

Table of Contents

Preface

Chapter 1: Green Building Materials

Physio-Chemical and Thermal Characterization of Sorghum Bagasse Fiber for Sustainable Composite Application

R.A. Otunla, A.A. Adeleke, T.S. Ogedengbe, S. Jesuloluwa, R.E. Abuh and W. Adeleke 3

Experimental Analysis on the Reinforcement of Concrete Using Coconut Shell as Coarse Aggregates

M. Mohammed, T.S. Ogedengbe and I. Obianyo 13

Chapter 2: Geotechnical Engineering

Modelling of the Sediment Yield and Sediment Concentration along Idemili River Water Shed, Anambra State

R.C. Ugochukwu, A.G. Adeogun, T.C. Ogwueleka and S. Balogun 23

Stabilization of Black Cotton Soil Using XL-Terrasoil and XL-Bond

P. Ejiga, A. Amuda, O. Kolawole, E.E. Ndububa, E. Rugba and T.S. Ogedengbe 33

Geotechnical Investigation and Index Properties of Laterites

A.G. Amuda, K.N. Amoo, T.S. Ogedengbe and O. Kolawole 43

Chapter 3: Construction Management

Examining Procurement Methods and Practices for Private Construction Projects in Abuja, Nigeria

O.E. Omoegbe, T.Y. Odu and I.I. Obianyo 55

Impact of Inflation on the Quality of Housing Estate Construction in Abuja, Nigeria

V.A. Anivasa, S.O. Atomode and O.N. Mogbo 67

Integration of Planning and Control Mechanisms within the Building Environment: A Review

A. Sanusi, Y.I. Ardo, I. Umar, O.A. Asuku, A.K. Bataiya, A.A. Bamgbade, B.N. Oseke, S.A. Adejumo and S.O. Abidemi 77

Cost-Benefit Analysis of Formwork Systems Commonly Used in Nigeria Construction Industry

S.O. Abidemi, O. Mogbo, A. Sanusi, A. Muoka, A. Mohammed and Y.M. Kudu 87

Assessment of Building Automation System Performance in Selected Estate in AMAC ABUJA

Y.A. Adeshina, B.A. Abosede and O.B. Bamgbade 105

Low-Cost Predictive Modelling of Asphalt Mix Design Using Excel-Based Regression: A Sustainability-Oriented Engineering Approach from Nigeria

O.J.I. Ezekwesili, O.O. Ugwu and O. Bamgboye 111
