

# Table of Contents

## Preface and Conference Organization

## Chapter 1: Sustainable City and Regional Development

<b>Analysis on the Space Scale of Low Carbon Community</b> S.Y. Yao	3
<b>The Competition Mechanism between Green Space and Construction Land Based on Nonlinear Model - A Case Study of Suzhou</b> X.D. Xiao, L. Dong and Q.X. Zhang	7
<b>Redevelopment of the Mitsubishi Plant at Tonsley Park Site in Adelaide</b> Y. Hu	11
<b>Sustainable Attraction of Ecological Countryside Resort</b> S.H. Zhang	15
<b>Research on Cultural Heritage Tourism Development Based on Tourist Perception: Taking Beijing Olympic Park of China as an Example</b> J.H. Li, R. Sia and Y.B. Zhu	21
<b>Key Factors of Disaster Area Restoration</b> S.H. Lin and S.M. Chen	27
<b>Research on the Migration and Law of Development in Sanqin Region</b> Y.R. Guo and L.Z. Jiang	36
<b>Mega-Events and Guangzhou Sustainable Development</b> L. Wang and F.Q. Wang	40
<b>Comparative Analysis of Domestic and Foreign Urban Renewal</b> G.L. Ou	45
<b>Space Distribution Pattern Research and Optimization Analysis of Rural Settlements in Yicheng City</b> W.L. Jiang and Y. He	50
<b>Benefit Evaluation of Urban Treated Roofwater Reuse</b> Y.Q. Zhou, W.P. Wang and W. Wang	54
<b>Study on the Development of Urban Historical Area and the Conservation of Cultural Heritages from the Viewpoint of the Participation of Local Organization</b> C.P. Lu and S.M. Chen	58
<b>Research on the Morphological Evolution of Sanye House Village Located in Farming-Pastoral Zone of Eastern Inner Mongolia</b> J. Kong, L. Qiu, M. Ma, J. Wang, M. Zhang, W.M. Wang, H. Su, Y. Li, J. Kang and W. Chen	64
<b>Coal Mining Influences on the Soil Water Content in Mao Wusu Sand Land</b> R.P. Zhou and Y.R. Wu	68
<b>Critical Assessment Holistic Sustainability at Building Scale in China through Case Studies of Sustainable Tall Buildings</b> Y.C. Liu, J. Wan and Z.H. Wang	75
<b>Study of Water Conservation Evaluate for Green Building</b> W. Zhang and Y. Yang	81
<b>A Research on the Development of Large-Scale Residential Districts of Tianjin</b> C.H. Wang, J.J. Wang and X. Liu	85
<b>Urban Sustainable Development Evaluation Index System of Ecological Civilization Construction - A Case Study of Tianjin City</b> H.W. Zhang and Z.R. Lan	90
<b>Coordination Measurement and Analysis Between Construction Industry Development and Resource-Environment in Liaoning Province from 2004-2011</b> B.K. Qi, K.B. Li, X. Liu and L. Zhao	97
<b>Review of Research on Sustainable Community</b> X.D. Qin, Y.H. Zhang and J. Lei	102

<b>The "Efficiency Electric Power Grid Circles" an Ideal Micro-Urban Development Approach</b>	
S. Tkac and Z. Vranayova	107
<b>Evaluation on Sustainable Development Level - A Case Study of Liaocheng City</b>	
K. Liu, C.X. Wang, S.S. Song and Q. Li	111
<b>The Space Model of Urban_Rural Integration in Sparsely Populated Areas - Taking ETuoKeQianQi as an Example</b>	
H. Yang and P. Zhang	115
<b>Research on the Scale and Platform of Sustainability Assessment for Area Scale Residential Development in China</b>	
X.P. Zhang, B.Y. Zhao and W. Qin	119
<b>Accounting of Carbon Emissions in Key Fields of Dongying City, Shandong Province</b>	
Z.J. Li and C.J. Gong	123
<b>Evaluating the Spatial Pattern of Organic Agricultural Enterprises in China</b>	
B.X. Gu, Y.H. Wang and Y.P. Li	127
<b>The Spatial Distribution and Impact of Organic Certification Information Center in China</b>	
Y.P. Li, Y.H. Wang and B.X. Gu	136
<b>Evaluation of the Sustainable Development of the Energy and Chemical Industry Base in Northern Shaanxi</b>	
S. Hua	145
<b>Research on Space Design in Daqing Commercial Street Based on Ecological and Livable City Construction</b>	
X.L. Xu, F. Su, J. Liang and T. Xue	152
<b>Study on the Compilation of General City Planning Guided by Low-Carbon and Ecology</b>	
J.S. Li, X.G. Cheng, H.Y. Li, H.L. Gao and Z.H. Sha	156
<b>Spatial Disequilibrium Development and its Policies of Central China: The Case of Hubei Province</b>	
Y. Liu, L.L. Chang and C. Peng	160
<b>Strategy and Tactics in Common Renovation of Ordinary Existing Housing</b>	
L. Yan, Q.L. Xu and W.R. Zhou	168
<b>New Mode of Sustainable Development in Urban China, the Compact City</b>	
L. Gu and M.F. Chen	172
<b>Research on the Yinchuan Plain Development Status and Urban-Rural Integration</b>	
P. Zhang, L. An and H.J. Sun	176
<b>Study of Tianjin City's Cultural Strategies in its Greenway System Plan</b>	
K.L. Sun and Y. Chai	180
<b>Planning Thinking of the Transformation from a Resource-Based City to Ecological Civilization City: A Case Study of Pucheng Eco-City Planning</b>	
Q.H. Hou and Y.Q. Duan	185
<b>Implementation of Crime Prevention through Environmental Design by Kuala Lumpur City Hall</b>	
S. Shamsuddin and N.A. Hussin	193
<b>Research on the Regional Sustainable Development Based on the Ecological Footprint Theory: A Case of Henan Province</b>	
H. Chen, C.K. Li and L.D. Wang	199
<b>Exploration on the Role of the BOT Financing Model in the New Rural Construction</b>	
X.R. Zhong and J.P. Zhao	204
<b>Study of Methods of CBD Plan and Design in Green Vision</b>	
C.X. Kang, C.A. Zuo and X. Liu	208

## **Chapter 2: Renewable Energy and Building Energy Saving Technology**

<b>Study on Indoor Environment and Energy Technology of Inner Mongolia Grassland Dwellings</b>	
G.M. Dong and J.P. Liu	215
<b>Research on the Energy Efficiency Evaluation System for Surface Water Source Heat Pump System in Northeast Cold Region of China</b>	
L. Yu, M.Y. Sun, G.H. Feng and W. Gao	220

<b>Energy Efficient Measures for Buildings with Grid-Connected Photovoltaic Systems Located in Bangkok, Thailand</b> C. Yimprayoon	224
<b>Research on Energy Consumption Quota for Public Buildings in Hebei Province</b> S.L. Liu, Y.Q. Xu and D.S. Ju	231
<b>Parameter Analysis on Energy-Saving Behavior of a Steel Residential Building</b> C. Lin, Q.X. Wang and X.T. Peng	235
<b>Heat Transfer Enhancement Analysis of Microencapsulated Phase Change Suspension</b> W.B. Fang and C.J. Wang	239
<b>Establishing the Residential Building Energy Saving Comprehensive Evaluation Index System of Baotou</b> G.H. Jin and H.Z. Wang	244
<b>Energy Performance Simulation Study on VAV Air Condition System at SPSU Campus Office Building with EnergyPlus</b> G.C. Zhang	249
<b>Green.Energy-Saving.Comfortable - The Research of the Rural Residential Design in New Period</b> P. Wang and G.Q. Li	253
<b>Solar Heating and Nocturnal Cooling System Integrated in Refurbished Buildings</b> B.Q. Yin, Y.P. Wang, L. Zhu and Y. Cui	257
<b>The Application of Piezoelectric Energy Harvesting Technology in Intelligent Building</b> B. Guan	263
<b>Study on Alternative Refrigerants for Direct Expansion Solar Assisted Heat Pump System</b> H. Li	267
<b>Research on Energy-Saving Reconstruction on a Nontraditional Rural House in Zhejiang Province</b> M.Y. Wang, F. Qi and J.S. Ma	271
<b>The Influence of Outer Weather Conditions on the Modelling of Vertical Ground Heat Exchangers</b> P. Álvarez Gómez, I. Rodríguez Maestre, F.J. González Gallero and J.D. Mena Baladés	276
<b>The Life Cycle Oriented Concepts of Zero Energy Solar House: A Review of SDE2010 Projects</b> X.Q. Yang, W. Yang and H. Gao	281
<b>Solar Cooling in Slovakia</b> P. Fedorčák, D. Košičanová, R. Nagy and P. Mlynár	286
<b>Simulation of Tidal Stream Turbine Working Near Free Surface</b> J.W. Zhou and D.Z. Wang	291
<b>Recent Advances in Experimental and Numerical Study on Thermal Conductivity of the Composite Wall</b> J.J. Zhu and H.H. Zhang	296
<b>Numerical Study on Energy Consumption Characteristics for Wall Insulation Structure in Hot Summer and Cold Winter Zone</b> M.L. Wu, X.Q. Qian and Y.T. Zhu	300
<b>Review on the Exploitation Approaches of Tidal Power</b> J.L. Hao, H. Li, J. Peng and K.R. Qi	307
<b>Application Potential of Solar-Shading in Tropical Island Cities</b> X.P. Li, B. Yin, C.X. Yang and H.Z. Zhou	312
<b>Study on Medium-Term and Short-Term Wind Power Forecasting Methods</b> G.Z. Wu, Y.B. Zhang, C. Su and Y.J. Liu	318
<b>Research on Energy-Saving Technology of Housing Colony of Yangling</b> L.L. Xu, G.X. Zhang and J. Zhang	323
<b>Comprehensive Measures should be Taken for Exterior Window Thermal Insulating Energy-Saving</b> J. Zhang and S.F. Dong	327
<b>Research on Green Residential Buildings Based on Energy Efficiency and Renewable Energy</b> B. Hu and W.P. Sun	331
<b>The Energy and Exergy Efficiencies of Renewable Energy Utilization in a Building Stock</b> X. Chen	335

