

Table of Contents

Preface, Scientific Committee

Chapter 1: Concrete in Severe Conditions

Field Tests of Cementitious Composites Suitable for Protective Structures and Critical Infrastructure J. Štoller and P. Dvořák	3
Fiber Reinforced Fly Ash Concrete and Extreme Fires M. Broucek, M. Sejnoha and P. Reiterman	12
Numerical Analysis of Effect of Cyclic Thermal Load on Concrete to Concrete Bonding Y. Khmurovska, P. Štemberk, M. Petřík, I. Maruyama and O. Holčapek	18
Long-Term Mechanical Properties of Fiber Reinforced Polymer Bars Exposed to Alkali Environment: Experimental Investigation F. Girgle, L. Bodnárová, A. Matusikova, V. Kostiha, J. Prokeš and O. Januš	27
Lightweight Concrete with Different Content of PP Fibers Exposed to High Temperature M. Rydval, J. Kolisko and I. Šimunek	33
Performance of Dosage of Ceramic Chopped Fibers in Aluminous Cement-Based Composites after Exposure to High Temperatures M. Jogl	38
Resistance of Surface Layers of Concrete against Aggressive Environment R. Pernicová and D. Dobiáš	44
Residual Mechanical Properties of Hybrid Fiber Reinforced HPC Exposed to High Temperatures J. Fořt, A. Trnák, D. Čítek and Z. Pavlík	52
The Issue of Underground Depositing of High Radioactive Waste M. Kočová, Z. Říhová and J. Zatloukal	59
Durability of Two Types of HPC at Sulphate Solution Environment J. Pokorný, M. Pavlíková and Z. Pavlík	66
Assessment of Concrete Quality of Load-Bearing Structure of the Bridge across Otava River No. 121-006 near Zvikov after Fifty Years of Operation in Severe Environmental Conditions S. Rehacek, D. Čítek, J. Kolisko and P. Huňka	72

Chapter 2: Additives and Admixtures

MgO Influence on the Fundamental Characteristics of Corundum Refractory Castables L. Nevřivová	81
The Crystalline Admixture Effect on Concrete and Cement Mortar Compressive Strength J. Pazderka	87
Early Stage Microstructure Development of Cement Paste Modified by Crystalline Admixture V. Hrbek, V. Petráňová and J. Němeček	92
Grindability of CFBC Fly Ash and High Temperature Fly Ash R. Šulc, M. Vašák and J. Poláček	100
The Speed of the Crystalline Admixture's Waterproofing Effect in Concrete J. Pazderka and E. Hájková	108
Synergistic Effect of High Temperature Fly Ash with Fluidized Bed Combustion Fly Ash in Cement Composites M. Tažký and R. Hela	113

Chapter 3: Advanced Binder Systems

Research of the Interaction of Mechanically Activated Fillers Based on Silica and Cement Paste	
V.V. Yadykina, A.M. Gridchin and A. Trautvain	121
Monitoring of Kinetics of Pozzolan Reaction	
M. Čáchová, L. Scheinherrová, L. Kobera, M. Urbanová, J. Brus and M. Keppert	126
Chemical Properties and Reactivity of CFBC Fly Ash	
T. Váchal, R. Šulc, T. Janků and P. Svoboda	132
Impact of Milling Intensifiers on Specific Surface Area of Cement	
D. Dolák and K. Dvořák	140
Influence of Use Fluidized Fly Ash Combined with High Temperature Fly Ash on Microstructure of Cement Composite	
L. Osuská, R. Hela and M. Ťažký	146
Long-Term Development of Strength of Cement Paste with Fly Ash	
O. Zobal and P. Padevřt	151
Nanosilica Activated High Volume Fly Ash Concrete: Effects on Selected Properties	
M. Labaj, R. Hela and I. Hájková	157
Belit Cement Based on Concrete Recyclate	
R. Magrla, D. Gazdič, K. Kulisek and K. Dvořák	163
The Use of FBC Fly Ash in the Preparation of Portland Cement Clinker	
K. Kulisek, D. Gazdič, K. Dvořák and M. Fridrichová	168
Preliminary Study on Design of Biological Shielding Concrete - Selection of Binder	
J. Kořátková and P. Reiterman	173

