SCTE Historical Review

Fifty Years of Conferences on Solid Compounds of Transition Elements

W. Jeitschko 3

Chapter 1: Intermetallic Compounds

Inelastic Neutron Scattering Investigations of an Anisotropic Hybridization Gap in the Kondo Insulators: $\text{CeT}_2\text{Al}_{10}$ (T=Fe, Ru and Os)

D.T. Adroja, Y. Muro, T. Takabatake, M.D. Le, H.C. Walker, K.A. McEwen and A.T. Boothroyd 11

Crystal Structure of the Ternary Compound $\text{Sc}_6\text{Cu}_{24.1}\text{Al}_{11.9}$

N. Klymentiy, N. Semuso, S. Pukas, Y.O. Tokaychuk, L. Akselrud and R.E. Gladyshevskii 26

Effect of Pressure on the Spin Fluctuations and the Helical Ferromagnetism of MnSi

A.A. Povzner, A.G. Volkov and I.A. Yasyulevich 30

Electric and Magnetic Properties of Transition-Metal Carbide Sc_3TC_4 (T=Co, Ru, Os)

T. Kazama, M. Maeda, K. Takase, Y. Takano and T. Watanabe 34

Enthalpies of Formation of Equiatomic Binary Hafnium Transition Metal Compounds HfM (M=Co, Ir, Os, Pt, Rh, Ru)

H. Krarcha, A. Ferroudj and S. Mesadia 38

Hydride Formation in the $\text{TbNi}_{0.4}\text{Co}_{0.6}\text{-H}_2$ System

E. Anikina, Y. Yaroplov, V. Somenkov and V. Verbetsky 43

Investigation of Mechanochemical Synthesized Tungsten Silicides from WO_3 , SiO_2 and Mg Blends

D. Ovalı and M.L. Öveçoğlu 47

Microstructural Characterization of New Super-Ferritic-Martensitic Stainless Steel

S. Souto Maior Tavares, A. da Cunha Rocha, M.R. da Silva, C.A. Silva de Oliveira and R. Pereira Carneiro da Cunha 52

Novel Ternary Stannides and Plumbides of Rare-Earth Metals and Titanium with ZrFe_6Ge_4 -Type Structures

O.Y. Senchuk, Y.O. Tokaychuk, P.Y. Demchenko and R.E. Gladyshevskii 56

Perpendicular Magnetic Anisotropy and Intralayer Interactions in a Single Layer of CoPt Nanoparticles

J. Rubín, A.I. Figueroa, J. Stankiewicz, F. Bartolomé, L.M. García, J.C. Cezar, F. Petroff, C. Deranlot and J. Bartolomé 60

Quaternary Derivatives of the Structure Type BaHg_{11}

N. Klymentiy, S. Pukas and R.E. Gladyshevskii 64

Selection, Shaping and Thermal Analysis of $\text{Y}_2\text{Fe}_{17-x}\text{Co}_x$ Series for Magnetocaloric Heat Conversion

A. Dianoux, C. Rado, F. Servant, Y. Jannot and T. Mazet 68

Structural and Microstructural Characterization of CoCrFeNiPd High Entropy Alloys

M. Calvo-Dahlborg, J. Cornide, U. Dahlborg, S. Chambrelan, G.D. Hatton and A. Fones 72

The Nanoflower-Like Morphology and Magnetism of As-Milled $\text{Ho}(\text{Ni}_{0.8}\text{Co}_{0.2})_3$ Powders Prepared by HEBM

A. Bajorek, C. Berger, K. Prusik, M. Wojtyniak and G. Chelkowska 76

The Phonon Mediated Anomalies of Thermal Expansion in Transition-Metal Compounds and Emergent Nanostructures

V. Eremenko, V. Sirenko, A. Dolbin, S. Feodosyev, I. Gospodarev, E. Syrkin, I. Bondar and K. Minakova 81

$\text{U}_3\text{Pt}_{12}\text{Si}_4$: Structural and Physical Properties of a New Uranium-Platinum-Silicon Ternary Compound

N. Brisset, G. Chajewski, A. Pikul, O. Tougait and M. Pasturel 86

Chapter 2: Metal Oxides

Origin of the Multiferroic-Like Properties of $\text{Er}_2\text{CoMnO}_6$

J. Blasco, G. Subías, J. García, J. Stankiewicz, J.A. Rodríguez-Velamazán, C. Ritter and J.L. García-Muñoz 95

Anomalous Thermal Behaviour of Mixed Cobaltites-Ferrites and Cobaltites-Chromites

L. Vasylechko, O. Pekinchak, V. Hreb, Y. Prots, D. Chernyshov and A. Fitch 99

Dielectric Properties of New $\text{Cd}_{1-3x}\text{Dy}_{2x}[\text{I}]_x\text{MoO}_4$ Molybdates (where 0

P. Urbanowicz, M. Piątkowska, M. Pawlikowska, E. Tomaszewicz, H. Duda and T. Groń 103

Magnetic Properties of $\text{CdMoO}_4\text{:Dy}^{3+}$ Single Crystal

T. Groń, E. Tomaszewicz, M. Berkowski, M. Oboz, J. Kusz, H. Duda and P. Urbanowicz 107

Element Substitution Effects on Magnetic Properties of Spin-Frustrated Spinel ZnB_2O_4 (B=Cr and Fe)

T. Ono, D. Oharu, S. Kobayashi, H. Yamada, S. Takita, M. Maeda, K. Takase, Y. Takano and T. Watanabe 111

Magnetic Properties of Spinel Cobaltite $\text{A Co}_2\text{O}_4$ (A=Zn and Li)

