

# Table of Contents

## Preface

<b>Advanced Materials by Powder Metallurgy - Science and Technology</b> G. Petzow, W.A. Kaysser and J. Kunesch	3
<b>The Preparation of Multiphase Materials through Self-Sustaining Powder Reactions</b> Z.A. Munir	37
<b>Process Design for Solid State Amorphization in High-Energy Ball Milling</b> H. Kimura	47
<b>Synthesis of Multiphase Powder Systems with a Composition Gradient</b> B. Ilschner and D. Delfosse	61
<b>New Powder Production Techniques for Special Applications</b> M. Hohmann, M. Ertl and S. Jönsson	71
<b>Specific Aspects of Sintering of Micropowders</b> R. Pampuch and J. Lis	83
<b>Synergetics of Sintering of Multiphase Metal and Ceramic Alloy Systems</b> G.S. Upadhyaya	95
<b>Constitution and Properties of Two- or Three-Phase Hard Material Composites</b> H. Holleck	107
<b>Phase Relations, Sintering and Microstructure Development in P/M Hardmagnets Based on Fe-Nd-B</b> E.-. Henig	109
<b>Phase Equilibria in RE-Fe-B System at 1000°C</b> M. Uma Devi and K.P. Gupta	111
<b>Use of Sintering Diagrams in Developing Porous Filters from Water Atomized Stainless Steel Powders</b> V.J. Goel, S.N. Malhotra, N.C. Soni, A. Mohan and P. Ramakrishnan	113
<b>The Hypothesis of Constant Relative Responses and its Application to the Sintering Process of Spherical Powders</b> J. Viplava Kumar	125
<b>Consolidation of Rapidly Quenched Powders</b> B.L. Mordike and K.U. Kainer	135
<b>Hot-Isostatic-Pressing for Making Parts from Prealloyed Powders</b> V.K. Chandhok and J.H. Moll	149
<b>Overpressure Sintering - An Investment in Quality and Costs</b> R.E. Bauer	163
<b>Gas Pressure Sintering with Controlled Densification</b> H.U. Kessel and W. Engel	175
<b>Methods, Process and Application of High Pressures and Temperatures on Cemented Carbides and Engineering Ceramics</b> H.N. Seetharam, S.N. Bhat and A.S. Choudhury	185
<b>Structure/Property Relationships in Sintered Heavy Alloys</b> D.V. Edmonds	193
<b>Sintering and Sintered Properties of W-Mo-Cu-Ni Heavy Alloys</b> V. Srikanth and R. Roy	207
<b>The Dependence of Sintered Properties on the Cooling Rate in the Activated Sintered W-Compact</b> I.H. Moon, S.H. Cho, M.J. Suk and S.C. Yoo	217
<b>Liquid Phase Sintering in High Speed Steels</b> K.M. Kulkarni	223
<b>The Properties and Structure of Ag-Sn Compacts during Liquid Phase Sintering</b> T. Piszczek and S. Stolarz	235
<b>Sintering and Desintering of Prealloyed Cu-Sn Powder Compacts under the Influence of Various Driving Forces</b> H.S. Badari Narayana and M.M. Godkhindi	243

