

Table of Contents

Preface

Chapter 1: Biomass Processing and Valorization

Exploring the Impact of Pressing Techniques on Mycelium-Based Biocomposites N.C. Maideen, K.M. Hyie, H. Yussof, J. Jamaluddin, J. Abdullah, N. Abdul Wahab and Y.F. Buys	3
Synthesis of Activated Carbon Derived from Banana Peel for Application as a Catalyst Support in Fuel Cells A. Paramita, M. Elma, H. Setywan, A. Rahma and M. Pusfitasari	13
Effects of Liquid Fraction Recirculation during Microwave-Assisted Hydrothermal Carbonization on Properties of Coffee Parchment R. Raudah, R. Hasibuan, I. Irvan and E. Misran	21
Extraction of Gelatin Biopolymer from Short Mackerel Bone (<i>Rastrelliger brachysoma</i>) E.B. Nursanto, S. El Madina and A. Dahliyanti	35
Experimental Analysis of Bio-Cementation Effectiveness on Silica Sand with Varying Initial Water Content S.D.T. Wewengkang, R.A. Sudisman, A.A. Zulfah and A.A. Cikmit	41
The Influence of Different Initial Relative Densities and Ambient Temperature Ranges on MICP Treatment Using Direct-Mixing Injection Method A.A. Zulfah, R. Sudisman, S.D.T. Wewengkang and S. Sastroedjo	54

Chapter 2: Corrosion Prevention

A New Approach in Corrosion Study Using DFT and Monte Carlo Simulation to Investigate the Synergistic Effects Natural Green Inhibitor Citrus Sinensis and Synthetic Benzotriazole on Low Carbon Steel A.M. Sulaiman and M.N. Ilman	65
Increasing the Corrosion Resistance of Type 201 Stainless Steel Pitting by Electrochemical Method in a Citric Acid Solution S. Hastuty, M. Nur and F.K. Nadhor	76

Chapter 3: Chemical Technology

Sustainable Biochar Production from Palm Kernel Shell through Slow Pyrolysis: A Life Cycle Assessment of Its Application as an Eco-Friendly Fertilizer A. Fikarda, M.R. Rahman, Y. Bindar and L.D. Kasmiarno	97
Optimizing Co-Firing Ratio of RDF MSW and Coal in a Fluidized Bed Reactor I.M.A. Putrawan, I.N.S. Winaya, I.N. Simpen, I.B.A. Swamardika, I.M. Rajendra, W.G. Ariastina, I.P.A.Y. Pratama and I.G.N.P. Tenaya	111
Simulation of Hydrogen Gas Production Process from Oil Palm Empty Fruit Bunch (OPEFB) Combine with Carbon Capture Based on Aspen Plus Software R.M. Rachman, A.Y. Gautama and F. Nurrahman	121

Chapter 4: Building Materials

The Effect of Using Ground Granulated Blast Furnace Slag (GGBFS) as a Partial Substitute for Portland Cement in Fiber Concrete A. Amalia, L. Tiyani and Y. Setiawan	135
Effect of Storage Time on Asphalt Modified by KKK60 Pre vulcanized Latex D.W. Nasution, A.S. Lubis, M.P.S. Harahap and M.F.N. Nasution	144

The Effect of PETE, HDPE, and LDPE Type of Plastic Waste as Additive on Compression Strength and Temperature Resistance of Architectural Lightweight Bricks A.M. Hajji, A. Yulistiyorini and B.F. Syah	151
--	-----

Chapter 5: Construction Technology

The Application of Base Isolation System as Earthquake Resisting Technology on Mulya Medika Hospital, Samarinda A.Y. Pratama and I. Ariani	161
Design and Performance Evaluation of HVAC Systems with Thermal Load and Duct Sizing Considerations Theater Buildings F. Yulia, P.M. Dana, Y. Bram, K.D. Lokollo and R.W.W. Partakusuma	172

