

Table of Contents

Preface

Chapter 1: Functional Materials

Preparation and Luminescence of Novel O-Phenanthroline-Acyl Amino Acid Rare Earth Praseodymium Complexes Z.H. Qiu, G. Naren, R. Meng, R. Liang and Z.Y. Chen	3
Design, Fabrication, and Characterization of Silicon Mach–Zehnder Interferometers with Varying Path Lengths S.A. Nomoev	13
Liquid Phase Exfoliation of MoS₂ Nanosheets in Aqueous IPA O. Erdenetuya, B. Odontuya, Y. Ganchimeg, D. Otgonbayar, G. Batdemberel, E.O. Gurbadam, S. Jargalan and G. Munkhsaikhan	21
Surface Properties of the Mechanical Exfoliated MoS₂ few Layers B. Odontuya, D. Otgonbayar, O. Erdenetuya, G. Batdemberel, E.O. Gurbadam, S. Jargalan and G. Munkhsaikhan	29
Synthesis and Characterization of Carbon Aerogel by Freeze-Drying Method J.Y. Li, T.N. Bao, Y.Y. Li, A. Bolag, X. Tian and T. Ojiyed	37
Characterization of Low- and High-Calcium Pond Ashes and their Applicability for the Preparation of Alkali-Activated Pastes J. Temuujin and U. Bayarzul	47

Chapter 2: Computational Investigations

The Time-Dependent Hartree-Fock Formalism of the Double Excited States of the Helium Atom D. Naranchimeg, S. Ochir and G. Munkhsaikhan	57
Direct Determination of the Photoelectron Momentum Distribution from the Wave Function I. Adiyadoljin, Z. Gombosuren, K. Lochin, A. Ochirbat and A. Chuluunbaatar	65
Direct Determination of the Fully Differential Cross Section by the Time-Dependent Wave Function Z. Gombosuren, K. Lochin, A. Chuluunbaatar and A. Ochirbat	73
First-Principles Study of Structural, Electronic and Optical Properties of Trans-4-(Trifluoromethyl) Cinnamic Acid N. Naranbilegt, U. Nergui, B. Khongorzul, J. Davaasambuu and N. Tsogbadrakh	81
Modeling of Sound Propagation in Liquid Medium Depending on the Size of Air Bubbles B.B. Damdinov, A.I. Lyamkin and V.A. Prigozhikh	93

Chapter 3: Advanced Methods of Materials Investigation and Detection

Study of Metal-Fullerene Films by Spectral Methods E.M. Shpilevsky, O.G. Penyazkov, S.A. Filatov, G. Shilagardi, D. Ulam-Orgikh and S. Munkhtsetseg	103
Ab-Initio and Experimental Investigations of the Structural, Electronic, and Optical Properties of Neodymium-Doped Lithium Yttrium Fluoride (Nd:LiYF₄) L. Deng, N. Tuvjargal, N. Tsogbadrakh, J. Davaasambuu and K. Tsookhuu	111
Detection of Hepatitis D Virus in Human Blood Serum Using Surface Plasmon Resonance in Gold Film B. Ganbold, G. Ragchaa, B. Jamsran, N. Baasankhuu, C. Batsukh, T. Enkhbat, O. Oidovsambuu and J. Davaasambuu	125

Chapter 4: Design and Research of Machines and Technologies

Research on the Process of Peeling Buckwheat Grain on Roller Equipment with New Design Decks

A. Oidov and D. Maashaa

133

Determining the Heat Content of Mongolian Rock Minerals: A Study of the Potential Use in Heat Storage Technology

C. Mangaljalav, C. Orshuu and A. Chuluunbaatar

143