<b>Technological Evaluation of Aluminium Bronze Friction Material</b> V. Sridhara and K. Gopinath	251
<b>Sintering of Lead Bronze Containing Tin and its Based Porous Bearings</b> S. Kumar, G.S. Upadhyaya and M.L. Vaidya	259
<b>Elevated Temperature Deformation Response of Powder Processed Aluminum Alloys with Intermetallic Dispersions</b> G.S. Murty	269
<b>P/M Al-Si-Al<sub>2</sub>O<sub>3</sub> Composite for Wear and High Temperature Resistance Applications</b> J. Duczcyk, D. Bialo, T.L.J. de Haan and R. Yoshimura	281
<b>Preparation and Properties of 6061 Aluminium Alloy Based P/M Particle Composites</b> A.K. Jha, S.V. Prasad and G.S. Upadhyaya	283
<b>Sintered 6061 Aluminium Alloy Solid Lubricant Particle Composites: - Sliding Wear and Mechanisms of Lubrication</b> A.K. Jha, S.V. Prasad and G.S. Upadhyaya	289
<b>Effect of Compaction Pressure on the Sinterability of Rapidly Solidified Al-Si Alloy</b> S.K. Mukherjee and G. De	299
<b>Consolidation Studies of Ti-6Al-4V Powders Obtained by Elemental Blending</b> N.C. Birla and W. Krishnaswamy	307
<b>Synergistic Alloying-Sintering Effects in Iron-Silicon-Phosphorus Compacts</b> X. Qu, J.A. Lund and S. Gowri	319
<b>Influence of Mo on Steam Treatment of Sintered Steels Based on Atomized Iron Powder Containing Phosphorus</b> N.A. Siddiqi and M. Hamiuddin	331
<b>Sintering Characteristics of Iron-Copper-Carbon System</b> R.R. Dash, S.K. Singh and A. Nag	339
<b>Effect of Minor Chemistry Variations on the Structural and Mechanical Behaviour of a PM Nickel Base Superalloy</b> K.K. Sharma, P.S. Misra, D. Banerjee, S.N. Tewari and N.C. Birla	347
<b>Liquid Phase Assisted Sintering of 316L Austenitic Stainless Steel-Y<sub>2</sub>O<sub>3</sub> Composites</b> S. Lal and G.S. Upadhyaya	361
<b>P/M Components for Valve Train Applications in Automotive Engines</b> B. Krentscher, V. Arnhold and K.D. Krishnanand	369
<b>Effects of Small Amounts of Metal and Al<sub>2</sub>O<sub>3</sub> on Toughening of Ti(C,N)-Cr<sub>3</sub>C<sub>2</sub> Ceramics</b> T. Watanabe, K. Shoubu, T. Doutsu and Y. Kai	383
<b>Processes for Recycling Cemented Carbides and Some Aspects of the Influence of Recycled Materials on Finished Products</b> B. Aronsson and H. Pastor	397
<b>Effect of Carbide Powder Type and Refractory Compound Additions on Properties of Sintered WC-10 Co Hard Metals</b> D. Basu, S.K. Bhaumik and G.S. Upadhyaya	409
<b>Sintering Technology in the Manufacture of Nuclear Fuels</b> P.R. Roy and H.S. Kamath	415
<b>'Additives' in Sintering Advanced Ceramic Nuclear Fuel Pellets</b> C. Ganguly	433
<b>High-Strength Silicon Carbides by Hot Isostatic Pressing</b> S. Dutta	445
<b>Alumina-SiC Composites from Kaolinite-Carbon Precursors by Hot Pressing</b> M.R. Penugonda and A.C.D. Chaklader	456
<b>Sialon Ceramics Sintered with Different Metal Oxide Additives</b> T. Ekström	471
<b>Microstructure and Oxidation Behaviour of Boron Carbide Based Ceramics Doped with Polysilane Derived Silicon Carbide</b> R. Lörcher, K. Strecker, R. Riedel, R. Telle and G. Petzow	479
<b>Effect of Temperature on the Sintering Zirconia Based Mixed Oxide Powder Compacts</b> P. Das	493
<b>In Situ Growth of Ti-Rich Reinforcement in Mg-PSZ for Improved Thermal Shock Resistance</b> P.R. Krishnamoorthy, P. Ramaswamy and B.H. Narayana	501

<b>Powder Metallurgy and Ceramic Copper Oxide Superconductors</b> N.C. Kothari	509
<b>Sintering and Microstructure Evolution in ZnO-Multiphase Ceramics</b> M. Trontelj and D. Kolar	537
<b>Non Ohmic Behaviour and Microstructure Control of Rare Earth Doped ZnO Containing K<sub>2</sub>O</b> H.K. Varma, K.P. Kumar, K.G.K. Warriar and A.D. Damodaran	549
<b>High Voltage Dy and Nd Doped BaTiO<sub>3</sub> Ceramic Capacitor Dielectric from Commercial Grade Raw Materials</b> P.R. Krishnamoorthy, P. Ramaswamy and B.H. Narayana	555
<b>Ceramic Capacitor Dielectric Composition Analysis - A Case Study</b> P.R. Krishnamoorthy, P. Ramaswamy and B.H. Narayana	563
<b>Case Studies in R &amp; D Management Systems in a Ceramic Producing Complex</b> D. Ramakrishnan and K.A. Srinivasan	569
<b>Performance of Tabular Alumina Pebbles in Indian MHD Air Preheaters</b> K. Thiagarajan, A.B. Datta and N. Ram Mohan	577
