Preface

Chapter 1: Materials for Membrane Production

Characteristics of Polyethersulfone Membranes Modified by Silika and Nanocellulose Extracted from Biomass as Additives F. Bashair, M.R. Rida, N.F. Idrus and S. Aprilia	3
Effect of Adding Mg(OH)₂ Additives to Polyethersulfone (PES) Hydrophobic Membranes A. Abubakar, U. Fathanah, M.R. Lubis, S. Muchtar, T.P. Rahmania and I. Syarwani	11
Characterization and Performance of CA/Chitosan Membrane from Golden Snail Shell in the Application of Humic Acid Purification S. Mulyati, A. Luthfiana, A.C. Ambarita, C.R. Nanda and C.M. Rosnelly	20
Advances on Tungsten Trioxide Based Additive Materials: Strategies to Fabricate Photocatalytic Membranes for Wastewater Treatment K. Mizar, S. Mulyati, S. Aprilia and N. Arahman	28
Effect of Chemical Cleaning of Hypochlorite Solution on the Properties of Polyethersulfone Blend Membrane N. Arahman, C.M. Rosnelly, Y. Yusni, R.D. Haikal, M.P. Aulia, A.C. Ambarita and H. Matsuyama	39
Improvement of the Polyvinylidene Fluoride Membrane by Incorporating of Cellulose Nanocrystals as Modifying Agent S. Sofyana, N. Arahman, M.D. Supardan, A. Muslim, F. Maharani and R. Putri	46
Applying Box-Behnken Experimental Design for Optimization of Polyurethane Membrane Synthesis from Castor Oil (<i>Ricinus communis</i> L.) Based on Physical Performance F. Hanum, E. Safitri, R. Idroes and N. Idris	54

Chapter 2: Adsorbents

Characterization of Bio-Sorbent from the Pyrolysis of Patchouli Dregs to Remove Methylene Blue Dyes Z. Fazira, M. Hasyim, E. Putra, W. Pratama, S. Suraiya, S. Muchtar, A. Gani and F. Mulana	65
Advancing Environmental Protection: Monolithic Bentonite and Zeolite-Clay Adsorbents for Fe²⁺ Ion Removal D. Darmadi, M. Zaki, A. Adisalamun and A. Chairunnisak	77
Characteristics Serpentine Aceh: Morphology and Chemical Compositions Studied by SEM-EDS and XRF A.A. Reza, M. Mahidin, Y. Yunardi, A. Gani and S. Wardani	87
Determination of the Optimum Composition of Chitosan-Grafted Cellulose/TiO₂ Films Using the Box Behnken Design Method H. Fathana, S. Lubis, M. Adlim and R. Rahmi	94

Chapter 3: Catalysts

Green Synthesis of TiO₂ and its Modification with Activated Carbon from Nutmeg Shell for Photodegradation of Chlorpyrifos Pesticide M. Ramadhani, S. Lubis and I. Maulana	105
Synthesis of Activated Carbon/ZnO Nanocomposite Using Melinjo (<i>Gnetum gnemon</i>) Seed Shells for Enhanced Photocatalytic Degradation of Chlorpyrifos Pesticide S. Lubis, I. Mustafa, S. Sheilatina and W. Rahmi	115
Effect of Natural Diatomaceous Earth Catalyst on the Catalytic Conversion of Polypropylene into Fuel M. Zulrika, H. Husin, H. Meilina, M. Ali, F. Nasution, A. Ahmadi, L. Maulinda, N. Nurhazanah and Z. Zikrullah	127

Chapter 4: Waste Treatment and Biomass Processing

Effect of Composition on Physical, Mechanical, and Thermal Properties of Oil Palm Empty Fruit Bunch Epoxy Resin Biocomposite I. Ismail, A. Marni, E. Yufita, A. Rahwanto and S.H.S. Md Fadzullah	139
The Influence of Palm Oil-Based Zinc Stearate Application on Vulcanized Rubber: Analyzing Hardness, Tensile Strength, and Elongation at Break for Hand Grip Formulation Development W.B. Setianto, N. Nasruddin, A. Astuti, H. Yohanes, L. Sumarno, G. Atmaji, S.P. Wijayanti, M. Maisaroh and P. Atmaji	150
Modification of Cellulose Isolated from Coconut Dregs Using Glycidyl Methacrylate (GMA) R. Rahmi, F. Febriani, L. Lelifajri and S. Safitri	157
Isolation and Characterization Lignin of Sugar Palm Fruit Shell by Klason Method R. Yulia, H. Husin, M. Zaki, J. Jakfar, S. Sulastrri and A. Ahmadi	163
Performance Analysis of a Diesel Generator Using Dexlite Mixed Fuel with Bio-Oil Produced from Coffee Grounds Pyrolysis C. Gunawan, T. Bin Nur and B.I. Harahap	172

Chapter 5: Green Building Materials

Effect of Adding Natural Latex Mixed Adhesive on the Shear Strength of Aluminum - Cocofiber Composite Single Lap Join S. Hastuti, N. Mulyaningsih, I. Taufik, X. Salahudin, I.N. Hadi, T. Triyono, F. Paundra and R.A.P. Tarigan	181
Morphology and Acoustical Properties of Sago Pith Waste Reinforced Polyester Composites L. Luthfi	188
The Study of Mechanical Properties and Chemical Groups of Composite Concrete A. Yusra, M. Hasan, H. Husin, T.B. Aulia, B. Baharuddin, S. Ramadhan, F. Fachruddin and S. Sanusi	199
Use of Cement and Aggregates Substitution for Production of Hybrid Cost-Effective and Sustainable High-Strength Concretes T.B. Aulia, M. Zardan, N. Abdullah, A. Yusra, Z. Jalil, E. Handoko and C. Rahmawati	211
The Influence of Service Live Factors on Concrete Mixed with Sea Sand and Seawater with the Addition of Zeolite on the Mechanical Properties of Concrete W. Wahyuni, A. Abdullah, Y. Hayati and S. Mulyati	219
