Preface

Chapter 1: Metallurgy and Processing of Steel and Alloys

On the Formation of Martensite in Low-Carbon Alloy Steel Wire Rod for Welding Applications during Slow Continuous Cooling E. Parusov, I. Chuiko, S. Bobyr, E. Oliinyk and V. Zhukov	3
The Micromechanical Properties of CoCrFeNiMnV_x (x = 0-2) High-Entropy Alloys H. Rusakova, L. Fomenko, S. Lubenets, M. Tikhonovsky, I. Kislyak, E. Tabachnikova, Y. Huang and T.G. Langdon	11
Phase Composition, Microhardness, Mechanical and Acoustic Properties of Nonequiatomic Medium-Entropy Alloys Fe_xMn_{80-x}Co₁₀Cr₁₀ (x = 40 and 50) in Different Structural States E. Tabachnikova, S. Shumilin, I. Kolodiy, T. Hryhorova, Y. Semerenko, S. Smirnov, I. Kashuba, Y. Shapovalov, T. Tykhonovska, M. Tikhonovsky, Y. Huang and T.G. Langdon	19
Effect of Power and Scanning Speed on the Morphology of a Single Track Melt Pool under Dynamic Laser Beam Focusing in Additive Manufacturing S.V. Adzhamskyi, T.V. Balakhanova, O.E. Baranovska, R.V. Podolskyi and N.P. Togobytska	29
Effect of Post Weld Heat Treatment and Filler Metal on the Microstructure, Mechanical Properties, and Corrosion Resistance of Dissimilar Welds between Carbon Steel and Stainless Steel J. Junpattanasit, J. Palomas, A. Kaewvilai and C. Tippayasam	35
Studying the Effect of Scandium on the Formation of a Quasicrystalline Phase in Al-Cu-Fe Ingots M. Iefimov, A. Golubenko, K. Iefimova, O. Khrashchevskyi and A. Sameliuk	43
Structure and Properties of Experimental Low-Cost Titanium Alloys S. Hryhorenko, O.M. Berdnikova, O. Kushnarova, V. Kostin, Y. Titkov and L. Yeremeieva	51
Structure and Properties of Heat-Resistant FeNiCrCuAl High-Entropy Alloys R. Sergiienko, V. Shcheretskyi, O. Shcheretskyi, R. Serhiiko, O. Yakovenko, S. Petrovska, O. Zatsarna and A. Verkhovliuk	59

Chapter 2: Recycled Materials

Artisanal Production Process of Recycled Aluminum Pots in Cameroon: Assessment and Improvement Perspectives M.M. Nguono, P.W.H. Mejouyo, T. Kanaa and E. Njeugna	73
Comparative Study of Quasi-Static Bending and Charpy Impact Test Characteristics of Virgin and Recycled Polyethylene Composites Reinforced with Eucalyptus Fibers K.H.S. N'tsule, D. Koffi, K.N. Segbeaya and G.D. Ngoma	81
Development of Geopolymer-Based Weld Backing Using Recycled Industrial Waste for A36 Steel Welding Using GMAW Process P. Techapromwut, A. Kaewvilai and C. Tippayasam	91

Chapter 3: Green Building Materials

The Effect of Using Ground Granulated Blast Furnace Slag (GGBFS) as a Partial Substitute for Portland Cement in Fiber Concrete A. Amalia, L. Tiyan and Y. Setiawan	101
Effect of Storage Time on Asphalt Modified by KKK60 Pre vulcanized Latex D.W. Nasution, A.S. Lubis, M.P.S. Harahap and M.F.N. Nasution	111
The Effect of PETE, HDPE, and LDPE Type of Plastic Waste as Additive on Compression Strength and Temperature Resistance of Architectural Lightweight Bricks A.M. Hajji, A. Yulistyorini and B.F. Syah	119
