

Table of Contents

Preface and Committees

A Review of Laser Doppler Vibrometry for Structural Health Monitoring Applications W.J. Staszewski, R. bin Jenal, A. Klepka, M. Szwedo and T. Uhl	1
Analysis of Experimental Data in the Context of Safety against Derailment of a Railway Vehicle, Using the Energy Method M. Opala	16
Application of Image Based Methods for Monitoring and Measurements of Structures in Power Stations M. Kujawińska, M. Malesa, K. Malowany and P.M. Błaszczyk	24
Applications of Self-Organizing Maps in Structural Health Monitoring I. Buethe, P. Kraemer and C.P. Fritzen	37
Artificial Neural Network Based Fault Diagnosis of IC Engines J. Chen, R. Randall, B. Peeters, W. Desmet and H. Van der Auweraer	47
Assessment of Bonded Patch Bridge Repairs Using Acoustic Emission and Acousto-Ultrasonics R. Pullin, M.J. Eaton, M.R. Pearson, C. Pollard and K.M. Holford	57
Condition Monitoring System for Light Rail Vehicle and Track B. Firlik, B. Czechyra and A. Chudzikiewicz	66
Damage Detection in Gearboxes Considering Intermittent Faults and Time-Varying Loads I. Antoniadou, G. Manson, W.J. Staszewski and K. Worden	76
Development of Lamb Waves-Based SHM Systems L. Ambrozinski, T. Stepinski, T. Uhl, J. Ochonski and A. Klepka	87
Development, Validation and Comparison of Higher Order Finite Element Approaches to Compute the Propagation of Lamb Waves Efficiently S. Duczek, C. Willberg, D. Schmicker and U. Gabbert	95
Distributed System for Monitoring of the Large Scale Infrastructure Structures Based on Analysis of Changes of its Static and Dynamic Properties A. Gałęzia, S. Gontarz, M. Jasiński, J. Maczak, S. Radkowski and J. Seńko	106
Effect of Load Shape in Cyclic Load Variation on Dynamic Behavior of Spur Gear System F. Chaari, W. Bartelmuś, R. Zimroz, T. Fakhfakh and M. Haddar	119
Electromechanical Impedance Based SHM System for Aviation Applications M. Rosiek, A. Martowicz and T. Uhl	127
Energy Management Systems for Energy Harvesting in Structural Health Monitoring Applications M. Arnold, C.A. Featherston, M.R. Pearson, J. Lees and A. Kural	137
Hashed Data Transfer in SHM Distributed Systems with the Use of Power Line Communication Technology A. Gołaś, M. Iwaniec and K. Szopa	154
Impact Damage Detection in Composite Chiral Sandwich Panels A. Klepka, W.J. Staszewski, T. Uhl, D. di Maio, F. Scarpa and K.F. Tee	160
Instantaneous Circular Pitch Cyclic Power (ICPCP) – A Tool for Diagnosis of Planetary Gearboxes A. Jablonski and T. Barszcz	168
Investigation of Sensor Placement in Lamb Wave-Based SHM Method P. Malinowski, T. Wandowski and W.M. Ostachowicz	174
Investigations into the Vibrational Response of an Aero-Engine Turbine Blade under Thermosonic Excitation G. Bolu, G. Pierce, A. Gachagan, T. Barden and G. Harvey	184
Low Cost Laser Triangulation System for Rail and Guide Wear Evaluation P.M. Błaszczyk and M. Kujawińska	193
Mobile Optical Coherence Tomography Sensor for Surface Layers Testing S. Tomczewski and L. Salbut	201
Monimost - Integrated SHM System for Railway Truss Bridges D. Sala, P. Pawłowski, P. Kołakowski, A. Świercz and K. Sekuła	211

Monitoring System for Determination of Vibrations of Different Building Structures during Driving in Reinforced Concrete Pre-Cast Piles and Sheet Piles	217
H. Zobel and P. Żółtowski	
Non-Destructive Testing of Building Objects Positioned in the Area of Coal Exploitation	228
A. Staniek	
Non-Invasive Methods of Delamination Monitoring in Multi-Layer Structures	238
J. Iwaniec and M. Iwaniec	
Optimised Vibration Energy Harvesting for Aerospace Applications	246
O.J. Wood, C.A. Featherston, D. Kennedy, M.J. Eaton and R. Pullin	
Practical Application of Monitoring System Based on Optical Sensors for Marine Constructions	261
L. Murawski, W. Ostachowicz, S. Opoka, M. Mieloszyk and K. Majewska	
Practical Solution of Rail Vehicle and Track Dynamics Monitoring System	271
A. Chudzikiewicz, J. Drozdziel and B. Sowinski	
Rail Vehicle's Suspension Monitoring System - Analysis of Results Obtained in Tests of the Prototype	281
R. Melnik and M. Kostrzewski	
SHM System Based on Modal Filtration	289
K. Mendrok, T. Uhl, W. Maj and P. Paćko	
Some Recent Developments in Structural Health Monitoring	298
R.J. Barthorpe, E.J. Cross, E. Papathou and K. Worden	
Structural Health Monitoring of Composite Material Typical of Wind Turbine Blades by Novelty Detection on Vibration Response	319
N. Dervilis, R. Barthorpe, W.J. Staszewski and K. Worden	
Structural Health Monitoring of Composite Scarf Repairs with Guided Waves	328
S. Pavlopoulou, C. Soutis and W.J. Staszewski	
Structure's Condition Monitoring Based on Optical Measurements	338
P. Kohut, K. Holak, T. Uhl, K. Krupiński, T. Owerko and P. Kuraś	
The Active Magnetorheological Support as an Element of Damping of Vibrations Transferred from the Ground to Large-Scale Structure Supports	350
J. Bajkowski, M. Jasiński, J. Mączak, S. Radkowski and R. Zalewski	
The Development of the Non-Parametric Classification Models for the Damage Monitoring on the Example of the ORLIK Aircraft Structure	358
K. Dragan, M. Dziendzikowski and T. Uhl	
The Phenomenon of Continuous Mode Conversion of Lamb Waves in CFRP Plates	364
C. Willberg, G. Mook, U. Gabbert and J. Pohl	
The Project of Tank Inspection Robot	375
M. Giergiel, T. Buratowski, P. Małka, K. Kurc, P. Kohut and K. Majkut	
The Reference Signal of Geomagnetic Field for MMM Expert Systems	384
M. Witoś	
Towards the Development of Predictive Models for the System Design and Modal Analysis of Acoustic Emission Based Technologies	396
M.A. Torres-Arredondo, H. Jung and C.P. Fritzen	
Vibration-Based Symptoms in Condition Monitoring of a Light Rail Vehicle	409
B. Firlik, M. Tabaszewski and B. Sowinski	
Vibrothermographic Testing of Structures	418
M. Szwedo, Ł. Pieczonka and T. Uhl	
Weigh-in-Motion System Testing	428
K. Sekuła and A. Świercz	
Wind Turbine Main Bearing Diagnosis - A Proposal of Data Processing and Decision Making Procedure under Non Stationary Load Condition	437
R. Zimroz, W. Bartelmuś, T. Barszcz and J. Urbanek	
Wireless Power Transmission Using Ultrasonic Guided Waves – Electric Circuit Measurement and Simulation	445
A. Kural, R. Pullin, C.A. Featherston, J. Lees, J. Naylon, C. Paget and K.M. Holford
