Preface and Organizing Committee

Chapter 1: Materials and Technology

Using Plain Chute to Recovery Gold from Leaching Residue Q.J. Liu, R.D. Deng and J.L. Yang	3
Normal Stress Distributions in a Single-Lap Adhesively Bonded Joint under Tension X.C. He	9
On the Language Performance of Composite Materials in the Art Y.Z. Tian and X.J. Tian	14
Preparation of Low-Temperature Sintered Ba₂Ti₉O₂₀ Ceramics Doped with B₂O₃ by Different Method Q. Li, B. Jin, J.L. Huang, Y.J. Gu and L.H. Li	19
Coating Postponed-Set Mortar with a Single-Screw Extruder J.H. Zhang, X. Xing and H.F. Zhong	24
The Design of the Vacuum Plastics-Absorption Mould for Fridge Freezer Inner Shell H.L. Yuan	29
Study on Water Absorption and Impact Properties of Vegetal Composites Material: Composite Structures A. Abdal-Hay, D.Y. Jung, K.I. Lee, G.T. Abdel-Jaber and J.K. Lim	34
Induced Synthesis of Hydroxyapatite by Chitosan for Enamel Remineralization K. Tian, M. Peng, W. Fei, C.H. Liao and X.H. Ren	40
Effect of Hydrothermally Prepared Graft Copolymer Addition on a Brittle Matrix: A Preliminary Study on Glass Fiber Reinforced PLA/LLDPE-g-MA Composite A. Kunwar, R. Gurung, S.G. Park and J.K. Lim	46
Effects of Reductant Amount and Capping Agent on Tin Nanoparticles Synthesis Using a Tin(II) 2-Ethylhexanoate Precursor S.S. Chee and J.H. Lee	52
Layered Cellulose Nanofibers Nanocomposites via Layer by Layer Assembling S.Y. Fu, P.G. Song, Z.J. Ni and Q. Wu	56
The Effect of Nano-Particles in Superconducting MgB₂ Thin Films on Stainless Steel Substrates Y.B. Wang, Y.L. Chen and Q.R. Feng	62
Effects of Chitosan/TiO₂ Composite Coating on Keeping-Fresh of Stauntonvine Z. Yuan, M.L. Wang and X. Li	68
A Study of the Performance of Dissimilar A-TIG Welds H.K. Cheng, L.T. Yao and P.C. Chang	74
Experiment Study on Mechanical Performance of Shale Lightweight Aggregate Concrete L. Li, Q. Wang, Y. Wang and Z.Y. Ding	80
Study for the Reason of Chromium Coating Seepage on Piston Rods and the Anti-Seepage by Using Ultrasonic Elliptical Vibration Burnishing Process W. Qin and D.Y. Zhang	85
Friction and Wear Mechanism between Rubber and Nickel for Water Lubricated Bearings Y.Q. Wang, X.J. Shi and F.E. Ren	91
Study on the Deposition and Characterization of Nanocrystalline Diamond Composite Films Y.P. Ma	95

Chapter 2: Mechanical Systems and Structures

An Identification Method of Physical Parameters for nR Serial Robots L.L. Song	103
Vibration Fault Diagnosis of Rotating Machine Based on the Principle of Entropy Increase C. Yu, J.L. Li and S.H. Huang	109

Study on Damage Mechanism for Foundation Pile of Girder Bridge under Seismic Influence H.K. Chen, H.M. Tang, X.T. Zhao, Y. Hu and X.Y. He	115
Study on Numerical Simulation for Failure Process of Girder Bridge under Seismic Influence H.K. Chen, H.M. Tang, T. Hu, Y. Hu and X.Y. He	122
Analysis of Vane Hydraulic Damp Dynamic Seal Mechanism and Performance Influencing Factors W.R. Wang, X.Q. Yan, Z.H. Sun and Q. Jiang	130
