Preface

Chapter 1: Technologies for Computer Simulation of Materials Properties and Behavior

The Effect of Grain Size on the Quality of Micro-Stamping of the Pure Titanium TA1 Foil by Finite Element Simulation R. Chen, H.M. Zhang, C.S. Wang, L. Yan, Y. Li and Z.Y. Jiang	3
The Simulation of Shear Angle and Deformations of Cu/Al Composite Sheets during Accumulated Roll Bonding Q. Pham	9
Numerical Study on the Melt Flow Length of the Composite Materials in the Injection Molding Process T.N. Phan, T.D. Thanh and P.S. Minh	15
Numerical Study on Local Heating for Thin-Walled Product by External Air Heating M.T.U. Tran, T.G. Le, T.D. Thanh and P.S. Minh	21
Weld Strength Analysis of T-Joint Segments of the Metro Crossing Passage by the Shield Method Based Sub-Model L.F. Sun, Z.L. Chen, J.C. Li, X.L. Lv and Q. Shang	27
Simulation Analysis of In-Plane Compression on Three-Dimensional Spacer Fabric Composite H.X. Chen, H.J. Cao and X.M. Huang	36
Buckling Problems of Structurally-Anisotropic Composite Panels of Aircraft with Influence of Production Technology L.M. Gavva	45

Chapter 2: Properties and Processing Technologies of Steel and Alloys

Bending Fatigue Damage Behavior of Annealed Polycrystalline Cu Foil M. Wang, X. Zhang, L.L. Cheng and Q. Zhang	53
Microstructural Evolution and Room Temperature Fracture Toughness of a Nb-Ti-Si-Cr-Al-Hf-Y Alloy Prepared by Directional Solidification G.Q. Zhuo, L.F. Su and K.Y. Jiang	59
Development of Fracture Surface Etching (FSE) Method around Non-Metallic Inclusion of SUJ2 Steel K. Tsuji, K. Mizobe and K. Kida	65
Effects of Laser Remelting on Microstructural Characteristics and Hot Corrosion Behavior of MCrAlY Coating Prepared by Plasma Spraying D.S. Wang	70

Chapter 3: Functional Materials

Substrates Effect on the Phase Transition of GaN Thin Films by Sputter Deposition C.G. Zhang	79
Enhancing the Fatigue Property of Nylon 6 by Using Glass-Fiber Reinforcement and Injection Molding D.S.T. Huynh, H.G. Le, T.N.H. Nguyen and P.S. Minh	85
Room-Temperature Ferromagnetism in Mn-Doped CuCrO₂ Nanopowders J.J. Ji, F.T. Lin, X.Y. He and H. Shi	91
Observation of Crack Growth Behavior of Various Cracks in 4.762mm Diameter Silicon Nitride Balls under Cyclic Compressive Load T. Toriki, T. Matsui and K. Kida	101

Study on Influencing Factors of Noise Reduction Performance of Pervious Concrete J.L. Wang, Z.D. Niu, Q. Chen, Y.Y. Yu and X. Chen	106
Effect of Hydrophobic Aerogel Granules on Thermomechanical Properties of Cementitious Composites M.H. Baghban and M.T. Javadabadi	114

Chapter 4: Chemical Processes and Technologies

Study on Performance of Coagulated Particles in Heavy Oil Sewage Treatment by Air Flotation B. Yang, Y.D. Peng, G. Xie and C.T. Qu	121
The Effect of Hydrothermal Dewatering Temperature on Hydro-Char Obtained from Oily Scum S.H. Deng, X.B. Wang, D.Y. Ma, X.C. Lu and H.Z. Tan	127
