

# Table of Contents

## Preface

### Investigation of a Software for Finite Element Model Updating of Bridges Based on Interface Technology between VC++ and MATLAB

Y. Liu, Z. Lv and H. Zhang 1

### Significant Failure Mode Identification for a CFST Arch Bridge System

X. Gao, L. Wang and T. Zhang 11

### Analysis of Traveling Wave Effect on Half-Through CFST Arch Bridge by Large Mass Method

J. Ma and Y. Li 21

### Dynamic Amplification Factor Measuring of T-Girder Bridges

J.R. Yang, Y. Bai, X.D. Yang and Y. Feng 29

### Resistance and Time-Variant Reliability Updating of Existing Bridge Structures Based on Proof Loads

D.G. Lu, X.P. Fan and D.F. Li 37

### Sensor Optimal Placement for Structural Health Monitoring Based on Stabilization Diagram

C.L. Wu, H.B. Liu and Y. Li 47

### Buffeting Reliability Analysis of Long Span Concrete-Filled Steel Tube Arch Bridge during Construction Stage

Y. Li, J. Ma, H.F. Sheng, L.H. Yin, L. Wang and Z.J. Wang 55

### Study on Vehicle-Bridge Coupling Vibration of Equal Span Girder Bridge of Different Span Number

W.Z. Li, Z.L. Wang, H. Sun and Y. Li 63

### Seismic Performance of a Multi-Span RC Highway Bridge with High Damping Rubber Bearings

Y. Li, J.J. Wang and J.B. Liu 69

### A Meta-Modeling Procedure for Updating the Finite Element Model of an Arch Bridge Model

D.J. Wang and Y. Liu 79

### A Method for Damage Detection Based on Correlation Characteristic of Acceleration Response

W.M. Yan, D.P. Gu, Y.J. Chen and W.N. Wang 87

### Modified Formula of Estimating Fundamental Frequency of Girder Bridge with Variable Cross-Section

Q.F. Gao, Z.L. Wang and B.Q. Guo 99

### Experimental Research of Uniaxial Compression Bearing Capacity on Large Diameter CFST Columns

X.Q. Ren, Y.J. Chen, W.M. Yan, D.P. Gu and J.J. Wang 107

### Experimental Study of Flexural Behavior of RC Beams Strengthening with BFRP Sheets

L.H. Qin, Z.L. Wang, H. Wu and L. Zhang 119

### The Length Optimization of Non-Stayed Cable Segment to Low-Pylon Cable-Stayed Bridge

H.T. Bi and Y. Li 131

### Seismic Performance Analysis of a Multi-Span Continuous Girder Bridge under Multi-Excitation

H. Sun, D.J. Wang and Y. Li 141

### Impact Analysis of the Flexural Rigidity on the Frequency and Tension of the Stay Cable

Y.M. Sun and H. Sun 153

### Time-Dependent Shear Capability Analysis and its Application of Reinforced Concrete Simply-Supported Beam Bridge

Y.Z. Lin, H.H. Tang and Y. Jin 165
