

Table of Contents

Preface

Chapter 1: Structural Metals

Carbon and Titanium Effect on Tensile Behavior of Aged A286 Nickel-Iron Based Superalloy

U. Ali, M.S. Qurashi, P.O. Lartey, I. Ali, P.K. Liaw and J.W. Qiao 3

The Liquid Fraction of ZA27 Zinc Alloy from TLP Diffusion Bonding Affecting Mechanical Properties and Microstructural Characterizations of SSC-ADC12 Aluminum Alloy

C. Meengam, Y. Dunyakul and D. Maunkhaw 11

Analysis of the Behavior of Different Steel Alloys Subjected to Uniaxial Mechanical Fully Reversed Fatigue Tests

J. Brnic, M. Brčić and S. Krscanski 19

Chapter 2: Materials Corrosion

Development and Evaluation of Corrosion Resistance and Hydrophobic Properties of Thermal Sprayed Coatings over Carbon Steel

P. Nanou, J. Konstantaras, A. Zarkadoulas, L. Montorsi, H. Jouhara and V.N. Stathopoulos 27

Electrochemistry Numerical Study of Stress Corrosion Cracking under Near-Neutral Soil Solution

A. Alsit, H. Hamdan, M. Alkhedher, M. Ramadan and I. Al-Adwan 37

Chapter 3: Computational Materials Science

The Design and Analysis of Topological Phononic Crystals with Cavity

J.Y. Yeh 47

Towards Systematization of Aurivillius Phases' Formula

M. Mouzai and S. Oukid 53

Chapter 4: Wastewater Treatment Techniques for Dye Removal

Profile of the Adsorption Ability of Sulfonate-Modified Lignocellulose Based on Bagasse Waste to Some Batik Textile Dyes

S.B. Utomo, M.I. Fadillah and R. Yulianti 61

The Effectiveness of Arenga Pinnata Fiber Carbon Modified with Iron Oxide as an Adsorbent for Various Cationic Dyes

L. Mahardiani, E. Nugrahini, W. Ciptonugroho, E. Susilowati and S. Saputro 71

Bentonite Impregnation Ammonium-Assisted as Eco-Friendly Dye Adsorbent: Analyses of Kinetics and Thermodynamics in Cationic Dye Adsorption

Y.M. Hakim, I. Royani, M. Mardiyanto and R. Mohadi 85

Coconut Shell Charcoal Combination with Teakwood Sawdust (CSC-TS): An Effective Low-Cost Adsorbent for the Removal Cr(VI) Ion on Industrial Waste

M. Masykuri and A.R. Zain 103

Chapter 5: Green Building Materials

Experimental Investigation on Tensile Strength of Twisted Ramie Fiber Yarns

M. Maidina, F. Muslim, S. Sudarmanto, D. Purnomo, A. Sumarno and H. Purnomo 119

Terahertz Optical Properties of Graphite-Cement Paste

J.L. Castro, D.J.C. Nagal, A.L.C. Jusi, M. Madlangbayan, A.E. De Los Reyes and A.K.G. Tapia 125

Durability Performance of Reinforced Concrete-Based Fly Ash Exposed to Combined Chloride-Sulfate Attack	
A. Ejboub, A. Echchebab, S. Hassi, M. Galai, H. Benqlilou and M. Ebn Touhami	131
Corrosion Resistance Enhancement of Reinforced Concrete in Marine Environment by Partial Replacement of Black Rice Husk Ash	
W. Chandra-Ambhorn, E. Bumrunghthaichaichan, C. Rotchan, N. Haema, P. Wongpromrat and S. Wattananusorn	137
Characterization of Coconut Husk Ash as Potential Substitute for Fly Ash in Geopolymer Concrete	
J.K. Lorenzo, A.R. Andal, A.J. Morales, J.J. Davantes and M.A.M. Taguba	145

Chapter 6: Structural Mechanics

Analysis of the Effect of Slenderness Ratio on Nominal Moment in T Section	
T.H. Chang, H.C. Chung, K.Z. Ho and W.T. Hsu	155
Lateral Torsional Buckling Strength Analysis of Single Symmetric I-Beam Section	
W.H. Hsu, C.H. Liu, K.Z. Ho and W.T. Hsu	161

Chapter 7: Mechanical Engineering and Production Processes

Air Preheater Performance Analysis: Installation of Soft Seal Material to Improve Air Preheater Leakage	
F.J.A. Monsanto and R. Tayactac	169
Effects of Holding Time and Temperature of Creasing Knife on Crease Bending Characteristics of Milk Carton Subjected to Indentation of Flat-Edge Creasing Knife	
S. Nagasawa and T. Nagumo	179

Chapter 8: Non-Destructive Testing

An Accurate Detection and Location of Weld Surface Defect Based on Laser Vision	
C. Chen, S. Li and Y.F. Chen	197
Research on the Repair Quality of Crack in Concrete Structures by Stress Waves	
K. Hsu, J. Cai, W. Yang and X. Cai	209
Laser Doppler in Green Compact Density Inspection of Powder Metallurgy	
W. Yuan, W.P. Yung, H.Y. Ju, Y.K. Hung, C.S. Kuei and C.C. Yi	215
