

Table of Contents

Preface

Chapter 1: Functional Materials for Optoelectronics and Sensing

Synthesis of Lanthanum Vanadate Nanopowders at Low Temperature Using the Ultrasonic Method H.L. Chen and X.P. Wang	3
Characterization of Vanadium Zinc Carbide Saturable Absorber for Ultrafast Laser Applications K.M. Musthafa, A. Hamzah, O. Wei Ling, A.H.A. Rosol and N.N.H. Saris	9
Tunable Plasmonic Enhancement of Silver Nanoparticles on Flexible Teflon for Effective SERS-Assisted Environmental Monitoring K. Daoudi, S. Columbus, K. Ramachandran, M.A. El Khakani and M. Gaidi	15
Cold Atmospheric-Pressure Plasma-Assisted Aerosol Synthesized $WO_xC_yN_zCl_{22}$ Films for Energy Saving Dual-Band Electrochromic Devices Y.S. Lin and G.M. Zhang	21
Absorption of Low Loss Polymer Composite Optical Waveguide N.N.H. Saris, T. Ishigure, T. Fukui, A. Hamzah, T. Horie and Y. Yoshida	27
The Study of the Effect of Multilayer MXene Incorporation on the Properties of Polyacrylate Composites Fabricated by Stereolithography K. Anurakparadorn and K. Sukpimai	33

Chapter 2: Development and Applications of Biomedical Materials

Precipitation Hardening of the Additive-Manufactured 17-4 PH Stainless Steel for Medical Applications C. Wittayawongsaruj, P. Vissanuyothin, A. Jintawattanagul, W. Methabut, S. Jintawattanagul, C. Thumthae and S. Boonmee	41
Effects of Magnesium Ions in Hydroxyapatite Extracted from Bovine Bone for Biomedical Applications S. Adzila, N.H. Jamadon and N. Kanasan	47
Development of Aloe Vera and Calendula Extract Loaded Hydrogel Microneedle for Wound Dressing S. Thamronganansakul, P. Keawkongnok and D. Tanangteerapong	53
Potential of Vanillin-Enhanced Adhesive to Reduce Cariogenic Biofilm S. Thaweboon, T. Saito, A. Klaophimai and B. Thaweboon	61
Structural Changes of a Type of Polydiacetylene Single Crystal Obtained via Physical Vapor Transport Technique Induced by UV Irradiation S. Jo and H. Yoshikawa	67

Chapter 3: Mechanical Behaviour Analysis of Composite Materials

An Adaptive RVE Generation Algorithm for CFRP Composites Considering Pore Morphology and Spatial Statistics L. Yan, M.Z. Li and Q. Wang	75
A Preliminary Study on Designing a Composite Materials Hardness Testing Range Expander S.H. Weng, S.C. Weng, C.C. Chang and P.T. Weng	85
Relevance of an Equivalent Circuit Model for the Discharge Phenomenon of Fibers Containing Fine Particles T. Nakamura, T. Hayashi, M.R. Harada and H.T. Uchida	95
Dynamic Contact Area Analysis of Composite Material Tractor Tires on Rigid Surfaces Using a Validated Finite Element Model S. Phakdee, C. Suvanjumrat and R. Rugsaj	103

Investigation of Shear Band Effects on Energy Dissipation in Agricultural Non-Pneumatic Tires	
J. Phromjan, P. Jongpradist, S. Phakdee and P. Kamma	111
Finite Element Analysis of Ply Orientation Effects in Carbon Fiber/Epoxy Composite External Fixators	
K. Saensuriwong, K. Khodcharad, A. Pechbooranin, A. Ariyarit, A. Boksawat and T. Phiboon	119
Assessing the Residual Strain Development in Thick FRP Composite Laminates Using Embedded Temperature and FBG Strain Sensors	
S. Mohanta and S. Neogi	127