<b><i>In Situ</i> Saccharification of Cellulose in Mild Ionic Liquid Using Sodium Alginate Immobilized Cellulase</b>	
J.J. Fei, Q. Li, Y.Y. Feng, G.S. Ji, X.D. Gu, T.C. Li and Y. Liu	339
<b>Biodiesel Production from Cottonseed Oil by Micro-Flow System</b>	
W. He, Z. Fang and K. Guo	343
<b>A Case Study of the Integrated Design of Solar Water Heating System in High-Rise Residential Buildings</b>	
L. Li, J. He and Y.X. Chen	347
<b>Analysis of the Application of Double Envelope Enclosure in the Energy-Saving Design of High-Rise Buildings</b>	
Q. Sui and C.J. Wang	352
<b>Application Research on Virtual Simulation Technology in Building Energy Efficiency</b>	
Z.X. Na and J. Du	357
<b>Considerations on the Energy-Saving and Emission-Reduction of Architectural Design in University Campus</b>	
X.L. Xu, F. Su, J.Y. Chu, J. Liang and W.Y. Zhao	362
<b>An Overview of Building Energy Consumption Analysis Methods in China</b>	
W.J. Wu	366
<b>Vanadium Dioxide Thin Films Deposited on ZnO Buffer Layer for Smart Thermochromic Glazing of Windows</b>	
J.W. Ma, Y.R. Song, G. Xu and L. Miao	370
<b>Water-Filled Window: Vision of Use in Middle Europe Region</b>	
J. Lojkovics and D. Košičanová	374
<b>The Design and Calculation of the Mooring System in Floating Body with Rope Wheel Device</b>	
Y.G. Wang, X.H. Tong, L.S. Zhu and Y. Liu	378
<b>The Effective Use of Renewable Energy Sources and Advanced Technology of Environment Systems in Public Buildings</b>	
M. Kušnír, D. Košičanová and F. Vranay	382
<b>Applicability of One-Dimensional Transient Solutions for Ground-Coupled Heat Transfer in Buildings</b>	
J.D.M. Baladés, I. Rodríguez Maestre, P.Á. Gómez and J.L. Foncubierta Blázquez	386
<b>Application of PV Roof on Large Space Structure System</b>	
P. Di and W. Shen	391
<b>Dynamic Simulation and Analysis for Thermal Insulation and Heat Preservation of Wall</b>	
X.J. Wang, Z.H. Zhang and Z.H. Chen	396
<b>Is the NZEB Benchmarking Approach Suitable for Assessing Energy Retrofit Design?</b>	
M. Beccali, A. Galatioto, G. Leone and S. Longo	402
<b>Energy-Efficient Design of Super High-Rise Building in Hot Summer and Cold Winter Zone</b>	
W.Y. Qu	408
<b>Quality Control Measures of EPS External Thermal Insulation Board</b>	
J. Zhang and Y. Xue	414
<b>The Study on Theory of Solar Water Heater and Integration Design of Combining Solar Energy Techniques with Building</b>	
W.Q. Tong and L. Yang	418
<b>Potential and Economic Analysis of Office Building Energy Saving Reconstruction in Sunan Region</b>	
X.P. Feng, Z.H. Jiang and Y. Han	422
<b>A Case Study on the Verification of Passive Office Energy Performance Comparing Actual Energy Consumption to Simulation Result</b>	
Y.S. Ko and S.T. No	427
<b>Consideration of Solar Water Heating System Application technology Guideline for Dezhou City</b>	
C.J. Wang and D. Ding	431
<b>Status and Transformation Measures of the Roof of Existing Residential Buildings</b>	
H.F. Liu	436
<b>A Study on the Energy-Saving Reconstruction of the Roof of Existing Building</b>	
R.B. Han, Z.M. Xu, E.S. Long and Y. Wang	440

<b>Discussion to Energy-Saving Design of the Air-Conditioning System</b> Q. Wang and R. Li	444
---	-----

## **Chapter 3: Indoor Environment**

<b>Positive Effect of Traditional Culture on the Sustainable Development of Indoor Environment</b> Q.G. Ren and Y. Bai	451
<b>The Study of Interior Design Sustainable Development</b> W.J. Gaowa and G. Yan	455
<b>Field Investigation of Indoor Thermal Environment and Thermal Adaption of Dalian Residences in Winter</b> P.S. Zhu, F. Guo, T. Zhu and S.G. Liu	458
<b>Residents' Needs for Indoor Environments</b> B. Wang, P.C. Chen and X. Liu	464
<b>Research on Design and Innovation of Milk Fiber in the Building Space Decoration</b> J. Jiang and J. Xu	468
<b>Exploitation of Microclimate Diversity and Transitional Space Adaptability Focused on the Residence Interior: An Example of the Hot Summer and Cold Winter Zone in China</b> Z.K. Lei, Z.Q. Gao and L. Zhou	472
<b>Discussion on Campus Acoustic Environment</b> J. Wu and F.H. Lu	476
<b>The Application of Constant Temperature, Constant Humidity and Constant Oxygen System in the Residence of Taiyuan - Take Taiyuan Wanguo MOMA as an Example</b> Y. Yang and Y.B. Gao	480
<b>Inspiration of New Chinese-Style Interior Design from Ming-Style Furniture</b> W.Y. Dong, W.X. Ye and Y. Cheng	484
<b>Cognition Spaces of Modern Furniture Color Semantics</b> J.F. Xu, H.N. Zhang and T.J. Cui	488
<b>A Study on Urban Furniture Design Based on Landscape Imagery</b> F.C. Kuang, Z.H. Wu and X. Liu	493

## **Chapter 4: City Ecological Environment**

<b>Spatial-Temporal Analysis on Summer Heat Island Effect Based on Tests - With the Southeastern of Wuhan as an Example</b> X.S. Li, X.Y. Tao and S.L. Zhang	499
<b>A Thought about the Ecological Strategy in Layout Planning for a Northern Urban Residential District - Taking the Summit Residence for Example</b> J. Wang and H.L. Lu	504
<b>Research and Countermeasures on Human Settlement Problems in Coal Resource Exhausted Cities of Heilongjiang Province</b> H. Ying, B.S. Cheng, S. Ming and L.B. Dai	508
<b>Multi-Angle to Solve the Problem of Urban Environment Greening - Several Suggestions of Urban Greening Based on Tianjin as Example</b> L. Sun and J.H. Zhang	514
<b>Modern Environmental Design of Feng-Shui Culture Ecological Analysis</b> X.J. Chen	519
<b>Study on the Design Strategy of Commercial Pedestrian Street in Cold Regions Based on the Conditions of Microclimate</b> J.W. Li and W.Y. Zhao	525
<b>Impact of Land Use Pattern on Urban Thermal Environment in Wuhan, China</b> L.P. Ye, Z.P. Cheng, N.S. You, Q. Wang and X.Q. Tian	529
<b>Applied Research on the Urban Roof Greening - Take Shangcheng District for Example</b> C.J. Yan	533
<b>Study on Thermal Environment of Sports Field in Different Materials</b> Y.Q. Xiao and Y.X. Cao	538

<b>Problems and Solutions of Eco-Industrial Parks in Wuhan</b> G. Jing, J. Guo, M. Huang and L.S. Liu	542
<b>Evaluation Approaches of Urban Freeway Greening</b> H. Zhang, C. Li, S.L. Cheng and W. Li	547

