

# Table of Contents

## Preface

## Chapter 1: Building Materials

<b>Improving the Properties of Cement Mortar Using Low Content Graphene Oxide</b> M. Maizuar, S.A. Nanda, B. Burhanuddin, S.J. Akbar, A. Jalil, S. Malaysi and F. Daulay	3
<b>Characterization of Coal Fly Ash and Rice Husk Ash as Binders in Geopolymer with Material Microstructure Testing</b> L. Opirina, T.B. Aulia, M. Hasan and S. Aprilia	11
<b>Porous Asphalt: A Comparison of Modified Optimized Asphalt Content and Conventional Optimized Asphalt Content</b> M. Refiyanni, S.M. Saleh, M. Isya, S. Aprilia and I. Fadil	23
<b>Study of the Compressive Strength of Geopolymer Concrete Using Rice Husk Ash and Seashells in Rigid Pavements</b> V. Veranita, Z. Zulyaden, J. Supardi and M. Balqis	33

## Chapter 2: Structural Engineering and Disaster Resilience Assessment

<b>River Hydraulics in Analyzing the Impact of the River Groynes Distance on the Quantity of Erosion in River Channel</b> R.C. Wijaya, U. Lasminto, M.A. Maulana, A.A.N.S. Damarnegara, P.T. Kumala Sari and Z. Zulyaden	43
<b>Analysis of Monopile Foundation on Offshore Wind Turbine Structure</b> M.R. Aditya, K. Yusuf, C. Yovi, G.P. Wahyu and M. Maizuar	51
<b>Evaluating the Reliability of Satellite Gravity Data for Disaster Risk Mapping in West Coast Aceh's Coal Mines</b> A. Adib, R. Armi, S.T. Anda and A. Azwanda	67

## Chapter 3: Urban Planning and Infrastructure Development

<b>HEC-RAS Modeling for Urban Drainage Performance Evaluation in Overcoming Surface Runoff: Case Study</b> C.S. Silvia, A. Maulana and M. Ikhsan	81
<b>Flood Mapping Analysis for the Downstream Urban Area of the Keureuto Sub-Catchment with River Interventions</b> R. Renaldi, S. Nabila, F. Umar, K. Yusuf, A. Desmi, F. Fasdarsyah and T.M. Hafli	91
<b>Evaluation of the Road Transportation System in Supporting Connectivity between Activity Centers</b> M. Isya, M. Refiyanni, C. Chaira and A. Akhyar	99
<b>Analysis of Demand and Distribution of Blue Water in the Malikussaleh University Medical Building Using EPANET Software</b> F. Fasdarsyah, T.M. Hafli, M. Putri, D. Adzuha and C. Yovi	111

## Chapter 4: Rural Planning and Development

<b>Community Participation in the Sustainability of the Jeuram Irrigation Network System to Support Agricultural Productivity</b> D. Febrianti, T. Farizal, R. Agusmaniza, A. Satria, R. Wilis, E. Elviani and N. Farida	119
<b>Modeling of Cellular Automata Marcov Chain for Land Use Change Prediction in Nagan Raya Regency</b> F. Fachruddin, S. Sanusi, A. Yusra, R. Suhendra, M. Usman and M. Safriani	135

## **Chapter 5: Renewable Energy Development**

<b>Study of Solar and Wind Energy Potential for Power Generation in Pulo Aceh</b>	
A. Adria, A. Syuhada, T. Tarmizi and I.D. Sara	149
<b>Challenges in Water Energy Development for Energy Security in Aceh</b>	
R. Thaib, Z. Zulfan, I. Setiawan and A. Rizki	157
<b>Analysis of the Effect of Discharge Needs on Pesangan Hydropower Plant in Central Aceh Regency</b>	
S.A. Putri, F. Umar, T.M. Hafli, A. Desmi and N. Savira Ersa	165

## **Chapter 6: Corrosion Protection**

<b>Phytochemical Analysis and Antioxidant Properties of <i>Syzygium cumini</i> Fruit as a Corrosion Inhibitor</b>	
N. Ali, S. Fonna, Y. Saputra and J. Supardi	175

## **Chapter 7: Engineering Research and Design of Machines and Equipment**

<b>Experimental Fracture Failure Analysis of Superheater Water Pipe Boilers</b>	
H. Husaini, R.A.W.S. Rambe and N. Ali	185
<b>Heat Transfer Characteristics of Multi-Story Flat Plate Type Cooling Tower: Effect of Number of Holes</b>	
A.K. Perangin-Angin, A. Syuhada and R. Thaib	193
<b>Performance of a Double-Blade Archimedes Screw Turbine with Head and Flow Configuration for Low-Head Applications</b>	
M.I. Maulana, A. Syuhada, Y. Yusmanizar and M.A. Asyqar	203
<b>The Numerical Simulation of Air Foils Used on Unmanned Aerial Vehicles</b>	
F. Jayadi, S. Fathi and M. Masykur	217

## **Chapter 8: Mechatronics and Monitoring Systems**

<b>DFIG Model for Control Performance Analysis in Wind Power Plants</b>	
A. Adria, A. Syuhada, T. Tarmizi and I.D. Sara	227
<b>Development of a Smart Farming Monitoring System Using IoT and Android Technology to Support Precision Farming in the Western Part of Aceh</b>	
R.A. Syahputra and D. Andriani	233
<b>Agricultural Field Monitoring System: VTOL-UAV Model Design and Performance Test</b>	
I. Irwansyah, R.A. Syahputra, F. Jayadi and T.R.T. Wijaya	247
