

# Table of Contents

## Committees

## Preface

## CHAPTER 1: Plenary Presentation

### Seventy-Five Years of Superplastic Research: An Overall Perspective for the Superplasticity Conferences

T.G. Langdon 3

## CHAPTER 2: Industrial Applications and Innovations

### Forty Years since the Invention of SUPRAL Alloys and Look where we Are now

A.J. Barnes, M.J. Stowell, R. Grimes, D.B. Laycock and B.M. Watts 11

### Superplastic Prosthetic Forming - *In Vitro* Response

R. Curtis, R. Omar, J. Bahra, M. Ditta, A. Chotai and L. DiSilvio 31

### Superplastic Forming – Cost Effective

B. Swale, M. Pizzingrilli and E. McCullagh 41

### Elevated Temperature Fabrication of Titanium Aerospace Components

L.D. Hefti 49

### Manufacturing of Titanium Spherical and Hollow Cylinder Vessel Using Blow Forming

H.S. Lee, J.H. Yoon and Y.M. Yi 57

### From Indirect to Direct Heating of Materials Using Lasers – A New Beginning for Superplastic Forming

A. Jocelyn, A. Keevil, J. Way, T. Flower, A. Fanourakis, M. Ackerman and A. Kar 63

### High Temperature Fatigue of SPF Die Ni-Cr-Fe Heat Resistant Nickel-Chromium Cast Steels

V. Velay, G. Bernhart, A. Martinier and J.Y. Moraux 69

### Heat Resistant Ni-Cr-Fe Steels for Superplastic Forming Dies: From Material Microstructure to Die Design

G. Bernhart, V. Velay and P. Lours 77

### Superplastic Diaphragm Forming – A Practical Method for Forming Unique Components

H. Raman and A.J. Barnes 85

### On the Development of Viable Cruciform-Shaped Specimens: Towards Accurate Elevated Temperature Biaxial Testing of Lightweight Materials

F.K. Abu-Farha, L.G. Hector and M.A. Nazzal 93

### High Pressure Waterjets – An Innovative Means of Alpha Case Removal for Superplastically Formed Titanium Alloys

A. Chillman, M. Ramulu, M. Hashish and A. Cantrell 103

### A Theoretical Investigation into the Effect of Laser Parameters on the Surface Cleaning of Ti-6Al-4V

A. Dixit, M. Keavey, A. Jocelyn, J. Way and A. Fanourakis 113

### Superplastic Forming and Diffusion Bonding: Current Cost, Value and Future Trends

P. Wilson, C. Couzins-Short, H. Chesterton and A. Jocelyn 119

### Contact Sensors for Accurate Monitoring and Prediction of Sheet Deformation during Hydro/Pneumatic Forming Operations

F.K. Abu-Farha, M.A. Nazzal, O. Rawashdeh and R. Michael 125

## CHAPTER 3: Material Processing Methods to Enhance Superplasticity

### Friction Stir Processing (FSP) of As-Cast AA5083 for Grain Refinement and Superplasticity

J.T. Hayashi, E. Sarath Menon, J.Q. Su and T.R. McNelley 135

<b>Friction Stir Processing of Commercial Grade Marine Alloys to Enable Superplastic Forming</b> C.B. Smith, A. Mohan, R.S. Mishra, M. Mahoney, M. Miles, S.M. Gillis, L.M. Cerveny and G. Opichka	141
<b>Optimization of the Friction Stir Welding Process for Superplastic Forming and Improved Surface Texture for Titanium Aerospace Structures</b> D.G. Sanders, P. Edwards, M. Ramulu and G. Grant	153
<b>Superplastic Behavior and Microstructure of Titanium (Ti-6Al-4V) Friction Stir Welds Made under a Variety of Processing Conditions</b> P. Edwards, M. Ramulu and D.G. Sanders	169