## Chapter 5: Water Purification and Wastewater Treatment

<b>Design of Extension Project of Huangpu Road Wastewater Treatment Plant in Wuhan City</b> L. Zhang and X. Wang	555
<b>Study on the Inhibitory Effect of Bayberry Tannin Extract on Anaerobic Fermentation</b> X.Y. Ma, X.P. Yang and S.F. Zhang	562
<b>The Treatment and Disposal of Produced Water from Onshore Oilfields</b> Z.M. Liu, Y.Q. Jin, G.Q. Yuan and M.J. Law	567
<b>Study on Water Distribution System's Biological Stability of Northern Living District</b> X.Y. Zhang, Y. Fu, L.P. Qiu and Y.Z. Yu	574
<b>Analysis of Disinfection Influencing Factors with Compound Chlorine Dioxide</b> J.K. Zhang, W. Tan, C. Zhang and L.L. Dai	578
<b>The Degradation Law of Three Nitrogen in the Wetland of ShenYang Xiquan Lake</b> J. Pan, L. Jiao and T. Leng	585
<b>Exploring the Role of Ecological Groin in Improving River Water Quality: A Case Study in Wangyu River, China</b> C.C. Chen	589
<b>Research on Influencing Factors of Photoreactivation in Urban Sewage Treatment by UV Disinfection</b> J.K. Zhang, H.Y. Wang, H.T. Shao and Z.B. Dong	595
<b>Experimental Studies of CS Type UV Sterilizer for the Urban Sewage Treatment</b> J.K. Zhang, Y.Y. Li, C. Zhang and Y.B. Yang	601
<b>Remediation of Groundwater Polluted by Nitrate Nitrogen in the Rural Area</b> Z.H. Pang, C.H. Peng and Y.Z. Zhu	606
<b>Development of an Integrated Moving Bed Biofilm Reactor-Membrane Bioreactor for Wastewater Treatment</b> L. Duan, Y.H. Song, W. Jiang and S.W. Hermanowicz	611
<b>Pretreatment Process of Heavy Oil Wastewater from Oil Field Treated by Membrane Technology</b> G.F. Sun, J.L. Xu, C.H. Sui and H.Y. Si	615
<b>Laboratory Experiments of Roofwater Treatment by Sand Column in Jinan</b> H.Y. Deng, W.P. Wang and M. Bin	619
<b>Inactivation of <i>Cryptosporidium</i> and <i>Giardia</i> in Drinking Water by Ozone</b> Z.L. Ran and S.F. Li	623
<b>Reconstruction of Waste Water Treatment Plants in Russia, Approaches and Solutions</b> E.S. Gogina and N. Makisha	628
<b>Floating Feed in Ammonium Removal</b> N. Makisha and E.S. Gogina	632
<b>Measures to Relieve the Stress of Water</b> S.K. Duan, G.S. Shen, Z.D. Shan, Y. Dong, K. Zheng, J.P. Guo and S.K. Xiong	636
<b>Research on UNITANK Technology and its Application in Municipal Wastewater Treatment Plant</b> D.J. Bao, Z.M. Liu and J. Li	640
<b>Biological Aerated Filter Applied to Advanced Treatment of Ammonia Nitrogen in Wastewater from Hair Products</b> G.M. Tang, P. Cao, S. Wang and Y. Chen	644
<b>Enhanced Coagulation with Chitosan-Modified Clays in Treatment of Micro-Polluted Water</b> Y.H. Wang, S.J. Chen, Z.Z. Zhang, Z.H. Ren and H.L. Ma	650
<b>Application of Ferrate for the Treatment of Organic Matters in Wastewater</b> Y.R. Song and J.W. Ma	654

<b>Development of Ferrate(VI) Salt as an Oxidant and Coagulant for Water and Wastewater Treatment</b>	
Y.R. Song and J.W. Ma	658
<b>Oxidation of Inorganic Contaminants by Ferrates (VI) - A Review</b>	
Y.R. Song and J.W. Ma	662
<b>Research Progress of Tannery Wastewater Treatment</b>	
P. Chen, L.B. Kan and C. Jia	666
<b>Research on Molybdenum Removal from Water Polluted for Drinking</b>	
Y.H. Zhao, Z.Y. Jin, X. Yan, X. Wang and Z.P. Wang	670
<b>Study on Mechanism Design of Rural Drinking Water Safety Engineering Project Financing Guarantee</b>	
W. Li	674
<b>Research on the Insulation Materials with Sugar Filter Mud as Pore-Forming Agent and Jilin Clay as Aggregate</b>	
C. Qian, W.Y. Gao, C.Y. Luo, L.D. Tuo, H.Y. Li, Y.F. Wang, G.S. Liu, H.S. Hao and Z.Q. Hu	682
<b>Organic Contaminant Types of Urban Landscape Water and Countermeasures: A Case Study of the Xuchang Moat</b>	
Z.X. Li and W. Lü	686
<b>Research for Start-Up Experiment about IC Reactor to Treat Straw-Washing Wastewater in Straw Based Pulping and Papermaking</b>	
H.C. Zhang, Y.P. Cui, K. Zeng and X.D. Wan	691
<b>Treatment of Tannery Wastewater by Electrochemical Oxidation Process</b>	
L.L. Huang, J.F. Liu, N. Zhang, B. Sun and Y.J. Feng	697
<b>Research and Application of Ultrafiltration Technology in Micro-Polluted Water Resources Treatment</b>	
G. Li, C.H. Hao, Y.M. Jing, D.X. Liu and Y. Li	701
<b>Coagulation Experimental Study of Coal Washing Wastewater Treatment</b>	
J.J. Fu and M.Z. Hu	705
<b>Evaluation of the Adsorption of Cr(VI) by Modified Bamboo Shells</b>	
X.L. Jiang and Y.H. Jiang	709
<b>Removal of Sulfamethoxazole and Erythromycin from Aqueous Solution by <math>O_3/H_2O_2</math></b>	
J.G. Liu, Q.Y. Sun, Y.H. Zhang, C.Z. Sun, X.F. Jia and W.C. Song	716
<b>Ionic Liquid-Assisted Fabrication of ZnO with Enhanced Photocatalytic Performance</b>	
X.W. Zheng, Z.H. Xiao, J.B. Zhong and W. Hu	722
<b>Research on Flocculation Behavior in Diethyl Phthalate Removal from Water by Using Anionic Flocculants P(AM-AA-AMPS)</b>	
J.Y. Ma, H.L. Zheng, X.M. Tang, W. Chen, W.W. Xue, Y. Liao, Q.Q. Guan and Y. Liao	726
<b>A Pilot-Scale Study on Start-Up and Operation of Biofilter with Composite Media</b>	
D.J. Wu, Y.J. Wang, X.D. Zhai and X.X. Cheng	730
<b>ZnO-TiO<sub>2</sub> Composite Material Prepared by Sol-Gel Method to Treat Pharmaceutical Wastewater</b>	
X. Wang, W.W. Li, Y.F. Xiao, L. Zhu and X.Y. Liu	736
<b>The Application of Industrial Waste in Landscaping</b>	
Y.J. Liu and S. Zhang	740
<b>A Study on Bacterioplankton Community Composition in a Nature Reservoir</b>	
B.B. Liu, H.Y. Zhang and S.B. Cui	747
<b>Phosphorus Fractionation in the Sediment of a Natural Lake</b>	
S.B. Cui, H.Y. Zhang and B.B. Liu	751
<b>Research on Coagulation/Sedimentation Process for Simulation of Fluorine-Containing Wastewater Treatment</b>	
L.Z. Zhai, Y.H. Sun and C. He	755
<b>Application of MnO<sub>2</sub> Materials to Dye Removal from Aqueous Solution by Adsorption</b>	
W.F. Dong, L.H. Zang and H. Li	760
<b>The Ammonia Nitrogen Removal Enhanced by Biological Aerobic Filter Packed with a Novel Lightweight Zeolite Particles</b>	
H. Tang, L. Ouyang and X. Zhao	764
<b>Research on Disinfection By-Products in Water Distribution System of a Northern City</b>	
X.Y. Zhang, Y. Fu, L.P. Qiu and Y.Z. Yu	768

<b>Dynamic Adsorption Characteristics of the Modified Activated Carbon for 2,4,6-Trichlorophenol</b>	
X.L. Wang, Z.J. Ju, X.P. Huang and F.J. Xu	772
<b>A Comparative Study of Matang and Kuala Sembeling Landfills Leachate Characteristics</b>	
N.S.M. Zin, H.A. Aziz, M.N. Adlan, A. Ariffin, M.S. Yusoff and I. Dahlan	776

## **Chapter 5: Water Purification and Wastewater Treatment**

<b>Research on Treatment Process for Chemical Agent VX Polluted Water by Enhanced Coagulation</b>	
X.J. Wang, X.J. Li, S. Wang and Y.Z. Ji	785
<b>Study on Combined Process of Adsorption-Membrane Separation for Military Toxicant VX Polluted Municipal Water Treatment</b>	
X.J. Wang, E.F. Chen and Y.Z. Ji	789
<b>Biosorption of Mn(II) by Immobilizing Dominant Bacteria on the Surface of Chitosan Cross-Linked GAC Beads</b>	
Y.N. Gao, R.X. Zhang, X.Y. Tang, X. Fu and P. Cong	793
<b>Research Progress of Dyeing Wastewater Treatment</b>	
P. Chen, L.B. Kan and C. Jia	797
<b>Application of a Magnetic Resin (MIEX) in Raw Water</b>	
J.W. Ma and Y.R. Song	801
<b>Dewatering Excess Sludges of Sanitary Sewage by Supersound and PAFC</b>	
L.X. Gao, X.C. Liu, M. Wang and L. Huang	805
<b>Evaluation of VOCs Purification System from Wastewater in a Shijiazhuang Bio-Pharmaceutical Factory</b>	
Z. Du, F.Y. Fu, A.L. Ren and D.C. Zhang	809
<b>Study on Membrane Fouling of a Hydrogen-Based Membrane Biofilm Reactor Treating Nitrate-Contaminated Drinking Water</b>	
G. Li, J. Yu, Y.H. Zhang, L. Gao and H. Zhang	814

## **Chapter 6: Air Environment Control and Architectural Environment Improvement Techniques**

<b>Shape Study on a Cubic Wooden Detached House Model for Reducing LCCO<sub>2</sub></b>	
J.L. Sui, S.L. Wang, Y.T. Ren and T. Ma	821
<b>Research on an Integrated Roof System for Optimization of CO<sub>2</sub> Emission</b>	
J.L. Sui, S.L. Wang and T. Ma	825
<b>Shape Study on Wooden Detached House for Reducing LCCO<sub>2</sub> by GA</b>	
J.L. Sui, S.L. Wang, T. Ma and Y.T. Ren	829
<b>Air Flow Modelling of a Multi-Storey Office Building</b>	
C.J. Wang and W.W. Liu	833
<b>Limited Analysis the Operation Parameters of Float Glass Melting Tank and Flue Gas Desulfurization Correlation</b>	
N. Xu and Y. Xu	845
<b>Comments on China's New Ambient Air Quality Standards</b>	
M.Q. You	850
<b>The Application of the IVE Model for Establishing the Vehicle Emission Inventory in the Urban Areas of Chongqing</b>	
X. Feng, T.L. Wang and Q. Zhao	854
<b>Study on Correlation between Urban Development and Air Pollution Based on Artificial Neural Network</b>	
J.P. Li, Q. Song, H.Y. Yang and H.M. Duan	860

