

Table of Contents

Preface

Chapter 1: Properties and Technological Characteristics of Steels, Alloys, Composites and Smart Materials

Microstructure and Properties of Dilute Cu-Nb Alloy Prepared by Mechanical Alloying R.S. Lei, M.P. Wang, G.R. Chen and Y.Y. Li	3
Effect of Temperature on the Material Properties and the Results of Thermal Stress Analysis T.K. Kim, D.K. Oh and K.J. Lee	8
NiTi Shape Memory Alloy Wire's Constitutive Describe at Different Temperatures G.Y. Yang, Y. Zhong, Z.F. Qiu, J. Wang, W.N. Li and F.G. Li	13
Preparation of Shape-Stabilized Phase Change Energy Storage Aggregate: A Case Study X. Tan, T.L. Fan and F.Q. Zhao	18
Effect of Rice Husk Ash Based Silicon Dioxide on the Properties of SUZ-4 Zeolite T. Sirisoontornpanit, A. Wongkoblab and S. Junpirom	24
Study on the Effect of the Flame Cutting on the Fatigue Properties of Q345 Z.W. Yuan, S.M. Zhu, Y.N. Lu and X. Lu	30
Study on Mn Recycling in Zn-Mn Battery and its Reutilization in Lithium-Ion Batteries S. Jiang, Y. Li and Y.P. Cheng	35
Effects of RE Micro-Alloying Additions on the Corrosion Behavior of an Al-Mg-Si Alloy W.B. Kong, X.X. Li and X.P. Hu	40
Effects of Cold Rolling on Microstructure and Anomalous Thermal Expansion Behaviors of Ti-35Nb-2Zr-0.3O Alloy C.B. Lan, Y. Wu and F. Chen	46
Transverse Compaction Analysis of 2.5D Preform Composite Y. Qu, Y. Dai and H.Y. Li	51
Catalytic Pt-C Nanomaterial for Gas Diffusion Electrode: Arc-Discharge Synthesis and Improving of Electrical Conductivity Properties A.V. Zaikovskii, S.A. Novopashin, S.Z. Sakhapov and D.V. Smovzh	58
Green Materials for Sound Absorption A. Trematerra and I. Lombardi	63
Morphological and Thermal Characterization of Nafion/CNT/PVA Nanocomposite Membranes Y.H. Kim, Y.K. Lee, B.K. Kang, H.J. Kim and S.J. Choi	68
Predicting Flow Stress of Four Types of Microalloyed Forging Steel at High Temperature by Artificial Neural Network Model H.S. Jiang, J. Wang, L.H. Li and H.T. Wang	75
Investigation on Variation of Bow Defect in Roll Forming Process D.W. Jung	80
Effect of Spot-Weld Line Orientation on Formability for Patchwork Blank K.Y. Ye, J.H. Kim and B.M. Kim	86

Chapter 2: Materials and Technologies in Structural Engineering

Seepage Analysis of Concrete Face Rockfill Dam for Material Damage of Water Stop Structure L. Gan, X.Z. Shen and W.W. Qing	93
The Structure Formation of the Cellular Concrete with Nanostructured Modifier V.V. Nelubova, V.V. Strokoava, A.V. Sumin and I.V. Jernovskiy	99
Micro-Structure Evolution of SAF2205 Steel Subjected to Single Direction Torsion at Room Temperature F.Q. Liu, J. Liu, C.L. Tian, H. Chen and F.G. Li	104

Hardness Prediction of Tailor Rolled Blank in Hot Press Forming Using Quench Factor Analysis	
J.H. Kim, D.C. Ko and B.M. Kim	110
Experimental Study of Aggregates Size Effect on Strain, Damage and Permeability of Concrete	
A. Fabien, M. Choinska, S. Bonnet and A. Khelidj	115
Use of Fine Rubber Particles as Fine Concrete Aggregates in Actively Confined Concrete	
A. Gholampour, T. Ozbakkaloglu and R. Hassanli	122
Experimental and Numerical Investigation on the Residual Strength of Laminates with Central and Edge Notch	
M.R. Xu, J.B. Bai, M.Y. Lv, X. Cao and B.Y. Zeng	128
Lateral Strain-to-Axial Strain Model for Laterally Prestressed Concrete-Filled FRP Tubes	
T. Vincent and T. Ozbakkaloglu	134