## **CHAPTER 4: Numerical Simulations and Modeling**

<b>Finite Element Modeling of Superplastic Forming of Tubular Shapes</b> M.A. Nazzal and F.K. Abu-Farha	179
<b>Simulation and Experiments for Hot Forming of Rectangular Pans in Fine-Grained Aluminum Alloy AA5083</b> P.A. Sherek, L.G. Hector, J.R. Bradley, P.E. Krajewski and E.M. Taleff	185
<b>High-Temperature Forming of a Vehicle Closure Component in Fine-Grained Aluminum Alloy AA5083: Finite Element Simulations and Experiments</b> L.G. Hector, P.E. Krajewski, E.M. Taleff and J.T. Carter	197
<b>New Developments in Superplastic Forming Simulation and Industrial Applications</b> S.P. Li, M. Chabin and A. Heath	211
<b>Finite Element Simulation on Superplastic Forming of Outer Jacket of Combustion Chamber</b> J.H. Yoon, Y.M. Yi and H.S. Lee	219
<b>The Role of the Numerical Simulation in Superplastic Forming Process Analysis and Optimization</b> D. Sorgente and L. Tricarico	225
<b>Constitutive Modeling of Low-Temperature Superplastic Flow of Ultrafine Ti-6Al-4V Sheet Material</b> S.L. Semiatin and G.A. Sargent	235
<b>Superplasticity in Friction Stir Processed AZ80 Magnesium Alloy</b> Y. Takayama, I. Takeda, T. Shibayanagi, H. Kato and K. Funami	241
<b>Finite Element Modelling and Experimental Testing of Thermomechanical Behaviour and Failure of Titanium Superplastic Forming Dies</b> S.B. Leen, A.A. Deshpande and T.H. Hyde	247

## **CHAPTER 5: Superplasticity in Metal Alloys**

<b>An Overview of Hot- and Warm-Forming of Al-Mg Alloys</b> E.M. Taleff	259
<b>Large Deformability of Wrought Magnesium Alloys: Is Superplasticity Needed?</b> R. Boissière, J.J. Blandin and L. Salvo	267
<b>The Development of Superplastic Magnesium Alloy Sheet</b> R.J. Dashwood, D. Klaumunzer, M. Jackson, Z.Y. Fan and R. Grimes	273
<b>Superplasticity for Lightweight Metal Foams</b> K. Kitazono and R. Suzuki	281
<b>Energy Absorption Capability of Zn-22Al Superplastic Alloy Foam Manufactured through Melt Foaming Process</b> K. Sekido, T. Seo and K. Kitazono	287
<b>Superplastic Behavior in Magnesium Alloy with Dispersion of Quasicrystal Phase Particle</b> H. Somekawa, A. Singh and T. Mukai	291

## **CHAPTER 6: Microstructure Control & Evolution, Mechanisms of Grain Boundary Sliding and Failure**

<b>Grain Boundary Sliding Below Ambient Temperature in H.C.P. Metals</b> E. Sato and T. Matsunaga	299
<b>Analysis of Grain-Boundary Sliding with Rotating Hexagonal Particles</b> B.N. Kim, K. Hiraga, K. Morita and H. Yoshida	305
<b>Superplastic Forming Properties of TIMETAL®54M (Ti-5%Al-4%V-0.6%Mo-0.4%Fe) Sheets</b> Y. Kosaka and P. Gudipati	311
<b>Constitutive Relations for Superplastic Flow Modeling from Two Axial Loading Experiments</b> A. Akhunovaa, S.A. Dmitriev, A.A. Kruglov and R.V. Safiullin	319
<b>The Effects of Specimen Geometry on the Accuracy of Tensile Testing of Metallic Superplastic Materials</b> F.K. Abu-Farha, M.A. Nazzal and R. Curtis	325
<b>High-Strain-Rate Superplastic Flow Mechanism in ZrO<sub>2</sub>-30vol% Spinel Two-Phase Composite</b> K. Morita, K. Hiraga, B.N. Kim and H. Yoshida	333
<b>A Simple Method to Improve Superplastic Elongation and Strength of 3Y-TZP Deformed at High Strain-Rates</b> Y. Motohashi, M. Kikuchi, T. Sakuma, E. Yukutake and I. Kuboki	339
<b>High Temperature Forming Maps of Various Bulk Metallic Glasses</b> J. Ragani, Q. Wang, S. Gravier and J.J. Blandin	345