## **Chapter 7: Environmental Engineering and Environmental Protection**

<b>The Formation of Toxic Compounds during Biochar Production</b>	
L. Chen, H. Zheng and Z.Y. Wang	867

<b>The System of Soil Management in the Coal Mining Collapse Area</b> J.N. Chen and Z.X. Yue	871
<b>Removal of Diesel Oil from Soil Using Rhamnolipid and Sodium Dodecyl Sulfonate</b> C.F. Tang and X.J. Lian	875
<b>Absorptive Extraction of Pb by Cattail Plant</b> C.F. Tang and Y.L. Li	879
<b>Evaluation of Water Land Safety Based on Explosive Bloom Assessment</b> Q. Li, M. Lv and S. Ye	883
<b>Environmental Acidification due to Soil Acid Changes of Different Land Use Patterns</b> Y. Shen and Y.L. Yi	888
<b>The Policy Systems of Low-Carbon Economy for Jiangxi Province</b> Q.G. Zhang, Y. Yin and L. Wei	892
<b>Temperature Extremes over China Simulated by the Beijing Climate Center Climate System Model (BCC_CSM1.0)</b> J.X. Li, S.G. Wang, K.Z. Shang, Y. Li, T.Y. Hao and M.Z. Wang	898
<b>Low-Carbon Building Assessment and Model Construction</b> Z.W. Liu, P.Z. Gao and Y.W. Kang	903
<b>Influence of Surfactants on Biodegradation of Chlordane by Wood-Rotting Fungus</b> P.F. Xiao, T.X. You, Y.Z. Song, S. Ying and J.Q. Wang	908
<b>Double Fracture Systems of Rock Flow for Geological Disposal of the High-Level Radioactive Waste</b> K. Man, X.L. Liu, J. Wang, R. Su and Y.Q. Zhu	912
<b>Study on the Ecological Environment Impact Assessment of the Port Engineering Based on the PSR Model</b> Y. Cheng and L. Li	917
<b>Distribution of Polycyclic Musks in Sediments from the Songhua River</b> B.Y. Lu, Y.J. Feng, Z.H. Zhang and N. Lin	921
<b>Polycarbonate Daylighting Performance on the Top-Lit Building</b> Y.G. Chung and S.Y. Seo	925
<b>The Study on the Measures and Countermeasures of the Water Management of Luyang Lake Westland</b> J.H. Yang, M. Xi and Q.L. Zhang	930
<b>Research Progress on Resource Utilization of Urban Sludge</b> G. Li, C.H. Hao, Y.M. Jing, D.X. Liu and Y. Li	934
<b>Eutrophication Problems of Recycled Water for Landscape Water and Ecological Restoration</b> G. Li, C.H. Hao, Y.M. Jing, D.X. Liu and Y. Li	938
<b>Study on the Migration Law of Heavy Metal Elements of Open Pit Waste Dump in Surrounding Soil</b> X.G. Zhao, Y. Yang, N. Zhang and Y. Li	942
<b>The Development and Ecological Responses of Fishways under the Legislative Trend of Environmental Flows in China</b> C.C. Chen, L.C. Wang, J. Song and X.Z. Cao	949
<b>The Application of Fuzzy Comprehensive Evaluation Method Based on Interval Number Distance in Water Quality Analysis</b> X.P. Zhang, W.J. Xu and W.G. Chen	954
<b>Effect of Release Temperature from Three Gorges Reservoir on the Procreation of Chinese Sturgeons</b> S.S. Lu, L.Q. Dai, H.C. Dai and J.Q. Mao	958
<b>Geological Environment Quality Evaluation with Fuzzy Mathematics</b> J.N. Chen and X.C. Wang	962
<b>Uneven Distribution of PM<sub>2.5</sub> and Residential Area Planning</b> Z.W. Wu, X. Ma and X. Yang	966
<b>Research on Ecological Restoration of Qingtu Lake and Water Resources Scheduling in the Downstream of Shiyang River Basin</b> Y.X. Yan and X. Yan	973
<b>A Post-Occupancy Evaluation of the Outdoor Environment of the Tahiti Villas in Kunming District</b> H.Y. Chen, D. Wang, N. Zhao and S.G. Zhu	977

<b>Effect of Long-Term Fertilization on Soil Water Balance and Water Use Efficiency in the Loess Plateau of China</b> F.L. Zhou, Y.H. Hu, H.L. Ma and S. Xue	982
<b>Courtyard Space and Natural Ventilation of National Fitness Center in Hot and Humid Areas</b> W. Zhang and J. Li	988
<b>The Discussion of Increasing Environmental Supervision and Protection in Engineering</b> P.Z. Lu, B.B. Feng and J.Y. Fu	995
<b>Simulation on Chemistry Tracer Transportation and Concentration in Extremely High ABL Environment in Northwest China</b> M.J. Ma	999
<b>A Study of the Comprehensive Management Mechanism during the Overall Processing of Shenzhen's Construction a Waste of Silts from an Ecological Perspective</b> X.L. Gong, J. Pan and X.Y. Kang	1007
<b>Design Analysis on Project of Wu River Wetland Park of Linyi Shandong</b> J.C. Qi	1012
<b>Study on the Loss and Degradation and Sustainable Development Countermeasures of the Coastal Wetlands in Qinhuangdao</b> Y.D. Peng and J.Y. Wang	1016
<b>Study on Fiber Optical Reactor Catalytic Degradation of Oxytetracycline</b> Y. Zheng and L.X. Gao	1020
<b>Study on Correlation between Vegetation Restoration and Physics and Chemistry Characters of Soil in Embankment Slope</b> Y. Liu, Z.P. Qiu, J.R. Shen, Y. Hu, Y.Y. Liu and C.R. Shen	1024
<b>Legal Regulation of CCS Technique</b> Z. Jing	1028
<b>Study on Activated Sludge Microorganisms of Northern Winter Sewage Treatment Plant</b> X. Tian, S.S. Ai, Y. Zuo, Q.K. Ren and Z.Y. Xie	1032
<b>Comprehensive Evaluation on Exploitation and Utilization of Water Resources Based on Improved Fuzzy Pattern Recognition Model</b> H.W. Chen, M.Y. Fan, J.W. Huang, X. Zhang, H.J. Liu and S.D. Fu	1036
<b>Study of Electrochemical Behavior of the Transmission Tower Galvanized Layer in Simulated Acid Rain Solution</b> H.L. Deng and Q.L. Sun	1042
<b>The Effects of Alkaline Treatment on Excess Sludge Supernatant Characteristics</b> T.T. Li and Z.M. Fu	1046
<b>Shape Design and Flow Simulation of Mixing Impeller for Industrial Waste Oil Purification</b> X.D. Wang and X.M. Zhang	1050
<b>Mathematical Derivation of Concentration Addition, Independent Action and Effect Summation Models</b> H.L. Ge, S.S. Liu, B.X. Su and Z. Xu	1054

<b>Kinetic Spectrophotometric Determination of Tin by its Catalytic Effect on the Oxidation of Arsenazo M by Potassium Bromate</b> C.J. Cai, Z.R. Zhou, S.P. Chen and Y.L. Fang	1075

## **Chapter 8: Bridge Engineering**

<b>Research on Loading Test Scheme of Vehicular Bridge-Footbridge Combined Double-Deck Cable-Stayed Bridges</b>	1081
M. Yan, Y.Q. Yang, Y. Yuan and X.L. Zeng	
<b>Experimental Investigation of Bridge Grouting Compactibility</b>	1086
Y.Z. Zhou, E.Y. Zhu and J.M. Yang	
<b>Numerical Analysis for Installation of Horizontal Steel Tie Rod in Inclined-Column Bridge</b>	1090
T. Wan, S.J. Xi and Q.F. Zhan	
<b>Wind Field Numerical Simulation of Long-Span Bridge</b>	1094
J. Guo, W.C. Gan, D.Y. Jiang, B.N. Sun and W. Peng	
<b>Study on the Static and Dynamic Load Test of Ramp Bridge</b>	1101
Q.Y. Zhao, L. Wang, S.H. Yu, Z.Q. Lu and Y.L. Sun	
<b>Wind Tunnel Experimental Research on Flutter Stability of Liujiaxia Bridge</b>	1105
C.S. Shu	
<b>Research on Damage Detection and Calculation for Reinforced Concrete Bridge Piers</b>	1110
C.X. Lei, Q. Pu, Y.Q. Yang and J.J. Jiang	
<b>Energy Method for the Calculation of High-Pier's Effective Length Factor at the Finished Stage</b>	1115
P. Liu, J. Rui, B. Lei and F. Zheng	
<b>Research on Fuzzy Comprehensive Evaluation of Cable-Stayed Bridges</b>	1119
Y. Ren, H.H. Tang and Q. Huang	
<b>Construction Safety Control and Management on Extra-Large Underwater Caisson in Taizhou Bridge</b>	1124
X.Y. Liu, X. Wang and E.Q. Zhang	
<b>The Corrosion Prevention Research of Long-Span Non-Uniform Continuous Steel Bridges</b>	1129
Z.L. Li, H.Y. Ding, Y. Du and J. Xue	
<b>Buckling Analysis of Steel Cylinder in Super Long Bored Piles Construction</b>	1133
Y. Liu	
<b>Selection of Anticorrosion Adhesive Layer for Steel Deck</b>	1137
C.X. Yan, Z.G. Li and B. Su	
<b>A Study on Integrated Condition Assessment System for Bridge</b>	1144
M. Li, Z.L. Yi and Y. Wang	
<b>Analysis to Evolution of Numerical Simulation to the Whole Process of Destroy for Main Arch of Stone Arch Bridge</b>	1150
L.Y. Mao, C.Q. Wang and L.Y. Zhang	
<b>The Crack Limit Analysis Based on the Fracture Mechanics of the Main Arch of the Stone Arch Bridge</b>	1155
L.F. Zhang, Z.L. Yi and Y.J. Deng	
<b>The Technology of Determining Durability Index in Integrated Condition Assessment for In-Service Bridges</b>	1160
B. Wang, G.M. Li, J. Rui and Z.R. Wang	
<b>Theoretical Model and Mechanical Performance of Semi-Integral Abutment Jointless Bridge</b>	1166
T.L. Wang, Q.N. Li and D.L. Hu	
<b>The Technology of Determining Strengthening Economic Index in Integrated Condition Assessment for In-Service Bridges</b>	1170
Z.R. Wang, B. Wang, G.M. Li and J. Rui	
<b>A New Steel Beam Configuration Method of Long-Term Deflection Control of Long-Span PC Beam Bridge</b>	1176
X.W. Xue, H. Yuan and S.Q. Li	
<b>Bridge Management Intelligence Decision Support System</b>	1182
J. Wang, Z.H. Qie and X.M. Wu	
<b>Numerical Simulation of Ultimate of Slings for Three-Tower and Four-Span Suspension Bridge under Tanker Fire</b>	1187
M.Y. Liu, W. Tian, Y. Wang and W. Jing	
<b>Coupled Vibration Analysis of Vehicle-Bridge System for Jinsha River Bridge</b>	1194
X. Han, B. Zhu, J.P. Wang and G.M. Liu	
<b>Study on Orthotropic Deck Plate Fatigue Test Model Scheme of Box Girder of Railway Cable-Stayed Bridge</b>	1199
B. Han, Q.H. Pu, Z. Shi, L.Q. Gao and Y. Zhou	

