Preface

Liquid Phase Sintering of (Ti,W)C-Ni-Co-Cr Cermets: Microstructure and Abrasive Wear Behavior

I. Iparraguirre, L. Lozada, F. Ibarreta, R. Martinez and J.M. Sanchez 1

Effect of WC Content on the Mechanical Properties and High Temperature Oxidation Behavior of Ti(C,N)-Based Cermets

G.T. Zhang, Y. Zheng, Y.J. Zhao, W. Zhou, J.J. Zhang, Z. Ke and P. Feng 9

Thermochemical Basis of the Preparation of Well-Defined Transition Metal Carbide, Nitride and Carbonitride Reference Materials for Electron-Probe Microanalysis (EPMA)

W. Lengauer and M. Bohn 20

Effect of $\text{Ti}(\text{C}_{0.7}\text{N}_{0.3})$ Content on the Microstructure and Mechanical Properties of Ni Bonded NbC-Ti($\text{C}_{0.7}\text{N}_{0.3}$) Based Cermets

S.G. Huang, J. Vleugels, H. Mohrbacher and M. Woydt 43

Ti(C,N)-Based Cermets: Critical Review of Achievements and Recent Developments

W. Lengauer and F. Scagnetto 53
