Preface

CHAPTER 1: Plenary Presentation

Seventy-Five Years of Superplastic Research: An Overall Perspective for the Superplasticity Conferences

T.G. Langdon 3

CHAPTER 2: Industrial Applications and Innovations

Forty Years since the Invention of SUPRAL Alloys and Look where we Are now

A.J. Barnes, M.J. Stowell, R. Grimes, D.B. Laycock and B.M. Watts 11

Superplastic Prosthetic Forming - *In Vitro* Response

R. Curtis, R. Omar, J. Bahra, M. Ditta, A. Chotai and L. DiSilvio 31

Superplastic Forming – Cost Effective

B. Swale, M. Pizzingrilli and E. McCullagh 41

Elevated Temperature Fabrication of Titanium Aerospace Components

L.D. Hefti 49

Manufacturing of Titanium Spherical and Hollow Cylinder Vessel Using Blow Forming

H.S. Lee, J.H. Yoon and Y.M. Yi 57

From Indirect to Direct Heating of Materials Using Lasers – A New Beginning for Superplastic Forming

A. Jocelyn, A. Keevil, J. Way, T. Flower, A. Fanourakis, M. Ackerman and A. Kar 63

High Temperature Fatigue of SPF Die Ni-Cr-Fe Heat Resistant Nickel-Chromium Cast Steels

V. Velay, G. Bernhart, A. Martinier and J.Y. Moraux 69

Heat Resistant Ni-Cr-Fe Steels for Superplastic Forming Dies: From Material Microstructure to Die Design

G. Bernhart, V. Velay and P. Lours 77

Superplastic Diaphragm Forming – A Practical Method for Forming Unique Components

H. Raman and A.J. Barnes 85

On the Development of Viable Cruciform-Shaped Specimens: Towards Accurate Elevated Temperature Biaxial Testing of Lightweight Materials

F.K. Abu-Farha, L.G. Hector and M.A. Nazzal 93

High Pressure Waterjets – An Innovative Means of Alpha Case Removal for Superplastically Formed Titanium Alloys

A. Chillman, M. Ramulu, M. Hashish and A. Cantrell 103

A Theoretical Investigation into the Effect of Laser Parameters on the Surface Cleaning of Ti-6Al-4V

A. Dixit, M. Keavey, A. Jocelyn, J. Way and A. Fanourakis 113

Superplastic Forming and Diffusion Bonding: Current Cost, Value and Future Trends

P. Wilson, C. Couzins-Short, H. Chesterton and A. Jocelyn 119

Contact Sensors for Accurate Monitoring and Prediction of Sheet Deformation during Hydro/Pneumatic Forming Operations

F.K. Abu-Farha, M.A. Nazzal, O. Rawashdeh and R. Michael 125

CHAPTER 3: Material Processing Methods to Enhance Superplasticity

Friction Stir Processing (FSP) of As-Cast AA5083 for Grain Refinement and Superplasticity

J.T. Hayashi, E. Sarath Menon, J.Q. Su and T.R. McNelley 135

Friction Stir Processing of Commercial Grade Marine Alloys to Enable Superplastic Forming C.B. Smith, A. Mohan, R.S. Mishra, M. Mahoney, M. Miles, S.M. Gillis, L.M. Cervený and G. Opichka	141
Optimization of the Friction Stir Welding Process for Superplastic Forming and Improved Surface Texture for Titanium Aerospace Structures D.G. Sanders, P. Edwards, M. Ramulu and G. Grant	153
Superplastic Behavior and Microstructure of Titanium (Ti-6Al-4V) Friction Stir Welds Made under a Variety of Processing Conditions P. Edwards, M. Ramulu and D.G. Sanders	169

CHAPTER 4: Numerical Simulations and Modeling

Finite Element Modeling of Superplastic Forming of Tubular Shapes M.A. Nazzal and F.K. Abu-Farha	179
Simulation and Experiments for Hot Forming of Rectangular Pans in Fine-Grained Aluminum Alloy AA5083 P.A. Sherek, L.G. Hector, J.R. Bradley, P.E. Krajewski and E.M. Taleff	185
High-Temperature Forming of a Vehicle Closure Component in Fine-Grained Aluminum Alloy AA5083: Finite Element Simulations and Experiments L.G. Hector, P.E. Krajewski, E.M. Taleff and J.T. Carter	197
New Developments in Superplastic Forming Simulation and Industrial Applications S.P. Li, M. Chabin and A. Heath	211
Finite Element Simulation on Superplastic Forming of Outer Jacket of Combustion Chamber J.H. Yoon, Y.M. Yi and H.S. Lee	219
The Role of the Numerical Simulation in Superplastic Forming Process Analysis and Optimization D. Sorgente and L. Tricarico	225
Constitutive Modeling of Low-Temperature Superplastic Flow of Ultrafine Ti-6Al-4V Sheet Material S.L. Semiatin and G.A. Sargent	235
Superplasticity in Friction Stir Processed AZ80 Magnesium Alloy Y. Takayama, I. Takeda, T. Shibayanagi, H. Kato and K. Funami	241
Finite Element Modelling and Experimental Testing of Thermomechanical Behaviour and Failure of Titanium Superplastic Forming Dies S.B. Leen, A.A. Deshpande and T.H. Hyde	247

CHAPTER 5: Superplasticity in Metal Alloys

An Overview of Hot- and Warm-Forming of Al-Mg Alloys E.M. Taleff	259
Large Deformability of Wrought Magnesium Alloys: Is Superplasticity Needed? R. Boissière, J.J. Blandin and L. Salvo	267
The Development of Superplastic Magnesium Alloy Sheet R.J. Dashwood, D. Klaumunzer, M. Jackson, Z.Y. Fan and R. Grimes	273
Superplasticity for Lightweight Metal Foams K. Kitazono and R. Suzuki	281
Energy Absorption Capability of Zn-22Al Superplastic Alloy Foam Manufactured through Melt Foaming Process K. Sekido, T. Seo and K. Kitazono	287
Superplastic Behavior in Magnesium Alloy with Dispersion of Quasicrystal Phase Particle H. Somekawa, A. Singh and T. Mukai	291

CHAPTER 6: Microstructure Control & Evolution, Mechanisms of Grain Boundary Sliding and Failure

Grain Boundary Sliding Below Ambient Temperature in H.C.P. Metals E. Sato and T. Matsunaga	299
Analysis of Grain-Boundary Sliding with Rotating Hexagonal Particles B.N. Kim, K. Hiraga, K. Morita and H. Yoshida	305
Superplastic Forming Properties of TIMETAL®54M (Ti-5%Al-4%V-0.6%Mo-0.4%Fe) Sheets Y. Kosaka and P. Gudipati	311
Constitutive Relations for Superplastic Flow Modeling from Two Axial Loading Experiments A. Akhunovaa, S.A. Dmitriev, A.A. Kruglov and R.V. Safiullin	319
The Effects of Specimen Geometry on the Accuracy of Tensile Testing of Metallic Superplastic Materials F.K. Abu-Farha, M.A. Nazzal and R. Curtis	325
High-Strain-Rate Superplastic Flow Mechanism in ZrO₂-30vol% Spinel Two-Phase Composite K. Morita, K. Hiraga, B.N. Kim and H. Yoshida	333
A Simple Method to Improve Superplastic Elongation and Strength of 3Y-TZP Deformed at High Strain-Rates Y. Motohashi, M. Kikuchi, T. Sakuma, E. Yukutake and I. Kuboki	339
High Temperature Forming Maps of Various Bulk Metallic Glasses J. Ragani, Q. Wang, S. Gravier and J.J. Blandin	345