<b>Urban Bridges Temperature Measurement System Based on Fiber Bragg Grating Sensing Technology</b> X.L. Wen, Y. Li and H. Wei	1206
<b>Loading Tests Research on Mianyang Anchang River Landscape Footbridge</b> M. Yan and N. Wu	1210
<b>An Experimental Study on the use of Fiber-Reinforced Concrete in Bridge Approach Slabs</b> Y.T. Chen	1217
<b>Vehicle-Bridge Coupling Vibration Reduction Analysis for Long Span Highway and Railway Bi-Purpose Cable-Stayed Bridge</b> D.H. Chen, Z. Li, H. Chen and W.H. Guo	1223
<b>Asymmetric of Continuous Rigid Frame Bridge Precamber and Construction</b> W.Q. Tong	1228
<b>Research on Hydrology Design and Checking of Bridges in Small and Medium Watersheds</b> Z. Li, D.H. Chen and H. Chen	1232
<b>Study on Mechanical Behavior of Webs of Abrea Bridge</b> B.L. Pan and J. Liao	1236
<b>Bridge Deck Transverse Stress Analysis of Arch Tower Cable-Stayed Bridge with Steel Box Girder</b> Y.S. Cao	1240
<b>Research on Development of Arch Tower Cable-Stayed Bridge</b> Y.S. Cao	1245
<b>Nonlinear Stability Analysis of Thin-Walled Pier</b> X.M. Dong	1251
<b>The Application of Discrete Element Method in the Analysis of Stone Arch Bridge</b> Y.X. Yu and Y. Zhang	1255
<b>Analysis of Large-Span Steel Concrete Railway Arch Bridge Suspender Tension</b> J.L. Xu	1259
<b>An Acceleration Sensor Placement Method Considering Network Life Cycle for Vibration Monitoring of Bridges</b> W.D. Zhang, J. Wan, Y.B. Ai and B. Yang	1264
<b>Parameter Analysis on High-Pier's Effective Length Factor of Fabricated Beam Bridge</b> P. Liu, Y.J. Li, F. Zheng and J. Rui	1272
<b>A Calculation Method of High-Pier's Effective Length Factor Considering the Dead Weight</b> P. Liu, R.Z. Wang, F. Zheng and Q. He	1278
<b>Research on Bridge Rapid Detection Assessment</b> L.L. Zhu and J.B. Song	1284
<b>Characteristics of Force Transmission of the Junction for Steel-Prestressed Concrete Composite Continuous Beam Bridges</b> D.J. Yin, X.J. He and Q.L. Huang	1288
<b>Experimental Study on Bleed Water of Duct Grout</b> Y.Z. Zhou, E.Y. Zhu and J.M. Yang	1293
<b>Optimization Analysis and Verification of Negative Moment Reduction for Bridge Structure Based Different Support Pattern</b> N. Li, G.J. Huang and B.S. Xu	1297
<b>Seismic Response Analysis of the Semi-Floating System of Long Span Cable-Stayed Bridge</b> Q. Zhao	1302
<b>Experimental Study of the Concrete Structure Performance Degradation of Songhua River Bridge</b> Z.P. Song and T.B. Yao	1306
<b>Analysis of Continuous Girder Bridge Based on Different Codes</b> M.Y. Liu and B.Z. Liu	1311
<b>Study on Reinforcement Corrosion of the Bridges</b> X.H. Xia and Y. He	1315
<b>Analysis the same Continuous Girder Bridge Based on Different Construction Methods</b> M.Y. Liu and Y. Xu	1319
<b>Investigation on Closure Temperature of Long-Span Pre-Stressed Concrete Continuous Rigid-Frame Bridge</b> X.S. Liao and T. Liang	1325

<b>Analysis on Vertical Dynamic Response of Simply-Supported Bridge Subjected to a Series of Moving Harmonic Loads</b>	1329
J.F. Zhang, X.Z. Li, L.Z. Song and C.S. Shan	
<b>A Simplified Linear Approach for Elastic Collision Analysis between the Fixed Middle Pier and the 2-Span Continuous Girder</b>	1335
T.B. Peng, L. Han and X.F. Shi	
<b>Analysis on Vehicle-Bridge Coupling Vibration of FRP Deck and Steel Girders Bridge</b>	1339
S.H. Guo, Y. Zhang and X.F. Yin	
<b>Theoretical Study of the Spherical Bearing Rotational Torque</b>	1344
T.B. Peng, X.F. Shi and L. Han	
<b>Stability Impact Analysis of Random Dead Load Distribution to T-Rigid Frame Bridge Swivel Construction</b>	1348
X.J. Che and X.D. Zhang	
<b>Assessment of Risks during Large-Span Steel Truss Arch Bridge Construction</b>	1353
W.Z. Li, Z.J. Feng, D.L. Xun, S.R. Zuo, X.J. Che, Y. Wang and C. Chen	
<b>Research of Inservice Arch Bridge Superstructure Damage Status and Evaluation Index System</b>	1358
K.C. Zhang, J.Z. Chen, H.W. Jiang and H.Q. Liu	
<b>Study on the Full Scale Model Test for Pylon Segment of Cable-Stayed Bridge</b>	1362
L.M. Zhang	
<b>The Design of a Vibration Reduction Test Platform of the Rigid Hinge Expansion Joint of Jiashao Bridge</b>	1366
T.B. Peng, B. Sun and L. Han	
<b>Behavior Response Analysis of Long Span Rigid-Frame Bridge Considering Construction Error</b>	1370
S.F. Ma and X.D. Zhang	
<b>Shear Stress Distribution and Deflection of Preflex I-Girder with Corrugated Steel Web</b>	1374
Z.Y. Chen, Q. Huang, M. Yang and W.G. Ma	
<b>Transverse Analysis about Curved Continuous Rigid Frame Bridge Cantilever Concreting Construction Process</b>	1380
N. Zhao, B. Zhu, W.J. Suo, L. Du and F. Wang	
<b>The Nonlinear Finite Element Analysis of Prestressed Concrete Box Girder</b>	1384
M.C. Zhou, Q.Y. Liu and J. Su	
<b>Analysis on Natural Vibration and Dynamic Response of Footbridge</b>	1389
S. Zhou, W.F. Su, J.L. Guo and Q.H. Pu	
<b>Electrical Resistance Method for Fatigue Crack Detection of Steel Deck</b>	1397
Z.Z.Y. Yuan, B.H. Ji, Z.Q. Fu, R. Liu and M. Cheng	
<b>Experimental Study on Multi-Mode Vibration Control of a Stay Cable with a Passive Magnetorheological Damper</b>	1402
Z.H. Wang	
<b>Analysis of Integral Abutment Bridge Static Load Test</b>	1406
T.L. Yu, X.L. Sun and S.F. Zhang	
<b>Study of Aerodynamic Interference Effects on Staggered Double Thin-Walled Hollow Pier</b>	1414
J. Wang and J.X. Liu	
<b>The Research on Impact Vibration Test Method for Bridge Piers</b>	1418
Y. Zheng	
<b>Influence of Closure Sequences on the Rigid Frame-Continuous Girder Bridge Closure</b>	1422
Z.Y. Yao, X.M. Zhang, S. Li, L.F. Li, X.H. Pan and K. Yao	
<b>Influence Analysis of Parameters Variation on Dynamic Characteristic for Concrete Filled Steel Tubular Arch Bridge</b>	1429
H. Sun, X.G. Li and S.L. Liu	
<b>Experimental Studies on Damages to FRP Reinforce Bridges under the Effect of Limited Overload</b>	1433
M. Li, F.S. Zhu, L.L. Wang and Z.S. Xu	
<b>Study on the Load Test of Xiangjiang Cable-Stayed Bridge</b>	1438
Y.L. Sun and L. Wang	
<b>Dynamic Modal Assessment of Old Reticular Steel Railway Bridges Undergoing Fatigue Deterioration</b>	1442
K. Islami, G. Tecchio and C. Modena	

