Preface

Chapter 1: Sustainable Building Materials

A Holistic Isotopic and Mineralogical Investigation of Ancient Thasos Theatre: Technology and Provenance of Thasos Marbles D. Kyropoulou, P. Karalis, E. Dotsika and G. Diamantopoulos	3
Experimental Evaluation of Adobe Bricks Reinforced with Rice Husk, Lime and Neem Fibers for the Construction of Sustainable Housing in Andean Areas L.F. Gutierrez, J.R. Casas and R.M. Delgadillo	11
Effects of Curing Conditions, Age, and Particle Size on CO₂ Sequestration of Basic Oxygen Furnace Slag Used in Concrete D. Ualiyev, Z. Omarova, C.S. Shon, D. Zhang and J.R. Kim	17
Experimental and Numerical Study on the Blast Resistant Performance of Geopolymer Concrete J.W. Wu, H.J. Syu, Y.K. Tsai, Y.F. Li, W.H. Lee, C.Y. Kuo, C.C. Chen, W.C. Lin and Y.W. Wang	25
Polymer Concretes Based on Thermosetting Polymers: Technological, Physical, Mechanical Properties and Use in Construction Y. Danchenko, V. Andronov, H. Olijnyk, O. Mirus and V. Evtushenko	33
Acetylation of Aspen and Alder Wood - Preliminary Tests O. Horbachova, N. Buiskykh, S. Mazurchuk and V. Lomaha	45
Investigation of the Influence of Aluminosilicate Adhesives Modified with Magnesite on the Strength Properties of Glued Wood Products V. Lashchivskiy	53

Chapter 2: Materials in Road Engineering and Geotechnics

Low-Temperature Mixed Mode (I/II) Fracture Characterization of Polymerized Sulfur Modified AC Mixtures S. Ghafari and F.M. Nejad	61
A Robust Statistical Analysis of Factors Affecting Interface Bonding between Asphalt Pavement Layers R. Al-Jarazi, A. Rahman and C.F. Ai	67
Strength Development of Shotcrete in Compressed Air Pressurised Underground Environment P.L. Ng and A.T. Yeung	75
Characterization of Phosphogypsum for Potential Uses in Soil Stabilization D. Temirbekov, C.S. Shon, I. Manap, D.K. Kim, H.S. Kim and J.R. Kim	83

Chapter 3: Elements of Building Structures

Effect of Cross-Section Stiffness on Strength of Rectangular Steel H.T. Wu, C.H. Liu and W.T. Hsu	93
Time-Variant Chloride Ingress Models for Probabilistic Assessment of Concrete Bridge Decks with De-Icing Salt Attack P. Aruz and P. Koonnamas	99
Analyzing the Combined Effects of Axial Loads and Bending Moments on Unequal-Angle Steel Members W.T. Hsu and S.T. Chung	105
Analysis of the Effect of Slenderness Ratio on Axial Force in T-Section W.H. Hsu, H.C. Chung and W.T. Hsu	111

Technology of Manufacturing Hollow Soil-Cement Blocks O. Mykhailovska	119
Investigation of the Relationship between Concrete Cylinder Dimensions and Compressive Strength Y.F. Lin and C.H. Liu	129
