

Table of Contents

Preface

Chapter 1: Nanomaterials

New Brickwall Structure of Monolayer Diatomic SnC N. Nurhidayah, I. Santoso, D. Purnawati, H.P. Kadarisman and S. Sholihun	3
Substitutional, Interchange and Stone-Wales Defects in Monolayer Hexagonal Boron Nitride: A Density Functional Theory R. Yuliani, H.P. Kadarisman and S. Sholihun	9
Influence of Blue Light Intensity on the Tannic Acid-Assisted Synthesis of Silver Nanowire J. Srisuwan, S. Tanpichai, S. Kwanmuang, J. Petchang and A. Boonmahitthisud	17
Nanomaterial-Polymer Composites for High-Temperature Fluid Loss Reduction in Water-Based Drilling Fluids S.C. Pang and Y.X. An	23
Binder- Free Supercapacitor Electrode Based on Spray Pyrolyzed Tin Dioxide Doped with Samarium (Sm-SnO₂) L.P.M. Buizon, H.T. Gammad, B.A. Basilia and M.C. Marquez	31
Facile Electrochemical Synthesis of Graphene-Encapsulated Fe₃O₄ Nanoparticles for Dual Photocatalytic and Electrooxidation of Mb Dye M.S. Mahmoud, S. Al Isae, M.B. Mihoub, M. Abdelmouleh and I. Jedidi	37

Chapter 2: Ceramics

Effect of Sintering Temperature on Copper Metallization of 3D-Printed Alumina L.I.M. Ballesteros, K.T. Simfroso, R.N.M. Delda, G.A. Catalan, D.D.A. Florante and V.M. Sarmiento	47
High-Hardness Transparent Silicon Nitride Ceramic H.P. Weng, K.H. Chuang, M.H. Chang and K.C. Chiu	55

Chapter 3: Materials for Biomedical Applications

Characterisation of Antibacterial Surface Textures on Titanium Alloys M. Iwasaki, M. Takaki, T. Shikata and K. Masuda	65
A Green Approach to Curcumin Encapsulation Using Chitosan-Carrageenan Nanoparticles C.S. Emolaga, L.C. Milo, M.C.O. Que and B.A. Basilia	77

Chapter 4: Composites

Effect of Borax on Self-Healing Properties of Microcrystalline Cellulose Reinforced Epoxidized Natural Rubber Composites B. Junyam, T. Chantaramanee, S. Tanpichai and A. Boonmahitthisud	87
The Ageing Behavior of Traditional Bamboo Paper: Structure and Properties Z.R. Zhu, K. Zhang, Y. Xue, Z.M. Liu, R.Y. Lin, M.Q. Xu, P. Liu and X.X. Ji	93
Fabrication of a Hybrid Natural Fiber Composite via Nito Fiber and Multi-Walled Carbon Nanotube Reinforcement R.S.B. Sosa, C.S. Emolaga and J.C. Millare	101
Possibility of Using Nanoparticle-Loaded Polyester Fibers as a Triboelectric Generator T. Nakamura, T. Hayashi, M.R. Harada and H.T. Uchida	109
High Performance Recycled Polypropylene Composites Reinforced with Corn Cob Pith Powders S. Maestro, B.A. Basilia and M.C. Marquez	117

Enhancing the Properties of PVA-Based Hydrogel with Cellulose Nanofibers and Tartaric Acid for Safe Paper Conservation W. Leksomboon and K. Pacaphol	129
--	-----

Chapter 5: Applied Materials

Synthesis of a Sustainable Acidified Metallic Halide Solution with Aluminium Oxide for Brass Corrosion Inhibition J.B.A. Luarca and B.A. Basilia	139
Effect of Temperature, pH, and Pb(II) Ions on the Dispersion Behavior of Dilute Colloidal Bentonite Nanoclay J.A.T. Dado, A.R. Caparanga and J.C. Millare	147
A Combined Numerical and Experimental Analysis of Nanofiber Effects on Ion Transport in Nanoporous Composite Membranes V.P. Mai, J.H. Guo and H.S. Su	155
Preparation and Self-Assembly Behavior of Hydrogen Bonded Cyclic Phosphazenes Y.K. Wang, K.X. Feng and Z.P. Wu	165
Effect of Varying Fiber, Fly Ash, and Recycled Gypsum Contents on the Mechanical Properties of Fiber-Reinforced Ternary Concrete K.Y.P. Almeria, C.M.L. Escutin and M.T. Margarito	175
