## Committees

## Preface

## CHAPTER 1: MATERIALS

### Recent Developments of Magnetic SMA

O. Söderberg, I. Aaltio, Y.L. Ge, X.W. Liu and S.P. Hannula 1

### Texture and Microstructure Studies on Films of Ni-Mn-Ga Produced by R. F. Sputtering and Pulsed Laser Deposition

Y.P. Zhang, R.A. Hughes, J.S. Preston, G.A. Botton and M. Niewczas 11

### High Energy Milling and Hot Extrusion of Equiautomic NiTi Shape Memory Alloy

M.d.C. Silva, L.C.E. da Silva and F. Ambrozio Filho 18

### Magnetic Properties and Microstructures of Rapidly Solidified FePd Alloy Ribbons

Y. Kishi, Z. Yajima, T. Okazaki, Y. Furuya and M. Wuttig 24

### Influence of Substrate Temperature on Texture for Deposited TiNi Films

N. Ikenaga, Y. Kishi, Z. Yajima and N. Sakudo 30

### Surfactant Modified Nickel-Manganese-Gallium Powder and Silicone Composites

R.S. Underhill, K.A. Stevens and G.C. Fisher 35

### Thermomechanical Modelling and Experimental Testing of a Shape Memory Alloy Hybrid Composite Plate

F. Daghia, G. Faiella, V. Antonucci and M. Giordano 41

## CHAPTER 2: PHASE TRANSFORMATION AND MICROSTRUCTURE

### *In Situ* Experimental Methods for Characterization of Deformation Processes in SMAs

P. Šittner, J. Pilch, P. Lukas, M. Landa, H.S. Seiner, P. Sedlak, B. Malard and L. Heller 47

### Effect of the Loading History on Shape Memory Alloy Transformation Temperatures

G. Faiella, V. Antonucci, M. Giordano, F. Daghia and E. Viola 57

### Elemental Interfaces and Displacive Phase Transformations

V. Paidar 63

### Texture Development in Ni-Ti Thin Films

F.M. Braz Fernandes, R.M.S. Martins, N. Schell, K.K. Mahesh and R.J.C. Silva 69

### Two-Way Memory Effect in NiTi Shape Memory Alloys

K. Wada and Y. Liu 77

### Shape Recovery and $\epsilon$ - $\gamma$ Transformation in Fe29Mn7Si5Cr SMA

N. Van Caenegeem, K. Verbeken, R.H. Petrov, N.M. van der Pers and Y. Houbaert 86

### Influence of Thermomechanical Treatment on Transformation Temperatures of Cu-Al-Ni Shape Memory Alloys

A.C.R. Veloso, R.M. Gomes, D.B. Santos, I.C.E.G. Lima, S.J.G. de Lima and T.A.d.A. Melo 92

### Pseudoelasticity of Cu-13.8Al-Ni Alloys Containing V and Nb

R.M. Gomes, A.C.R. Veloso, V.T.L. Buono, S.J.G. de Lima and T.A.d.A. Melo 101

### Dynamic and Static Displacements of Atoms in B2-Phase of TiNi Alloy

V.M. Gundyrev and V.I. Zel'dovich 108

### Shape Memory Behavior in Some (Ti,Zr,Hf)<sub>50</sub>(Ni,Cu)<sub>50</sub> Alloys Elaborated by Glass Devitrification

V.I. Kolomytsev, M. Babanly, A. Pasko, A.P. Shpak, T. Sych, P. Ochin, P. Vermaut, R. Portier, E. Cesari and D. Rafaja 113

## CHAPTER 3: ENGINEERING

### Engineering Aspects of Shape Memory Film Actuators and Sensors

M. Kohl, B. Krevet, T. Grund, J. Barth, D. Auernhammer and F. Khelfaoui 119

<b>Transformation/Deformation Behavior and its Constitutive Equation for Ti-Ni-Cu Shape Memory Alloy</b>	129
Y. Takeda, T. Yamamoto, M. Uegaki, H. Cho, T. Sakuma and A. Suzuki	
<b>Effect of Micro-Voids on Plasticity in NiTi-Alloys</b>	135
J.S. Olsen, Z.L. Zhang and C. van der Eijk	
<b>Experimental Characterization of NiTi SMAs Thermomechanical Behaviour Using Temperature and Strain Full-Field Measurements</b>	140
P. Schlosser, D. Favier, H. Louche and L. Orgéas	
<b>Thermomechanical Characterization of Shape Memory Alloy Tubular Composite Structures</b>	150
L. Heller, D. Vokoun, D. Majtás and P. Šittner	
<b>Functional Properties of Ti-Ni-Based Shape Memory Alloys</b>	156
I. Khmelevskaya, S. Prokoshkin, V. Brailovski, K.E. Inaekyan, V. Demers, I. Gurtovaya, A. Korotitskiy and S.V. Dobatkin	
<b>On Functional Behavior of Strain-Aged Ti-Ni Alloy</b>	162
E.P. Ryklina, S. Prokoshkin, A.A. Chernavina and N.N. Perevoshchikova	

## CHAPTER 4: APPLICATIONS

<b>SMA Fatigue in Civil Engineering Applications</b>	168
F. Casciati, L. Faravelli, A. Isalgue, F. Martorell, H. Soul and V. Torra	
<b>Control Characteristics of Shape Memory Alloy Actuator Using Resistance Feedback Control Method</b>	178
Y. Takeda, H. Cho, T. Yamamoto, T. Sakuma and A. Suzuki	
<b>Generation of Smart Structures on the Basis of <i>In Situ</i> Configuration of Shape Memory Alloys</b>	184
S. Langbein and E.G. Welp	
<b>Superelastic NiTi Thin Films for Medical Applications</b>	190
E. Quandt and C. Zamponi	
<b>Smartflex NiTi Wires for Shape Memory Actuators</b>	198
L. Fumagalli, F. Butera and A. Coda