Chapter 6: Fault Detection

Integrity Assessment of Offshore Pipeline Subjected to Anchor-Induced Dents Using Finite Element Analysis A. Arianta	185
Combination of Discriminant Analysis and Minimum Redundancy Maximum Relevance for Induction Motor Fault Diagnosis Using Stator Current Signals D.Y. Kurniawan, D.S. Didik and J.W. Purwadi	196
Diagnosing Induction Motor Fault Based on Relief Feature Selection Algorithm and Support Vector Machine Model F. Anta, D.D. Susilo and Z. Arifin	207

Chapter 7: Heat Transfer

Numerical Analysis of the Effect of Water Cooling Method on Temperature Distribution and Efficiency of Photovoltaic M.W. Putri and A.B.K. Putra	219
Systematic Literature Review of Ice Slurry Compounds: Viscosity Characteristics, Heat Transfer and Applications M. Sinaga	227

Chapter 8: Modelling of Machines and Machine Parts

Design Optimization of Cold Air Intake (CAI) System with Valvetronic to Enhance Engine Performance and Efficiency: A Mitsubishi Lancer Evo VIII Study Addressing SDG 9.4 and 12 I.J. Aditya, Z.S. Lie and I. Mahardika	249
Sloshing and Stress Analysis of an API 620 Tank under Seismic Excitation Based on SNI 03-1726-2019: Numerical Evaluation of Code Provisions A.P. Nabilah, R. Setiawan and A. Nadjuri	255
Efficiency of Buoyancy Force Generation in a Pump-Based Buoyancy Engine for a Small-Scale Underwater Glider A.S. Jaya and Y.A. Putra	269
Analysis of Steam Turbine Generator Overhaul for Efficiency Enhancement at the Power Plant Center of Refinery Unit N.A. Bahar, B.W. Riyandwita and S.J. Zakky	281
A Predictive Maintenance Approach for Centrifugal Pumps: Case Study of Vibration Analysis Using FFT and Phase Difference Diagnostics B.W. Riyandwita, M.F.J. Putra and A. Wicaksono	291
Identification of Cavitation in Centrifugal Pump Using Vibration Analysis Method in Hydro Cracking Complex (HCC) Area B.W. Riyandwita, D.A. Dhipa and D.D. Abryantoni	304
Strength Analysis and Remaining Life Estimation of Storage Tank Based on API 650 & 653 A.F. Zhillan, P. Kadarno and M.F.K. Shodiqi	317

Powertrain and Integration Analysis of a Small Converted Electric Multi-Purpose Vehicle with the Finite Element Method G. Heryana and N.A. Sutisna	323
Multifactorial Contributors to the Effectiveness of a Mobile Solar Dryer S.N.A.M. Halidi, A.S. Jaya, M. Zainudin, N.S. Shaari and N.S. Abdullah	328

Chapter 9: Robotics and Automation

Optimized Design for the Flap Folding System of a Carton Sealer Machine by Automation L. Anggraini and B. Ardiansyah	341
Mobile Robot Selection Using AHP MOORA and Simulation Modelling for Material Handling Automation T. Frederick, A.S. Ratum and A. Tasilm	348
Design and Dynamic Characteristics of a Two-Legged Wheeled Self-Balancing Robot Platform A.S. Jaya and F.M. Akbar	361

Chapter 10: Production Management and Industrial Safety

Innovative Advanced Material Solutions for Integrated Safety Helmets in Mining R.D. Estetika Hartono and N.T. Lestari	375
Implementing MRP (Material Requirement Planning) for Managing Raw Material Inventory in an Indonesian Plastic Blown Film Company R.B.S. Wulung, A.N.M. Putri and J.S. Purwoko	384
A Theoretical Framework of Spare Part Inventory Management for Aging Rotating Equipment: A Case Study M. Sarunggu, I.N. Pujawan and N.I. Arvitrida	396
The Impact of Lean Tools and Waste Analysis on the Improvement of Process Cycle Efficiency and Manufacturing Lead Time of Pipe Sleeve Fabrication: A Case Study M.F. Natawijaya and T.P. Kasih	409