Chapter 4: Sustainable Concrete and Composites

High-Volume Municipal Solid Waste Incineration Bottom Ash Concrete	
P. Reiterman, O. Holčapek, A. Krausová, M. Šyc and M. Keppert	181
Influence of Mix Proportions on Water Absorption of RCA Concretes	
R. Jaskulski, P. Las and W. Kubissa	187
Effect of Microfillers on Selected Destructive and Nondestructive Mechanical Properties of Cement Mortars: Different Types of Recycled Materials	
T. Plachý, P. Tesárek, L. Hlubocký, J. Hruza, J. Fládr, J. Trejbal and Z. Prošek	195
Carbonation Resistance of Fine Aggregate Concrete with Partial Replacement of Cement	
T. Pavlů and M. Šefflová	201
Probabilistic Modelling of Strength of Concretes with RCA	
R. Jaskulski, A. Stępień and M. Sobocińska	207
Dispersed Reinforcement Based on Natural Fibres Used in Cement Composites	
J. Hroudová, M. Sedlmajer and M. Magdaléna	216
Influence of Waste Crushed Limestone and Waste Micronized Marble Powder on Mechanical Properties of Cement Composite	
Z. Prošek, J. Topič, K. Šeps and P. Tesárek	222
The Carbonation Depth of Fine Recycled Aggregate Concrete	
M. Šefflová and T. Pavlů	228

Chapter 5: Experimental Methods and Measurement

Application of Non-Destructive Methods for the Determination of Microstructural Parameters of Recycled Asphalt Concrete in Track Bed	
M. Lidmila, T. Zikmund, J. Dvořák, J. Kaiser and V. Lojda	235
Experimental Analysis of Strengthening of Dapped-End Beams	
J. Rymeš, P. Štemberk and A. Kohoutková	241
Evaluation of Crack Formation in Concrete and Basalt Specimens under Cyclic Uniaxial Load Using Acoustic Emission and Computed X-Ray Tomography	
A.N. Kravcov, P. Svoboda, A. Konvalinka, E.B. Cherepetskaya, I.E. Šas, N.A. Morozov, J. Zatloukal and J. Kořátková	247

Relationship between Compressive Strength and Young's Modulus of Cement Paste with Recycled Concrete Powder	
J. Topič, J. Trejbal, T. Plachý and Z. Prošek	254
Ultrasonic Pulse Method - Influence of Internal Compressive Stress on Results of Testing Calcium Silicate Bricks	
J. Brožovský	260
Laser-Ultrasonic Testing of the Structure and Properties of Concrete and Carbon Fiber-Reinforced Plastics	
A.N. Kravcov, P. Svoboda, A. Konvalinka, E.B. Cherepetskaya, A.A. Karabutov, D.V. Morozov and I.A. Shibaev	267

Chapter 6: High Performance Concrete

Experimental and Numerical Analysis of Tensile Properties of Textile Reinforced Concrete with Steel Fibres	
J. Machovec, F. Vogel, S. Linforth and P. Konvalinka	275
Controlled Hardening of Silicate Binders for the Optimization of High Performance Composites	
Z. Bažantová, K. Kolář, P. Konvalinka, J. Litoš and M. Petrtýl	281
Comparison of Different Types of Glass Reinforcement for HPC Facade Elements from Mechanical and Economical Aspects	
L. Laiblová, T. Vlach, M. Ženíšek, A. Kumar and P. Hájek	286
Options of UHPC in the Czech Republic	
K. Křížová and R. Hela	292
Preparation of High-Performance Concrete for Adjusting of Possibility of its Usage in Building Practice	
M. Špak	298
Bond Characteristics of TRC Slabs Cured in Autoclave	
O. Holčapek	305
Dosage of Metakaolin in High Performance Concrete	
M. Ženíšek, T. Vlach and L. Laiblová	311
Effect of Placement Method on Projectile Impact Resistance of UHPFRC	
R. Lovichová, M. Mára and J. Fornůšek	316

Chapter 7: Other Special Concrete and Building Composites

An Additively Manufactured Modular Metamaterial Composed of a Single Cell	
V. Nežerka, M. Somr, T. Janda, M. Doškář, J. Zeman and J. Novák	325
Foam Concrete Gravity Wedges as a Thermal Insulation of Flat Roofs	
K. Mikulica and M. Labaj	331
Gypsum Mortars with Different Types of Aggregates: Design and Properties	
M. Doleželová, J. Krejsová and A. Vimmrová	337
Influence of the Aggregate Type on the Properties of Dolomitic Lime-Based Mortars	
M. Vyšvařil, T. Žižlavský and P. Bayer	343
Mechanical Properties of Cement Composites Reinforced by Carbon Microfibers: Compressive and Bending Strength	
P. Tesárek, P. Holub, J. Havrda, J. Fládr, Z. Prošek, J. Trejbal and T. Plachý	351
The Comparison of Water, Water Vapour Transport Properties and Mechanical Characterization of Two Commercial Plasters on Market in the Czech Republic	
M. Čáchová, D. Koňáková, E. Vejmelková, J. Kotátková and R. Černý	357