R. Murai, M. Maeda, K. Takase, Y. Takano and T. Watanabe 115

Negative Magnetization in $\text{NdFe}_x\text{Ga}_{1-x}\text{O}_3$ Studied by XMCD

F. Bartolomé, L. Badía-Romano, M. Parra-Borderías, J. Rubín, F. Wilhelm, A. Rogalev and J. Bartolomé 119

Structural Electronic and Optical Properties of MgO, CaO and SrO Binary Compounds: Comparison Study

S. Labidi, J. Zeroual, M. Labidi, K. Klaa and R. Bensalem 123

Chapter 3: Magnetocaloric, Thermoelectric and Energy Storage Materials

Transition Metal Based Magneto Caloric Materials for Energy Efficient Heat Pumps

E. Brück, H. Yibole, V.T. Nguyen, X.F. Miao, M. Boeije and N. van Dijk 129

Tetrahedrites for Low Cost and Sustainable Thermoelectrics

A.P. Gonçalves, E.B. Lopes, J. Monnier, E. Alleno, C. Godart, M.d.F. Montemor, J.B. Vaney and B. Lenoir 135

Enhanced Magnetocaloric Effect by the Rare Earth Polarization due to the Exchange with a Transition Metal - Study of GdCrO_4

E. Palacios, C. Tomasi, R. Saez-Puche, A.J. dos Santos-García, F. Fernandez-Martinez and R. Burriel 139

Magnetocaloric Properties of MnBi Compound as a Function of Grain Size

C. Curcio, E.S. Olivetti, L. Martino, M. Küpferling and V. Basso 143

Synthesis and Structural Characterization of $\text{Ca}_{14}\text{Nb}_x\text{In}_{1-x}\text{As}_{11}$ ($x \approx 0.85$)

Y. Wang and S. Bobev 147

Thermal Instability of Holmium and Thulium Dodecaborides in Vacuum

D. Voronovych, A. Taran, N. Shitsevalova, G. Levchenko and V. Filipov 152

A Potential in Thermoelectric Oxide Phononic Crystal

N. Satoh 156

A Series of $[\text{Ln}(\text{NO}_3)_3(4'-(4\text{-Bromophenyl})-2,2':6',2''\text{-Terpyridine})]$ Lanthanide Derivatives

P. Gallardo, E. Abas, A. Buceta, F. Merchán, A. Luquin, S.A. Haque and M. Laguna 160

Correlation between the Hydrogen Absorption Properties and the Vanadium Concentration of Ti-V-Cr Based Alloys

N.E. Skryabina, D. Fruchart, N.A. Medvedeva, P. de Rango and A.A. Mironova 165

Chapter 4: Multifunctional Materials

Chemical Bonding Specifics of Hybrid Metal-Polymer Nanocomposites Based on Cobalt Nanoparticles and Polyacrylonitrile: X-Ray Spectroscopy Investigation

G.E. Yalovega and T. Semenistaya 175

Formation of Nanostructured Ni-TaC and Fe-TaC Composite Powders via Mechanical Alloying A. Şelte and B. Özkal	179
Low-Dimensional Gadolinium Polyselenides: Thermodynamic Modelling, Crystals Growing and Crystal Structure T.P. Chusova, L. Zelenina and N. Podberezskaya	183
Synthesis and Characterizations of Titanium Tungstophosphate Nanoparticles for Heavy Metal Ions Removal M.A. Ghanem, N.H. Khedary, A.M. Almayouf and M.A. Salah	187

Chapter 5: Strongly Correlated and Superconducting Compounds

Magnetic Instabilities in Non-Fermi Liquid Ce₃Pd₄Si₄ Driven by Magnetic Dilution K. Sirak, N. Robisch, L. Salamakha, H. Michor and E. Bauer	195
Evolution of Ce-Valence in Ce-Rh-Si Compounds: Intermediate Valence in CeRh₆Si₄ T. Gruner and C. Geibel	199
Phonon Anharmonicity and Thermodynamic Properties of Strongly Correlated Iron Monosilicide A.A. Povzner, A.N. Filanovich and T.A. Nogovitsyna	203
First Principles Study of the Structural, Electronic, and Magnetic Properties of ZrC G.P. Abdel Rahim, J.A. Rodríguez and M.G. Moreno-Armenta	211

Chapter 6: Molecular Magnetism

Partial Oxidation in a Dense Phase Sub-Monolayer of Fe-Phthalocyanine on Ag(110) E. Bartolomé, J. Bartolomé, F. Sedona, J. Herrero-Albillos, J. Lobo, M. Piantek, L.M. García, M. Panighel, A. Mugarza, M. Sami and F. Bartolomé	219
Magnetic Interaction between d¹ [MOR₄][−] Units of Molybdenum and Tungsten M.A. García-Monforte, P.J. Alonso, A.B. Arauzo, M. Baya, F. Luis, A. Martín, B. Menjón and C. Rillo	223
Synthesis, Structure and Some Catalytic Properties of the New Trinuclear Rhenium Cluster Compound Re₃Se₃S₄Br₁₃ V. Subbotin, P.Y. Demchenko, O. Yanko, L. Kharkova, R.E. Gladyshevskii and S. Volkov	227

Chapter 7: Disordered Materials

Effect of Annealing Process on Natural Zeolites from Volcanic Ash for Environmental Applications: Structural and Morphological Characterizations J.A. Calderón, S.M. López, H.P. Quiroz and A. Dussan	233
Contribution of Chemical Methods to the Study of Nanostructure of Ultrafine and Amorphous Materials I. Vasilyeva and V. Logvinenko	237
