

Table of Contents

Preface

Alternative Building Material Using Industrial and Agricultural Wastes S. Madhusudanan and L.R. Amirtham	1
Low Embodied Energy Sustainable Building Materials and Technologies A. Kumar, P.S. Chani and R. Deoliya	13
Application of Polymer-Mortar Composites as a Sustainable Building Material A.S. Benosman, Y. Senhadji and M. Mouli	21
Numerical Simulation of Thermal Comfort Performance in a Room with Different Insulating Materials Using Computational Fluid Dynamics A. Aravind Kumar, B. Nagesh Babu and S. Somya	29
Energy Efficient Sustainable Building Materials: An Overview A. Hussain and M.A. Kamal	38
Environmental Sustainability through Recycling Incineration Bottom Ash for the Production of Autoclaved Aerated Concrete E.H. Yang, Y.Q. Liu and Z.T. Chen	51
A Parametric Study on Exterior Insulation Systems and Heat Reflective Paints for Energy Efficiency in Buildings B. Ghosh	71
Implications of Building Material Choice on Outdoor Microclimate for Sustainable Built Environment D. Kannamma and A. Meenatchi Sundaram	82
The Influence of Dredged of Natural Waste on Shrinkage Behavior of Self Compacting Concrete for Achieving Environmental Sustainability N.E. Bouhamou, F. Mostefa and A. Mebrouki	91
A Study of Natural Pozzolan Mortars Exposed to Chlorides as a Sustainable Building Material L. Laoufi, M. Mouli and Y. Senhadji	105
Augmentation of Thermal Radiation Flux Resistance Capacity Using Autoclaved Aerated Concrete (AAC) Blocks: A Sustainable Approach A. Sahu and M.S. Hazra	114
The Effect of Natural Pozzolan on Sulfate Resisting Cement Exposed to Sodium Sulfate Attack for Attaining Sustainable Building Material R. Chihaoui, H. Khelafi and M. Mouli	122
Physico-Mechanical Properties of Banana Fiber Reinforced Polymer Composite as an Alternative Building Material H. Das, P. Saikia and D. Kalita	131
