

Table of Contents

Preface

Chapter 1: Materials for Biomedical Applications and Pharmacology

Comparative Study of MgFe₂O₄ and ZnFe₂O₄ Nanoparticles Synthesized by Different Methods for Use in Magnetic Bioactive Glass for Hyperthermia Treatment T. Boonchoo, P. Promkrajang, C. Pitipoomsuksan and W. Leenakul	3
Green Synthesis of <i>Azadirachta Indica</i>-Based Silver Nanoparticles for Antimicrobial Orthodontic Applications R.R. Ali, J.Z. Chan, S. Rajendran and M.S.N. Salleh	9
Surface Characterization of Titanium Dental Implant after Long-Term Implantation E. Budiyanto, K. Kusmono, R. Dharmastiti and M.G. Widiastuti	15
The Application of Polyether Ether Ketone (PEEK) Implants in Knee Surgery Y. Fan and L. Fan	23

Chapter 2: Sustainable Building Materials

A Novel Graphene-Enhanced Phase Change Material Based Composite Aggregate for Energy Storage Concrete Applications M. Salimi, L. de Nardo and V. Carvelli	37
Low-Temperature Firing of Clay Tiles Incorporating Waste Glass, Sediment Soil, Volcanic Soil and Local Illite Clay C. Pitipoomsuksan, W. Loetchantharangkun, W. Leenakul and U. Wangrakdiskul	45
Eco-Friendly Non-Fired Tiles by Utilizing Waste Glass and Limestone Dust W. Loetchantharangkun, C. Pitipoomsuksan, P. Maingam and U. Wangrakdiskul	55
Preliminary Study on CO₂ Sequestration in High-Calcium Fly Ash Geopolymer Cement via Direct Air CO₂ Capture K. Patcharapat, T. Suwan, C. Boonpeng, T. Tanchaisawat, P. Jitsangiam and M. Fan	65

Chapter 3: Materials and Technologies for Pollutants Removal and Water Purification

Preparation of Activated Carbon from Juvenile Durian Fruit by Activating KMnO₄ for Methylene Blue Adsorption P. Assawasaengrat, W. Chokelarb, W. Narkrugsa and P. Sriprom	73
Comparative Photocatalytic Performance of Pullulan-Assisted Copper Oxide, Zinc Oxide, and their Composites for Methylene Blue Degradation E.D. Mohamed Isa, Y.L. Tang and N.W. Che Jusoh	79
Cu/Mn Oxidation Catalyst Integration into Recycled Carbon Fiber-Based Filter for Diesel Soot Emission Control R.J.I. Tamargo, A.H.P. Dumrigue, K.N.Q. Cada, R.D. Carcer and A.A.M. Serrano	85
Modular Integration of 3D-Printed Solar-Driven Interfacial Evaporation System for Enhanced Water Purification Efficiency A.S.M. Torres, G.P. Lagman, T.M.G. Manalaysay, J.D. De Villa, M.T. Gamboa, A.R.N. Nisay, M.V. Villablanca, B.B. Tamparong, L.D. Tijjing and J.R.C. Dizon	95
Fabrication of Eggshell Membrane-Templated CuO-ZnO Nanocomposite for Microbial Desalination Cell E.S. Magas, R.A.S. de los Reyes, G.E.G. Trovela and S.M.C. Repunte	103
Synthesis and Performance Evaluation of Chitosan-PEG-Cellulose Acetate Nanofiltration Membrane for Calcium Removal in Groundwater E.S. Erasga, D.P. Tolentino, J.C. Valenzuela and R.D. Veyra	111

Chapter 4: Design, Fabrication, and Performance of Advanced Composites

Green Sandwich Composite Structures for UAV Wings: Experimental Validation and Numerical Simulation

K. Khodcharad, V. Phunpeng, W. Patangtalo, K. Chaiyasin and W. Boransan 123

A Comparative Study on the Effectiveness of Silane Coupling Agent and Epoxidized Natural Rubber as Compatibilizers in Polybutylene Succinate/Rice Flour Biocomposites

A. Rattanapan, T. Sritapunya, S. Tuampoemsab and P. Sapsrithong 129

Chapter 5: Sustainable Food Packaging Materials

Preparation of Vegetable Waste-Derived Paper Incorporated with Activated Carbon for Delay Mango Ripening and Its Application

P. Sriprom, P. Thongkham, J. Taweasukyingjaroen, A. Somphan, K. Manamoongmongkol and P. Assawaseangrat 141

Biodegradable Properties of PVA/AKD Incorporated with ZnO Nanoparticles for Food Packaging Application

F.H. Zulkifli, T.H. Shan and M. Kazuaki 149

Development of Functional Fish Gelatin-Based Biomaterial Films Reinforced with Astaxanthin-Rich Oil Extracted from *Penaeus Monodon* Byproducts via Green NADES-Ultrasonication

D.T. Purba and P. Somboon 155

Chapter 6: Performance and Processing of Lightweight Metals

Numerical Simulation of the Twin-Roll Casting of Mg/Al Clad Strips

F. Gengyan, H. Tozuka and H. Watari 165

Microstructure and Mechanical Properties of AA5052/AA6061 Layered Sheet Fabricated by Cold Roll-Bonding and Aging Treatment

H.J. Heo and S.H. Lee 173

Influence of Used Tea Powders on the Microstructure and Mechanical Properties of Recycled Aluminium 5083

I.S. Isma Harisham, I.S. Mohd Ali, S.A. Osman, T.S. Kiat and S.A. Osman 179

Chapter 7: Precision Manufacturing Processes

Elimination of Bond Pad Crack through Application of Initial Force via Force Profiling on Sensitive Bond Pads

G.C. Miranda 187

Modeling and Investigation of 3D Printing Parameters on the Melt Flow Behavior of Polylactic Acid

P. Suttipong, C. Aumnate, J. Suk-Em and J. Tungtrongpairoj 193

Chapter 8: Functional Materials

Eu (II) Incorporation in Calcite: Phase Transformation and Photoluminescence

J.B. Junio, M.T. Conato, C.C. Mercado and A.M. Guloy 201

Compressive Response of Smart Mg-NiTi Interpenetrating Phase Composites Comprising Functionally Graded Schwarz-P Surfaces: A Numerical Study

S. Ilyas, M.M. Khalil, W. Zaki and M. El-Rich 211

Palladium-Catalyzed and Microwave-Assisted Suzuki-Miyaura Cross-Coupling to Access Carbazole Intermediate Using CyreneTM as a Neoteric Bio-Based Solvent

J.G.H. Escorial, J.C.N. Español, E.M.V. Naquila and R.J.I. Tamargo 219

Chapter 9: Mechatronics

Enhancing Energy Harvesting from Low-Frequency Vibrations via Topology Optimization of Bimorph PVDF Cantilevers

P.M. Aguilar, L.D. Rayos Del Sol and C.C. Mercado

229

Comparative Study of YOLOv5, YOLOv8, and YOLOv11 for Dust Detection in Voice Coil Motor Assembly

K. Chaiyasin, V. Phunpeng, S. Khaengkarn, K. Khodcharad and T. Hengmeechai

237
