintering Aspects: An Overview P. Datta	109