## Chapter 9: Road and Railway Engineering

<b>Study on Mechanical Properties and Field Monitoring of Ballastless CWR on the Bridge in High-Speed Railway</b> B.J. Chen, X.P. Cai and X.B. Shi	1449
<b>Research on the Influence of Track Structural Parameters on Abnormal Rail Corrugation</b> G.W. Yang, H. Peng, J. Wang and X.P. Cai	1455
<b>Study on Moisture Modification for Resilient Modulus of Subgrade</b> C. Li and W. Lan	1460
<b>Comprehensive Assessment on the Life-Cycle Environment Impact of Railway Construction Projects</b> W.J. Wu and Z.H. Wang	1467
<b>Stability and Reinforcement of Subgrade Slope of Weathered Rock Considering the Effect of Seepage</b> F.G. Wang, F. Zhang, X.Z. Ling and Y. Li	1472
<b>Construction Technology of Warm Mix Retardant Asphalt Mixture</b> H. Zhao, X.S. Wang, H.Q. Lu and X.L. Lu	1477
<b>Study on Strain of Corrugated Steel Arch Bridge under Load in Low Embankment</b> Z.L. Li, L.Y. Guo and Y.H. Wang	1484
<b>Study on the Mechanical Properties of Tack Coat between Asphalt Layers by Interlaminar Shear Tests</b> H. Yin, Y.T. Zhu and C.L. Yin	1490
<b>SMA - 13 Road Construction Control Technology</b> S.J. Zhang	1495
<b>Analysis about the Disease of Vehicle Jumping at Bridgehead</b> Y.Q. Jia	1499
<b>Field Assessment in Permeability and Surface Run-Off of Permeable Pavement</b> J.D. Lin, C.Y. Hsu and Y.M. Su	1503
<b>Experimental Study on Foaming Characteristics of Foamed Asphalt</b> L. Li, Z. Chao, W. Nian and W.H. Qiao	1507
<b>Safety Assessment on Retaining and Protecting of Deep Foundation Excavation Adjacent to the Existing Railway</b> W.J. Si, Y.J. Wang, Y.F. Gao and H. Zhou	1511
<b>Experimental Study on Coarse Aggregate of Stage Filling for Asphalt Pavement</b> L.J. Ma, Y.L. Wang and J.Y. Zhang	1515
<b>The Application of GPS in Roller Real-Time Monitoring System</b> Y.J. Qi, O. Ummin, T.H. Zhang and N.M. Hong	1519
<b>Orthogonal Analysis on Responses Indexes of Asphalt Pavement</b> Y.L. Ye, C.Y. Zhuang, J. Yang and Y. Zhou	1523
<b>The Experimental Investigation of Solid Volume Rate of Base Material with the Interstitial Spall</b> L.X. Sun and D.P. Wang	1527
<b>Influence of Rubber Powder Dosage on Performance of Cement Mortar</b> Y.C. Zhang and L.L. Gao	1532
<b>Analysis of Dynamic Wind of Sound Barrier under High Speed Train</b> Z. Shi, J.L. Guo, W.F. Su and S.Y. Zhang	1536
<b>An Analytic Solution to the Settlement under the Trapezoidal Distribution of the Strip Load of the Soft Soil Foundation</b> S.Y. Zou, Y.J. Hua and F. Dai	1543
<b>Application of Rubber Asphalt in Urban Road Reconstruction</b> B. Jian	1547
<b>Analysis on Shear Stresses of Asphalt Layers on Lean Concrete Base</b> H.L. Cao, J.P. Xu and L. Qiao	1551
<b>Longitudinal Cracking Reasons and Prevention of Widened Pavements of Old Roads</b> X.B. Zhu, J.M. Shen and Z. Xiao	1555

## Chapter 9: Road and Railway Engineering

<b>Evaluation of Moisture Susceptibility for Asphalt Mixtures</b> C.Y. Zhuang, Y.L. Ye and Y. Zhou	1563
<b>Research on Transverse Distribution Characteristic of Traffic Stream for Super-Secondary Road with Four-Lane in Xinjiang Province</b> J.Y. Chen and X.P. Tian	1567
<b>The Different Road Surface Structure Combination Stress Contrast Analyse under the Axis Load</b> J.H. Gao	1571
<b>The Road-Test of High Performance Asphalt Mixture with Superpave</b> L.J. Ma, J.Y. Zhang and Z. Li	1576
<b>The Comparison between Dynamic Stress Intensity Factor and Static Stress Intensity Factor of Semi-Rigid Asphalt Pavement</b> J.S. Shan and B.B. Du	1580
<b>Parameters Selection of Asphalt Pavement Compaction Based on Virtual Experiment</b> X. Zhao	1584
<b>Properties of Single Face Compacted Porous Asphalt</b> H. Yaacob, M.R. Hainin and F.L. Chang	1590
<b>Design of High-Speed Railway Train Dispatching Simulation Training System</b> L.Q. Zhang, B.M. Han and F. Lu	1594
<b>The Analysis of Recovery Asphalt Performance in Recycled Asphalt Mixture</b> H.J. Wu and X.Y. Zhang	1598
<b>Forecasting of Highway Ecological Environment Evolution Based on Time Series Analysis</b> G.X. Wu, Q.J. Li and G.Y. Cheng	1604
<b>Characteristics of the Highway Architecture Design</b> Z.L. Li, M. Huo and Y.H. Wang	1611
<b>The Preparation Technology and Performance Study of SBS and Rubber Powder Composite Modified Asphalt</b> L. Liu, Z.H. Liu and S. Li	1617
<b>Shrinkage Characteristics of Cement Treated Base Subjected to Thermal Coupled with Moisture in the Field</b> S.X. Yu, J.C. Wei, X.W. Li and S.J. Ma	1621
<b>Low-Temperature Cracking Analysis of Asphalt Pavement</b> Z.S. Li and Y.Q. Tan	1625
<b>Comparison of Test Methods for High-Temperature Performance of Asphalt Mixtures</b> G.X. Wu, X.K. Zhang and R.L. Wang	1629
<b>Research on Application of Warm Mix Asphalt Technology in Central Plant Hot Recycled Engineering</b> Q.Z. Wang, S.Y. Liu and X.L. Li	1635
<b>A New Method for Detecting Rail Short Wave Irregularity</b> X.J. Mao, H.F. Li and Y.D. Xu	1640
<b>Research on High Blending Ratio of RAP Hot Recycling Plant</b> D.X. Wei, L. Bian and B.L. Zhu	1645
<b>Effects of New Generation Large Aircrafts on Flexible Runway Pavement</b> L. Zhang, S.X. Yang, H.R. Wang and Y.J. Wan	1650
<b>Research on Application of Warm Mix Asphalt Technology in Hot In-Place Recycled Engineering</b> X.L. Li, Q.Z. Wang and S.Y. Liu	1655
<b>The Research on Unloading Time of Stack Preloading Based on the Measured Data</b> J.X. Yang, Q.R. Liu and Z.D. Zeng	1659
<b>Monolithic Roadbed's Mechanical Behavior Affected by Structural Thickness under Tram</b> C.W. Huang, E.H. Su, X.Z. Shao, Y. Zhang and L.P. Wang	1664
<b>Evaluation of Land Saving Effect for Highway Construction Based on Composite Index Model</b> X. Li and X.L. Ren	1671

