

Table of Contents

Preface

Investigations of Failure Mechanism and Structural Integrity of a Hydro-Energetic Component

A.C. Murariu 1

Use of Non-Destructive Tests for the Assessment of Integrity and Service Life of Hydro-Mechanical Equipment

M. Arsić, S.M. Bošnjak, V. Grabulov, M. Mladenović and Z. Savić 9

Structural-Thermal Analysis of Welded Joints Using the ANSYS Workbench Platform

F. Vladulescu 17

Equal Resistant to Wear Blades Used in Rough Exploitation Conditions

D.T. Tanasache, D. Dinica, E.F. Binchiciu and H. Binchiciu 22

Composite Deposits Developed by Welding on Horizontal Mill Hammers

E.F. Binchiciu, T. Fleer, I. Voiculescu and V. Geantă 27

Establishing the Dependence of Output Parameters Depending on Local Process Conditions for Friction Stir Welding of Pure Copper Plates

M.A. Constantin, A. Boşneag, E. Niţu and L.N. Boţilă 32

Analysis and Correlation of Output Parameters against Input Parameters for Friction Stir Welding of Three Dissimilar Aluminum Alloy

A. Boşneag, M.A. Constantin, E. Niţu and C. Ciucă 38

Fatigue Crack Propagation Limit Curves for S690QL and S960M High Strength Steels and their Welded Joints

J. Lukács, Á. Dobosy and M. Gáspár 44

New Techniques for Joining by Riveting

L.N. Boţilă, R. Cojocar, C. Ciucă and I.A. Perianu 57

Reliability, Technological Risks and Maintenance Decisions

S. Crăsteţi 65

The Influence of Mismatch Effect on the High Cycle Fatigue Resistance of High Strength Steel Welded Joints

Á. Dobosy, M. Gáspár and J. Lukács 73

Economical Considerations over 3D Printing Components for Abrasive Water Jet Machinery

M.D. Vasilescu, T.A. Vasilescu and I.V. Groza 84

Fracture Toughness in the Transition Temperature Region

E. Džindo, Z. Radaković, B. Petrovski, S. Tadić, S. Petronić, S. Sedmak and B. Đorđević 92

New Joining Techniques for the Production of the Electrical Components in the Automotive Industry

R. Cojocar, C. Ciucă, L.N. Boţilă, V. Verbiţchi and I.A. Perianu 98

Functional Layers of Aluminium Alloy on Steel Made by Alternative Friction Processes, for Elements of Metal Structures

L.N. López de Lacalle, G. Urbikain Pelayo, I. Azkona, V. Verbiţchi, R. Cojocar, L.N. Boţilă, C. Ciucă, I.A. Perianu and M. Vlascici 106

Mathematical Modelling of Material Flow during Friction Stir Welding of Aluminium Alloys

C. Ighisan, B. Radu and C. Ciucă 115

Microstructural Characterization of the Friction Stir Welding (FSW) Joints from Dissimilar Metallic Aluminium - Copper Alloys

B. Radu, I. Hulka, R. Cojocar, C. Ciucă and L.N. Boţilă 121

Adhesion Strength Test Comparison for HVOF Nickel-Based Superalloy Powders on Steel Substrates and Layer Characterization

M. Milgravis, I.A. Perianu, A.C. Murariu and A.V. Bîrdeanu 126

The Influence of Laser Drilling Process on the Microstructural Changes of Nickel Based Superalloy

S. Petronić, A. Milosavljevic, M. Burzić, O. Eric-Cekic, S. Polic and R. Jovicic 134

Experimental Investigations on Spot Welded Built-Up Cold-Formed Steel Beams

V. Ungureanu, I. Both, M. Burca, Ş. Benzar, T.H. Nguyen, C. Neagu and D. Dubină 142

Numerical Investigation of J-Integral on a Notched Pressure Vessel S. Tadić, A. Sedmak and R.R. Nikolić	152
Metallic-Ceramic Combination of HVOF Deposited Layers for Corrosion Protection Applications A.V. Birdeanu, I.A. Perianu, C. Ciucă, C. Orha and M. Birdeanu	158
