

Table of Contents

Preface

Chapter 1: Plenary Session

Small Punch Testing - The Transition from a Code of Practice to a European Testing Standard

K. Matocha and R. Hurst 3

FEM Analysis of Small Punch Tests

M. Abendroth 23

The High Temperature Creep Properties of a Thermally Sprayed CoNiCrAlY Coating via Small Punch Creep Testing

G.A. Jackson, H. Chen, W. Sun and D.G. McCartney 37

Chapter 2: Small Punch Testing for Tensile and Fracture Behaviour

Mechanical Property Characterisation of Electron Beam Melted (EBM) Ti-6Al-4V via Small Punch Tensile Testing

H. Illsley, R.J. Lancaster, R. Hurst, S. Jeffs and G. Baxter 51

A Novel Approach to Small Punch Fatigue Testing

R.J. Lancaster, H. Illsley, R. Hurst, S. Jeffs and G. Baxter 61

Small Punch Testing of Sanicro 25 Steel and its Correlation with Uniaxial Tests

P. Dymáček, F. Dobeš and L. Kloc 70

Transition Region of Nuclear Vessel Steels: Master Curve Approach Using Small Punch Notched Specimens

R. Lacalle, D. Andrés, J.A. Álvarez and F. Gutiérrez-Solana 77

The Present SP Tests for Determining the Transition Temperature T_{SP} on "U" Notch Disc Specimens

K. Matocha, O. Dorazil and R. Hurst 87

Small Punch Testing of Powder Bed Direct Laser Deposits

S. Davies, R.J. Lancaster, S. Jeffs and G. Baxter 94

A Study on Small Punch Test to Characterize Mechanical Property of Aged High-Density Polyethylene (HDPE)

B. Zhao, J. Guo, Y.X. Yu, X.T. Zhang, T. Xu and B.A. Shou 104

Chapter 3: Small Punch Creep Testing

Influence of the Upper Die and of the Indenter Material on the Time to Rupture of Small Punch Creep Tests

D. Andrés, P. Dymáček, R. Lacalle and J.A. Álvarez 119

Effect of Build Orientation and Post Processing of a Direct Laser Deposited Nickel Superalloy as Determined by the Small Punch Creep Test

S. Jeffs, R.J. Lancaster and S. Davies 128

Estimation of Anisotropy of Creep Properties in Al and Mg Alloys by Means of Small Punch Test

F. Dobeš and P. Dymáček 137

The Application of the Small Punch Tensile Test to Evaluate the Ductile to Brittle Transition of a Thermally Sprayed CoNiCrAlY Coating

G.A. Jackson, W. Sun and D.G. McCartney 144

Chapter 4: Small Sample Test Technique

Study on High Temperature Creep Test of P92 Material Based on the Minimally Invasive Technique	
C. Zhou, J. Liang and B. Wang	159
Small Ring Testing of High Temperature Materials	
C.J. Hyde, T.H. Hyde and W. Sun	168
Research on Fatigue Properties of Micron Scale Copper Bonding Wires	
Z.H. Zhao, F.C. Qi, S. Zhao and M. Lei	176
Development of Fatigue Testing Machine for Small Sized Specimen in Liquid Environment	
T. Sugimoto, T. Itoh, M. Sakane and C. Hisaka	185
Low Cycle Fatigue Test of Lead Free Solders Using Small Sized Specimen	
Y. Konishi, T. Itoh, M. Sakane, F. Ogawa and H. Kanayama	194
An Alternative Method for Strain-Controlled Fatigue Test at Elevated Temperature	
Z.H. Xia and J. Chen	202
A Novel Method to Extract the Plastic Properties of Metal Materials from a Continuous Spherical Indentation Test	
Z. Jin and J.P. Zhao	206
Determination of Creep Properties from Small Punch Test with Reverse Algorithm	
Y.Z. Li, P. Stevens, J.F. Geng, D.F. Ma and L. Xu	212
Development of Testing Machines and Equipment for Small Punch Testing, Proposals for Improvement of CWA 15627	
D. Omacht, Z. Kubanek and R. Dolezal	237

Chapter 5: Other Miniature Test Techniques

Evaluation of Creep Deformation by Indentation Test with a Constant Depth - Applicability for Inhomogeneous Materials	
A. Takita, K. Sasaki, K. Ohguchi and H. Fujiki	251
Determination of Creep Damage Properties from a Miniature Three Point Bending Specimen Using an Inverse Approach	
J. Lu, A. Campbell-Brown, S.T. Tu and W. Sun	260
Study of Fatigue Properties of Materials through Cyclic Automated Ball Indentation and Cyclic Small Punch Test Methods	
R.V. Prakash	273
Surface Defect Inspection of Pressure Equipment Based on Indentation and Numerical Simulation	
H.R. Zhao and G.X. Cheng	285
Mechanical Behavior Evaluation of a Nickel-Aluminum Bronze Alloy Weld with Micro Indentation Method	
D.L. Rao and Y.Z. Shen	293
Verification and Calibration of Instrumented Indentation Testing Machines	
M.C. Sun, C.Q. Zhang, C. Yang and D.B. Han	301
Research on Microstructures and Mechanical Properties of Fiber Laser Welding of A7N01 Al-Alloy	
Y.S. Jiang, S.L. Yang, Y. Wang and Z.H. Yang	310
