

# Table of Contents

## Preface

## Chapter 1: Green Building Materials

<b>Comparative Impact of Melamine Formaldehyde and Polyurethane Microencapsulated PCMs on the Compressive Strength of Concrete</b> F. Naz, Z. Ul Hassan, S. Baloch and U. Shahzad	3
<b>Utilization of Rice Husk Ash and Fly Ash for Sustainable Concrete Development in Pakistan</b> H. Shoaib	11
<b>Experimental Evaluation of Self-Compacting Concrete Incorporating Bentonite Clay and Marble Dust as Sustainable Additives</b> M. Talha and M. Yaqub	21
<b>Evaluating the Properties of Concrete by Incorporating Bentonite and Crumb Rubber</b> R.S.Z. Khan, A. Elahi and R.W.Z. Khan	33
<b>Effects of Micro and Nano Scale Sugarcane Bagasse Cellulose Fibers on Cement Based Materials</b> A. Fatima, W. Jagirani, F. Batool, A. Asghar and S. Mehmood	41
<b>Optimizing Acid Resistance of Concrete Due to the Synergistic Effect of Bentonite and Fly Ash Dosages: Mass Loss Kinetics and Microstructural Analysis under HCL</b> R.W.Z. Khan, R.S.Z. Khan and M. Yaqub	57

## Chapter 2: Structural Engineering

<b>Discrete vs Smeared Modelling Strategies for TRM – Strengthened Beams: A Benchmark Study</b> F. Masood and S.S. Mobeen	67
<b>Physics-Informed Neural Networks Fusion with Deep Learning for Structural Health Monitoring and Prognostics - A Review</b> M. Luqman and M. Arif	75
<b>Development of a Data-Driven Predictive Model for GFRP-Concrete Bond Strength Using the XGBoost Algorithm</b> M.S. Ifrahim, A.J. Sangi, F. Masood and M.U.B.A. Bhatti	85

## Chapter 3: Structural Seismic and Fire Design and Evaluation

<b>Influence of Nanoparticle-Enhanced Concrete on the Nonlinear Seismic Response of Reinforced Concrete Shear Wall</b> A. Qudoos, B. Latif, T.M. Shah and D. Kumar	93
<b>Comparative Seismic Behavior of RC Structures with Fiber-Reinforced and Nanocomposite Elastomeric Isolators</b> B. Latif, A. Qudoos and D. Kumar	103
<b>Orientation-Driven Enhancement of Fluid Viscous Dampers for High-Rise Resilience</b> M.A. Javaid, A. Saboor, U. Shahzad, T. Attaullah, M. Ali and U. Afzal	111
<b>The Influence of Foundation Systems on the Performance of Base-Isolated Structures: A Critical Review</b> S.A. Gillani, A.I. Alam, M.U. Babar and M. Ali	117

## Chapter 4: Construction Project Management

<b>BIM Applications in 3D Modeling, Scheduling, and Real-Time Risk Identification for Projects in Quetta City</b> Z. Khan, E. Durrani, M. Ameen, M. Ali Mohsin, S. Ahmed, M. Mubashar, U. Abbas and S. Muhammad	127
<b>Comparison of Conventional Survey Techniques with Modern GIS Tools</b> S. Ali, M. Shahnez, A. Nawaz, H. Maqbool, F. Abeel and A. Khan	135
<b>Identification of Major Risks in the Public Sector Construction Projects of Quetta City: A Quantitative Survey</b> M. Nawab Anwar, M.S. Nazar, Z. Khan, H. Khan, M. Masood and F. Ahmed	145

## **Chapter 5: Water Resource Engineering**

<b>Flow Behavior over Mixed-Height Vegetation Patches under Submerged Conditions</b> S. Anwar, N. Anjum, A. Ali, I. Ahmed and S. Shah	157
<b>Numerical Modeling of Nature-Based Flow Regulation in Floodplain Canals during High Discharge Events</b> S.M.A. Bukhari, N. Anjum and M. Asghar	165
<b>Hydrological Study for AWS Standard Implementation in Landhi Industrial Area of Karachi</b> S.b.T. Ghouri, H. Uddin, H.S. ur Rahman and H.B. Faridi	171
