

Table of Contents

Preface

Concrete Cracks Monitoring of a Practical Bridge by Using Structural Health Monitoring Technique	
L. Xu, Z.M. Qu, J.Q. Zheng and Y. Liu	1
A New Technique for Construction of Limestone Cave	
B. Jin, H.J. Zhang and J.Y. Zhang	9
Analysis on the Collision Couple between Drift Ice and Long-Span Prestressed Concrete T-Rigid Frame Bridge Pier	
J.M. Zhang, Z.G. Yuan and Y.P. Wu	17
Time-Dependent Reliability Prediction Analysis of Bridge Members Considering Dependence of Failure Modes and Proof Modes	
Y.F. Liu and D.G. Lu	25
Vehicle Load Spectrum Simulation of Long-Span Bridges	
T.X. Xu, Y. Li and Z.W. Wu	35
Review of the Rapid Damage Diagnosis of Medium and Short-Span Bridges	
F. Ma, X.Z. Shao and Z.C. Tan	45
Research on Construction Technology of Fixation Stent Installing Comb Expansion Joint	
F. Liu, S.P. Li, Y.Q. Chen and K. Hou	53
Static Model Experiment Study on a Concrete-Filled Steel Tubular Arch Bridge	
Y. Li and Y.X. Wang	61
Evaluation and Study on the Bearing Capacity of Deck Type Concrete Arch Bridge	
H. Sun, D.P. Chen and Y.P. Wu	72
Impact Factor Statistics Analysis of Concrete Filled Steel Tube Arch Bridge Considered Random Roughness of Bridge Deck	
X.W. Hao, F. Ma and Q.Y. Ma	80