Chapter 4: Bio-Based Materials

Study on the Properties of Water Bamboo Shoot Shell as Bio-Based Flame Retardant and its Epoxy Composite Application	
C.L. Chiang and W.R. Zheng	135
Thermal and Rheological Properties of Hemp Fiber/Polybutylene Succinate (PBS) Composites	
L. Techawinyutham and S. Mo-on	141
Additive Manufacturing of HDPE Composites Reinforced with Alkali-Treated Saccharum Munja Fibers: Processing, Characterization, and Properties	
N.K. Arya and A. Singh	149
Hemp Fiber Derived Cellulose Separator Modified with Sodium Alginate for Stabilizing Zinc Anode	
S. Natheetumrong, D. Aht-Ong and P. Pattananuwat	157
Hybrid Reinforcement Effects of Water Hyacinth Fibers and Powder on the Mechanical Properties of Epoxy-Based Composites	
K. Pansod, N. Sumrith and J. Wongsu	163
High-Speed Impact and Fracture Performance of Sustainable Banana Fibre-Graphite Epoxy Composites for Protective Structural Applications	
A.R. Othman, A.H. Hilmi, A.R. Abdul Hamid and S.A. Azman	169
Processing and Drying Characteristics of Duckweed as a Candidate Bio-Based Material for Composites	
W. Eawboonyanurak, W. Kunthawongse, P. Sutakhote and J. Priyadumkol	175
Sustainable Epoxy Composites Reinforced with Water Hyacinth Powder: Effects on Mechanical Properties	
N. Sumrith and C. Ngaowthong	181
Preparation of Sugarcane Bagasse-Derived Cellulose Nanofibers via Deep Eutectic Solvent and Chemical Oxidation	
Y.F. Shih, T.Y. Pan, T.Y. Lu, T.H. Huang, C.W. Chang and Y.H. Chung	189
Effect of Welding Energy on Three Different Interlayers on the Strength of Ultrasonic Welded Bamboo Strips	
P. Sawangbunditkun, I. Preechawuttipong and R. Peyroux	197
LCA Comparison of Traditional and Bio-Based Epoxy Resin for Aerospace Composite Materials	
A. Bologna, R. Dinu, A. Mija and A.M. Grande	203

Chapter 5: Physical Metallurgy

Vacancy Formation and Trapping by Carbon in Ferritic Iron: A FirstPrinciples Study	
O. Kulitckaya and V. Kulitckii	213
Influence of Nickel on Microstructure and Property in Die-Cast Ductile Iron	
N. Wanmai, A. Wanalerkngam, K. Sriboonrueang, W. Boonyarit, K. Amatachaya, S. Mangmee, K. Worakhut and S. Boonmee	221
Vacancy Formation and Diffusion in FeCr Alloys	
O. Kulitckaya and V. Kulitckii	227
Conjugate Heat Transfer Analysis of Teflon-Coated Steel Surfaces Exposed to Premixed Flame Jets	
P. Kamma, K. Loksupapaiboon and J. Phromjan	233

Comparative Study of Rhodium Recovery from Plating Solutions via Cementation, Chemical Precipitation and Electrowinning T. Patcharawit, C. Kansomket, N. Mahiwan, S. Chailoi, T. Chandakhiaw and L. Sriklang	239
--	-----

Chapter 6: Materials for Sustainable Infrastructure

Study on the Setting Characteristics, Mechanical Properties, and Volumetric Stability of Alkali-Activated Metakaolin-Based Composite Materials A. Cheng, P.C. Cheng, Q.Z. Huang, Y.H. Cheng, K.E. Lan and H.M. Hsu	251
A Damage Mechanics–Based Analysis of CNT-Modified Self-Sensing Cementitious Composites S. Oh, H. Kwon and S. Hong	257
Feasibility of AMPS Hydrogel for Surface Cleaning in Art Conservation P. Chuangjaroen and S. Girdthep	263

Chapter 7: Food Chemistry

Polyvinyl Alcohol/ Cinnamon Essential Oils-Loaded Porous Rice Starch Composite Film for Active Food Packaging with Slow Release E.P. Maharani, P. Triwitono, Y. Pranoto and D.W. Marseno	271
Encapsulation of Cold-Pressed Avocado Oil Using Beta-Cyclodextrin: Study of Physical and Chemical Properties V. Simmasood, R. Assawarachan and T. Chimsook	279

Chapter 8: Environmental Remediation

Asymmetric Titanium Dioxide-Polylactic Acid Membranes for Microfiltration and Photocatalytic Dye Removal K.Y. Chow, A.M. Nasib, E.A.R. Siti Kartini, M.S.M. Rasidi, M.F. Abu Hashim and P.Y. Hoo	289
Production and Application of Microalgae Residue-Based Biochar for Soil Amendment F.A. Abdullah, U.F. Md Ali, N.A. Ahmad, M.I.H.M. Dzahir and N.H. Azmi	295

Chapter 9: Thermal Engineering, Energy Conversion and Storage

The Application of Magnesium Nitrate Hexahydrate/Carrot Nanocellulose/ Graphene-Based Phase Change Aerogel in Solar Thermal Energy Storage Y.F. Shih, W.Y. Lin, T.M. Wu and T.H. Hsu	303
Material and Geometric Design of Helical and Finned Tube Heat Exchangers for Ice Thermal Energy Storage in Infrastructure Cooling S. Laohachote and J. Priyadumkol	311
Thermal Mechanical Performance Mapping of Insulation Material under Extreme Desert Conditions: A Modeling-Based Comparative Study A.A. Al Anazi	317
Investigation of Membrane Thickness Effects on PEM Fuel Cell Performance Using OpenFOAM C. Seanglumert, A. Boekfah, M. Promtong, Y. Kanokmedhakul, W. Punurai and C. Suvanjumrat	325
Effects of Electrolyte Salt on the 15°C Performance of a SiO_x–C Negative Electrode for Lithium-Ion Batteries Y. Cho and S.K. Jeong	333
