Preface

Chapter 1: Adsorptive and Photocatalytic Materials for Environmental Remediation

Enhanced Photocatalytic Degradation of Methyl Orange under UV Irradiation Using Noble Metal-Loaded WO₃/WS₂ A.I.M. A'srai, M.H. Razali and N.A.A.C.M. Khairuddin	3
Correlation Analysis of Key Operational Parameters Affecting the Adsorption Performance of Bio-Based and Chitosan-Based Adsorbents for Copper Ion Adsorption P. Charnkeithkong and R. Phoophuangpairoj	11
Parametric Studies, Kinetic and Isotherm Modeling of Methyl Orange Adsorption by Chitosan - MIL-101 (Fe) - Polyethyleneimine Beads N. Saporantos, I.J.C. Dela Cruz and J.V.D. Perez	19
Mechanism of Carbon Dioxide Adsorption on Gallate-Based Metal-Organic Frameworks M. Ismail, M.A. Bustam, Y.F. Yeong and N. Jusoh	27
Synthesis and Characterization of Gum Arabic-Stabilized Gold Nanoparticles for Heavy Metal Remediation T. Al Shuaili, F. Al Hatmi, Y. Ajaj and A. Al Abri	35
Heterojunction Engineered FeWO₄/g-C₃N₄ Nanocomposite Photocatalyst for Methyl Orange Degradation A.I.M. A'srai, N.A.A. C.M. Khairuddin, N.A. Roslan and M.H. Razali	43

Chapter 3: Properties and Adaptation of Structural Alloys to Extreme Environments

Microstructural and Electrochemical Properties of CoNiV/Nb/Cr Medium Entropy Alloys N. Malatji, L.R. Kanyane, P. Mpofo and M.B. Shongwe	53
Effects of Re and Mo Additions on the Nanomechanical Properties of NiTi-Based Alloy B.I. Setlhabi, U.O. Uyor, A.P. Popoola, O.M. Popoola and C.O. Ujah	61
Influence of the Preheat Temperature and Withdrawal Rate on the Microstructure of Ceramic-Cored Ds MAR-M247 Nickel-Based Superalloy R. Cygan, K. Wysocki and Ł. Rakoczy	69
Heat-Treatment Induced Phase Stability and High-Temperature Corrosion Behavior of AlCrFeCuNi-Nb_x High Entropy Alloy L.R. Kanyane, N. Malatji, M. Tlou and M.B. Shongwe	75

Chapter 4: Metal Additive Manufacturing

Axial Fatigue of PBF-LB Ti6Al4V: Process and Surface Effects T. Rautio, M. Hietala, M. Jaskari, A. Mustakangas and A. Järvenpää	85
Fatigue Resistance of PBF-Lb IN625-RAM2 Alloy A. Järvenpää, I. Poutiainen, M. Jaskari, A. Mustakangas, T. Rautio and A.S. Hamada	93
Sustainable Roller Burnishing: Effects on Surface Roughness and Power Consumption in Additively Manufactured AlSi10Mg Alloy Ö.F. Sağdıç, M. Yücel, A. Aydın, N. Alkan, Y.F. Yapan and A. Uysal	101
Characterization of the Interface between WAAM-Deposited Carbon Steel and S355 Structural Steel Plate M. Hietala, T. Rautio, M. Jaskari, M. Keskitalo, J. Pääkkilä and A. Järvenpää	109

Chapter 5: Materials for Sensing, Energy Storage and Conversion

AuNPs-Decorated Tungsten Disulfide Nanostructured Hybrid System as SERS for Biomolecule Sensing S. Ghopry	119
Potential Resolved <i>In Situ</i> Atomic Force Microscopy of Surface Film Formation on Graphite in Ethylene Carbonate with Lithium Perchlorate S.K. Jeong	125
Direct Regeneration of LFP Cathode Material from Spent Li-Ion Batteries via Aqueous Relithiation C. Flores, D. Mohanty, I.M. Hung and R.B. Cervera	133
Monolith Multilayer Catalytic Membrane for Direct Conversion of CO₂- Rich Natural Gas into Syngas and Energy N. Jusoh, A.H. Md Nor, A.S. Abd Rahman and Y.F. Yeong	141

Chapter 6: Polymers and Composites

Characterization and Optimization of Lygodium Circinnatum (Nito) Fiber Properties through Alkali Treatment and Factorial Design J.R.V. Maghinang and J.C. Millare	149
Comparative Analysis of the Effective Nonlinear Elastic Modulus of Three Glassy Polymers I.V. Semenova, A.V. Belashov, A.A. Zhikhoreva and Y.M. Beltukov	163

Chapter 7: Materials for Pharmaceutical Application

Tailoring Mechanical Properties of Natural Mucilage Films via Plasticizer Incorporation: Toward Sustainable Material Innovation P. Maneewattanapinyo, C. Monton, W. Pichayakorn and J. Suksaeree	171
Modifying Antisolvent Addition Technique for Ionic Co-Crystallization of Paracetamol (PCM) and Metal Sulfates D.V.Z.G. Manansala, J.V.D. Perez and I.J.C. Dela Cruz	179

Chapter 8: Advanced Building Materials and Engineered Structures

Synthesis of Additive Modifiers to Enhance the Performance Properties of Asphalt Concrete A. Meymaryan and N. Chilingaryan	187
A Proposed Design of Disaster-Resilient Housing by Adopting Botong Bamboo (<i>Dendrocalamus latiflorus</i>) in Davao Oriental J.G. Recorte, R.M.D. Jusain, J.D.P. Bisnar, M.M.C. Rodriguez and K.D. Marcos	193
Bending and Buckling Performance Analysis on Structure of a 2D Honeycomb Lattice Pocket Beam M.U. Uysal	201

Chapter 9: Thermal Engineering

A Study on the Effect of Wire-Net Stainless Steel Porosity on Heat Transfer Enhancement in a Solar Air Heater S. Sinsang, P. Vengsungnle and R. Luampon	211
Simulation and Optimization of Heating Networks D. Bossinov and G. Ramazanova	219