<b>Development of a Composite Specimen Interface Cracking (CSIC) Test for Reflective Cracking</b>	1676
<b>The Analyze Study of Compacting Temperature and Road Performance of Warm Mix Asphalt Mixture (LEADCAP)</b>	
H.S. Zhao, W. Chen and X.Y. Wang	1681
<b>Pavement Performance Evaluation and Analysis on Different Cooling Ways of Asphalt Mixture</b>	
Y.H. Yang, X.X. Gao, Z. Liu, Y. Shen and J.X. Gao	1689
<b>Research on Application of Precast-Assemble Technology to Road Maintenance Engineering</b>	
P. Peng, Z.G. Yuan, B. Tian and K.M. Niu	1693
<b>Numerical Analysis of Asphalt Pavement of Lean Concrete Base</b>	
L.J. Suo and B.G. Wang	1699
<b>Vertical Dynamics Analysis on Evaluation Standard of Ballastless Track Damping Effect</b>	
Z. Wu, J.Q. Li and Z. Tao	1703
<b>Laboratory Research of Optimum Fiber Content in SMA Mixture Based on High Temperature Performance</b>	
Y.W. Cheng	1709
<b>Load Stress of Roller Compacted Concrete Base in Flexible Pavement</b>	
L.J. Suo and X.W. Wang	1713
<b>Stability Evaluation of Highway Near Mined-Out Region</b>	
D. Zhang, N.Q. Shen, X. Li, Z.Y. Shu and X.L. Xu	1717
<b>Study on Mechanical Responses of Typical Asphalt Pavement Structure</b>	
X. Li, S.Q. Chen and Q.W. Li	1723
<b>Analysis on the Fatigue Life of Asphalt Pavement under Traffic Flow Loads</b>	
M.Q. Gao, P.Y. Wang and H.P. Ding	1727
<b>Analysis on Economic Benefit of Pavement Layer Based on Net Present Value Method</b>	
M.H. Hao and K. Wang	1735
<b>Cold-Recycled Base Material Fatigue Life Reliability Analysis</b>	
H. Zhang, S. Yan, L. Jiao and L. Wang	1739
<b>Relation between Highway Vehicle Speed and Influence Factors</b>	
Z.G. Liu, G.B. Cao and F.L. Guo	1744
<b>The Relationship between the Asphalt Indoor Aging Experiment and Actual Using Period</b>	
Z.G. Liu, C.Y. Xia and X.H. Liu	1747
<b>Technique to Set Baselines for Slipform Paving of Cement Concrete Pavement</b>	
Y. Liu and P. Peng	1751
<b>The Investigation and Analysis of City Road Asphalt Pavement Damage in Hohhot</b>	
D.L. Man and Y.P. Yang	1756
<b>Different CA Compaction Property of the Asphalt Mixture on the Bailey Method</b>	
Y. Zhang and B.W. Sun	1761
<b>Analysis of Mechanical Response for Subgrade of Tramcar with Monolithic Track-Bed</b>	
C.W. Huang, S. Wang, X.Z. Shao, X.Z. Du and E.H. Su	1765
<b>Experimental Research on Cement Treated Permeable Base of Expressway</b>	
Y.D. Hu and M.D. Xiong	1772
<b>The Soil Base Bearing Capacity Relevance Research in the Highway Overhaul Decision-Making</b>	
J. Sun, Q. Sun and M.H. Wang	1778
<b>Research of Fatigue Behavior of Asphalt Pavement Materials with WMA and RAP</b>	
B.Y. Yu, Y. Wang and Z.H. Zhao	1783
<b>The Influence of Pavement Construction on Embankment Settlement in Highway Extension Project</b>	
X.L. Wei, Y.M. Wang, Z.M. Zeng and L. Zhang	1787
<b>Design Method of Asphalt Treated Base Asphalt Content Based on Cohesive Strength</b>	
Y. Zhang, C.W. Huang, W.J. Liu and Y.F. Xu	1794
<b>The Application of High Modulus Mixture of EME2 on Qin Lin Expressway Test Road</b>	
X.Y. Wang, H.S. Zhao and L. Wang	1800

<b>Study on Influences of Warm-Mix Agent on SBS Modified Asphalt Mixture</b> X.Y. Song, Y.Y. Li and Q.H. Ji	1805
<b>Multi-Stage Linear Prediction Model for Railway Track Irregularity</b> R. Guo and B.M. Han	1811
<b>Micro-Mechanism Study and Road Engineering Application of Asphalt Rubber</b> T.G. Li, J.Z. Li and W. Li	1817
<b>Methods for Reducing Energy Consumption and Carbon Emission in Asphalt Pavement Construction</b> Z.Y. Ding and Y.X. Yang	1825
<b>The Study on Flame Retardant Asphalt and Asphalt Mixture</b> P. Tao	1829
<b>Research on Stress Distribution of CFG Pile-Net Composite Foundation in High-Speed Railway</b> J. Cheng and J.W. Zhang	1833
<b>Analysis of Increase Reason on AC-13 Asphalt Mixtures Voids</b> L. Ping, J.X. Deng, S.T. Tian and W. Bin	1838
<b>The Combination of Virtual and Reality on Road Design</b> H. Zhang, S.L. Cheng and C. Li	1842
<b>High Temperature Stability of Asphalt Mixture Research</b> H.B. Li and Y.Q. An	1847
<b>Experimente Research of Filler-Bitumen Ratio Impact on Asphalt Mixture Performance</b> L. Cao	1851
<b>Grey Correlation Analysis Method to Analyze the Influence Factors of Attenuated Performance of Asphalt Mixture under Water-Temperature-Radiation Cycle Action</b> Y.C. Cheng, P. Zhang, Y.B. Jiao, J.L. Tao and Y.D. Wang	1857
<b>Performances Comparison of Mine Filler Asphalt Mortar and Diatomite Asphalt Mortar</b> Y.C. Cheng, H.L. Ma, J.P. Huang, P. Zhang and J.L. Tao	1861
<b>Study on the 3G Network-Based Interactive Monitoring System for Highway Engineering</b> Y. Cheng and J.J. Han	1865
<b>Mechanical Response of Asphalt Pavement under Overloading</b> S.J. Liu and Q.L. You	1869

## **Chapter 10: Transportation Planning, Construction and Logistics Engineering**

<b>Lane Change Decision Analysis Based on Drivers' Perception-Judgment and Game Theory</b> J.S. Peng, Y.S. Guo and Y.M. Shao	1875
<b>The Training System Based the Virtual Traffic Scene on Pedestrians' Safety</b> Y. Sheng, X.J. He, X.H. Nie, W.T. Xiao, R.J. Ran and Q.L. Huang	1880
<b>Traffic States under Influence of Different Vehicle Types on Freeway with Two Unidirectional Lanes</b> Q. Fu and X.F. Yang	1885
<b>Urban Rail Transit Network Evaluation Based on TOPSIS</b> T. Niyaz, O. Ruzi and F. Chen	1891
<b>The Research of Freeway Single Horn-B-Type Interchange <i>Situ</i> Reconstruction and Expansion Traffic Organization</b> K. Hu, S.Y. Zhu and H. Wang	1895
<b>A Two-Phase Meta Heuristic Approach to the Location-Routing Problem for Transportation Network Planning</b> J.U. Sun	1900
<b>Gender Differences in Travel Mode Choice Behavior in Zhenfeng City</b> X. Liu and J. Lu	1906
<b>Research on Bus Crew Rostering Problem Based on Minimum Cost</b> N. Hao, R. Song, L. Zheng and Y. Zhang	1910
<b>Application of BP Neural Network Based on Matlab in Comprehensive Evaluation for Highway Network Planning</b> L. Wang	1915

<b>Comparative Simulation Analysis of Urban Arterial and Auxiliary Roads Connection Type</b> Q.N. Jiao, J.J. Wang and Y.H. Han	1919
<b>Research on Safety Risk Assessment of Large-Scale Railway Passenger Station</b> Y.J. Lan, B.M. Han and D.W. Li	1923
<b>Analysis of Passenger Queuing Behavior on Urban Rail Transit Platform during Rush Hour</b> Y. Zhang, R. Song and N. Hao	1927
<b>Study on Connection of Rail Transit and Bicycle Traffic - A Case Study of Xi'an Metro Line2</b> W. Chen and K.M. Chen	1933
<b>The Evaluation of the Traffic Impact of Highways' Reconstruction and Extension on Area Highway Network</b> C.J. Li, J.J. Wang and M.M. Wang	1937
<b>Rail Network Planning Study in Shandong Province Based on Integrated Transportation System</b> Y.X. Xie, R.H. Zhang and J.P. Wang	1941
<b>Study on Traffic Impact Assessment of Urban Road Construction Projects</b> M.M. Wang, J.J. Wang and H.Y. Liang	1946
<b>Study on the Adaptability of the Level of Urban Transportation Infrastructure and Economic Development</b> J. Ma and Y. Zhao	1950
<b>Urban Rail Transit Financial Subsidy Decision Based on Information Fusion</b> H.Y. Liang and J.J. Wang	1954
<b>Relationship between Pain Perception and Deterioration of Traffic Service Level under Traffic Construction</b> Y. Chen, S.Y. Zhu, Z.P. Zhang, J.D. Wu and D. Yi	1958
<b>Scenario-Based Integrated Assignment Model for Bi-Class User Rail Transit Networks</b> W. Zhu	1963
<b>Evaluation on Urban Low-Carbon and Ecological Transportation System</b> J.M. Jia and R.H. Zhang	1967
<b>Study on the Innovation Strategy of China's Logistics Industry</b> Y.W. Zhou	1973
<b>Bulk Shipping Organization Method Choice on Yangtze River Based on Logit Model</b> J.C. Ke and L. Gan	1977
<b>The Market Analysis of Railway Car Liner Trains Based on BP-NN Model and SWOT Method</b> Y.Y. Zhang, M.X. Lang and D.Z. Wang	1982
<b>Research on Development of Wuhu Regional Logistics</b> X.J. Li	1988
<b>A New Kind of Channel-"Tidal Reversible Channel": Primary Design and Feasibility Analysis</b> T.T. Chen, C.J. Shi, Q. Lei and J.B. Chen	1992
<b>Comprehensive Evaluation for Urban Public Transport Network Based on TOPSIS</b> F.A. Chen and Z.H. Wu	1998
<b>Research on Baggage Car Special Train Operating Plan</b> X.J. Liu and M.X. Lang	2002
<b>Evaluation of Traffic Organization Scheme during Highway Reconstruction Period</b> H.Z. Zhu, S.Y. Zhu, Y. Wu and S. Deng	2007
<b>Study on Multi-Objective Optimization Model for VMS Layout on Expressways</b> J.J. Wang and Q. Wu	2012
<b>Calculation of the Carrying Capacity of Nanping Station Based on Non-Markov Model</b> Y.Y. Zhang, M.X. Lang and D.Z. Wang	2016
<b>Comprehensive Evaluation on Sustainable Development of the Trunk Road Network Based on Fuzzy AHP</b> S.L. Zhang, R.G. Ma, X.H. Mo and L.L. Fang	2020
<b>Research on Prediction Analysis Method about the Taxi Demand of Tourist City with Seasonal Fluctuation</b> Y.L. Jiao and M. Ge	2025

