

# Table of Contents

## Preface

## Chapter 1: Solar Collectors

- Analysis of Photovoltaic Solar Thermal Collector Performance Using Compound Parabolic Concentrator and Water Jet**  
T.S. Gaaz, A.H. Jaaz, A.H. Mohsin and K. Sopian 3
- Mechanical Properties Improving the Surfaces of the Solar Collectors Using PLD with Nona Materials**  
S.S. Faraj, A.E. Jabri, S.O. Waheed, A.Y. Qasim, A.A. Mutlaq, A.D. Salman and S.M. Awad 13

## Chapter 2: Drilling

- Optimization of Surgical Drill Margin Dimension to Reduce Bone Temperature**  
M.F.A. Akhbar, S. Jamaludin and R. Alias 27
- Vibration-Based Non-Destructive Inspection Method for Detecting Manufacturing Defects in Drill Bits**  
S.M.M. Yusof, L.W. Chek, M.Y. Harmin, T.A.Z. Rahman and B. Kunjunni 39
- Optimization of Micro-Drilling Parameters for Acoustic Panel Materials Using Taguchi Method**  
J.Y. Fang, L.E. Ooi, C.Y. Teoh and K.W. Chan 45

## Chapter 3: Engineering Materials

- Susceptibility of 5% Nickel Steel to Stress Corrosion Cracking in Liquid Ammonia**  
Y. Kayamori, T. Kamo, H. Igari, F. Yanagimoto and S. Nakayama 59
- Performance Evaluation of Magnesia – Chromite Refractory in the Flash Smelting Furnace of a Copper Smelting Industrial Area**  
D.P.G. Sebayang, M.I.P. Hidayat and H. Purwaningsih 65
- Study on Dominant Roles of Damage Mechanisms of Iron Target during Single-Particle Impingement under Varying Low Impact Angles**  
Z.Q. Fang, L. Li, Y.H. Liu and Z.L. Jin 73

## Chapter 4: Sustainable Building Materials

- A Novel Graphene-Enhanced Phase Change Material Based Composite Aggregate for Energy Storage Concrete Applications**  
M. Salimi, L. de Nardo and V. Carvelli 83
- Low-Temperature Firing of Clay Tiles Incorporating Waste Glass, Sediment Soil, Volcanic Soil and Local Illite Clay**  
C. Pitipoomsuksan, W. Loetchantharangkun, W. Leenakul and U. Wangrakdiskul 91
- Eco-Friendly Non-Fired Tiles by Utilizing Waste Glass and Limestone Dust**  
W. Loetchantharangkun, C. Pitipoomsuksan, P. Maingam and U. Wangrakdiskul 101
- Preliminary Study on CO<sub>2</sub> Sequestration in High-Calcium Fly Ash Geopolymer Cement via Direct Air CO<sub>2</sub> Capture**  
K. Patcharapat, T. Suwan, C. Boonpeng, T. Tanchaisawat, P. Jitsangiam and M. Fan 111
- Comprehensive Review on Numerical Modelling on Crack and Fracture in Concrete**  
H. Kusnanto, W.A. Siswanto, S. Supriyono and M.S. Mustapa 117

## Chapter 5: Mechanics of Structures

<b>The Effect of the Member Thickness of the Platform Jacket on the Strength and Fatigue Life: Case Study of the Four-Legged Jacket Offshore Platform</b> A. Anwar, R.W. Prastianto and D.M. Rosyid	131
<b>Optimizing Seismic Performance in Steel Beam-Column Connections: The Contribution of Cover Plates in RBS Configurations</b> C.B. Casita, B. Suswanto, D. Iranata, A.R. Amalia, M. Matsumura, S. Watanabe and T.J.D.L.C. Kombate	141

## **Chapter 6: Sustainable Food Packaging Materials**

<b>Preparation of Vegetable Waste-Derived Paper Incorporated with Activated Carbon for Delay Mango Ripening and Its Application</b> P. Sriprom, P. Thongkham, J. Taweasukyingjaroen, A. Somphan, K. Manamoongmongkol and P. Assawaseangrat	153
<b>Biodegradable Properties of PVA/AKD Incorporated with ZnO Nanoparticles for Food Packaging Application</b> F.H. Zulkifli, T.H. Shan and M. Kazuaki	161
<b>Development of Functional Fish Gelatin-Based Biomaterial Films Reinforced with Astaxanthin-Rich Oil Extracted from <i>Penaeus Monodon</i> Byproducts via Green NADES-Ultrasonication</b> D.T. Purba and P. Somboon	167