<b>Topology Characteristic of Hub-and-Spoke Transportation Network</b> Y.J. Deng and S.R. Hu	2030
<b>Taxi Driver's Route Choice Behavior Analysis Based on Floating Car Data</b> E.J. Yao, L. Pan, Y. Yang and Y.S. Zhang	2036
<b>Study on the Development Mode of Integrated Passenger Transport in City</b> C.B. Li, W.D. Chen and H.F. Jia	2040
<b>Study on Travel Optimization Scheme between Inter-Cities Based on Comprehensive Consideration</b> X.F. Fu, P.H. Sun and H.L. Wang	2045
<b>Options to Mitigate Congestion on Roads</b> M. Řezáč, D. Cihlářová, T. Seidler and P. Šimoník	2049
<b>Study on Model of Inventory and Distribution Joint Optimization Based on the VMI</b> J.J. Pang and X.F. Wang	2053
<b>Simulation Analyzed of Vehicle Operating Safety in Rain Weather Condition Based on ADAMS</b> H.L. Si	2057
<b>Analysis of the Post Transportation Problem Paradox Based on Adjustment Route</b> X. Tian, J.L. Yang and L.P. Zhang	2061
<b>Solving Balanced Bus Crew Rostering Problem with Genetic Algorithm</b> J.H. Ma, T. Liu and W. Guan	2070
<b>Development of a Model for Urban Rail Transit Construction Schedule</b> Y.Y. Guo, Y. Wu, Y. Yu and X. Xu	2075
<b>Improved Heuristic Search Algorithm for Capacitated Vehicle Routing Problem</b> C.Y. Ren	2079
<b>Investigation and Study of the Law of Passenger Distribution in One Carriage of Subway in Beijing</b> Q.B. Wu, F. Chen, J.P. Fang, O.Y. Liu, C. Liu and Q.S. Zhai	2083
<b>Microscopic Driving Parameters-Based Energy Consumption Rate Comparison between Electric Vehicle and Gasoline Vehicle</b> E.J. Yao, Z.F. Lang, Y.Y. Song and Y. Yang	2088
<b>Operating Speed Based Criteria for Design Consistency Evaluation on Motorways in China</b> H. Chai, J. Xie and X.L. Zhao	2092
<b>A Study on Travel Demand for High-Speed Train Based on Nested Logit Model</b> E.J. Yao, Q.R. Yang, Y.S. Zhang and H.N. Dai	2096
<b>Estimation of Electric Vehicle's Cruising Range Based on Real-Time Links Average Speed</b> E.J. Yao, Z.Q. Yang, H.N. Dai and T. Zuo	2100
<b>Estimating the Cruising Range of Electric Vehicle Based on Instantaneous Speed and Acceleration</b> E.J. Yao, M.Y. Wang, Y.Y. Song and T. Zuo	2104
<b>The Application Research Based on the Idea of Revenue Management in the Market of High-Speed Railway</b> P. Zhou and J.F. Jia	2109
<b>Research of the Temporary Parking Acceleration-Spacing Model Based on Swarm Theory</b> J.X. Cao, L. Wang, W.L. Zhang and J. Wu	2113
<b>Research of Vehicles Collecting and Distributing Model Considering the Interference of Side Vehicle</b> L. Wang, J.X. Cao, W.L. Zhang and J. Wu	2117
<b>Transit Travel Demand Analysis Method Based on APTS Multi-Source Data</b> J. Chen, X.H. Li and L. Ma	2122
<b>Research on the Auxiliary Emergency Decision-Making System of Urban Mass Transit on the Basis of Case-Based Reasoning</b> H.F. Yu, Y. Qin, Z.Y. Wang, Z.X. Zhao and J. Li	2127
<b>Reliability Evaluation Model of Highway Network Connectivity in Western Mountainous Area</b> X.G. Wang, X.N. Sun and M.W. Wang	2134
<b>Fuzzy Comprehensive Evaluation of Safety System Risk of Airlines</b> X.Z. Wen	2140

<b>Choice Model for Leisure Vehicle Considering Park &amp; Ride on Subway: A Case of Xianlin University City in Nanjing</b> J. Zhang	2146
<b>Crossing Roads Safely: Influence of Various Vehicle Types in Gap Selection by Pedestrians</b> Y. Wu, S.Y. Zhu, H. Wang, F. Yao and H.Z. Zhu	2152
<b>The Safety Assessment of Unpowered Mooring Vessel Based on Unascertained Measure</b> G.B. Zhu, X.F. Wen and H. Liu	2156

## **Chapter 11: Traffic Control and Information Technology**

<b>The Green Bus Overload Prevention Device Based on the Resistance Strain Sensor</b> Y.Q. Ma and W.G. Zheng	2165
<b>Analysis of Parking in Urban Center Area</b> T.J. Feng, C.Y. Liang and L.X. Wu	2169
<b>Stochastic Choice Behavior on Road Traffic Networks under Information Provision</b> J. Wang, M. Liu, H.M. Zhou and Y.E. Ge	2173
<b>Research of Traffic Flow Guidance System Coordinated with Traffic Control Based on the Key Point of Network</b> X.H. Ma, B.T. Dong and Z.J. Wang	2185
<b>Research of Multi-Objectives Priority Selection System of Traffic Information Release Mode</b> M.S. Wu, C.J. Li and L.H. Li	2191
<b>Improved Floyd Route Mending Algorithm Based on Dynamic Travel Time Applied to the Estimation of Floating Car Origin-Destination Data</b> H. Zhao	2196
<b>The Analysis of Transfer Information Demands of Public Transports</b> K.M. Chen and W. Chen	2201
<b>Research on Evaluation Method for the Service Quality of Public Transport Based on Time Reliability Degree</b> C.Y. Liang and L.L. Li	2205
<b>Research on Public Bicycle Traffic Mode Choice Based on Disaggregate Model</b> T.J. Feng, C. Huang and Z.B. Xie	2210
<b>Freeway Ramp Controllers Optimized by Ant Colony Algorithm</b> Y.F. Lan, X.R. Liang and C.J. Dong	2214
<b>Application of PLC in the Expressway Intelligent Traffic Control System</b> X.H. Wei, X.X. Duan and X.K. Wang	2219
<b>An Experimental Analysis of Drivers Attitudes towards In-Vehicle Warning System at Stop Sign Controlled Intersection</b> M. Yang and H. Yamanaka	2224
<b>Vehicle Detection and Counting in Traffic Video Based on OpenCV</b> W.J. Wang and M. Gao	2232
<b>Creation and Application of Highway Network Spatial Database</b> B. He	2236
<b>A Study on Linear Coordinated Control of Intersection Signal in Youyi Street of Baotou City</b> X.J. Zhang and J.F. Yu	2240
<b>Applying Fuzzy Set Theory to Analysis Driving Maneuver</b> Y. Zhou and L. Tian	2244
<b>Genetic Algorithm Optimization in Vehicle Routing Problem</b> L.Z. Zhang, S.Y. Chen and Y.Y. Cui	2249
<b>The Effects of Rainfalls on Expressway Travel Time</b> L.J. Shi, T. Jing, X.H. Chen and D.X. Ou	2255
<b>Based on the Research of Simulation System of City Traffic Model</b> P.L. He, X.X. Dai and X.W. Han	2262
<b>Research on Planning and Performance Appraisal of Mass Rail Transportation in Metropolitan Area Guided by Urban-Rural Integration - Taking Xi'an as an Example</b> H.J. Sun, P. Zhang and L. An	2266

<b>Study on Control Design of Interchange Entrance Congestion Zone</b> X.G. Wang and X.N. Sun	2270
<b>Design of the Airport Perimeter Security System Based on Internet of Things</b> X.M. Cao, C.M. Jing and X.D. Zheng	2276
<b>Research on Cause Analysis and Safety Management for Road Transportation Accidents of Dangerous Chemicals</b> Q.M. Bu, Z.J. Wang and X. Tong	2282
<b>The Investigation of Ground Traffic Vibration Source Characteristics of Beijing Zhengyang Men Area Based on Traffic Investigation</b> Q. Song, J.Q. Guo and W.H. Chen	2287
<b>Application of VISSIM in Public Transit Facilities Analysis and Evaluation</b> H.Z. Cai, S.F. Ma and L. Wei	2293
<b>Slope Effect in Traffic Flow with a Speed Difference</b> R.L. Yu and C.H. Zhang	2297
<b>Additional Energy Dissipation of Vehicles on a Gradient Road</b> R.L. Yu	2304
<b>Time Distribution and Analysis of Traffic Accident Fatalities</b> L.W. Qu, M.W. Dai, F.J. Wang and Z.Y. Zeng	2308
<b>Research on Application of Traffic Signs in Rural Highway Security Engineering</b> S.L. Liu, Z.D. Guo and M. Dong	2315
<b>Study on the Choice Model of Passenger Travel in Inter-City Transportation Corridor</b> A.Y. Wang, S.L. Zhang and X.C. Bo	2321
<b>The Research for the Aging Performance of Reflective Sheeting by Artificial Accelerated Method</b> X.F. Ma, W.Y. Su, D. Li and W. Wang	2326
<b>Intersection and Passageway Designs of Urban Agglomeration Connection Road</b> Y.M. Zhou, J.L. Xu, H.Z. Yang, Y.J. Han and F. Li	2330
<b>Operative Methods for Traffic Organization during Multiple Projects</b> F. Yao, S.Y. Zhu, Q.Y. Liu, Y. Wu and J.D. Wu	2339
<b>Study on Satisfaction Evaluation of Urban Road Traffic Conditions</b> J.F. Yu, L.D. Wang, N.N. Wang and X.J. Zhang	2344
<b>Exploration on Speed-Limit Signs of Traffic Accident Section on Freeways</b> Q. Wu and J.J. Wang	2349
<b>Traffic Safety Improvement Design of Signalized Intersection</b> C.F. Shao and L.L. Zhu	2353
