Preface

Chapter 1: Composite Materials

Strength Evaluation and Behaviors Studies of Hemp/Kenaf/Coir Fiber Reinforced Composites by Using Compression Moulding	
P. Jagadeesh, S.P. Gowtham, Y. Aravinthaswamy, S.R. Karthic, M. Soundar and S.S. Prasath	3
Advancements in Aluminium Matrix Composites: Applications and Future Trends in the Automotive Industry	
S.P. Rajesh, A.K. Palaniappan, M. Gokul, R.V. Sanjeeth and T. Logeshwaran	13
Experimental Investigation on the Tensile and Impact Strength of Ficus Religiosa Stem and Sisal Fiber Reinforced Polymer Hybrid Composites	
D. Subramaniyan, S. Theivasigamani, K. Perumal, B. Mylsamy, K. Kathiravan, S. Praveen, V. Sandeep and S. Sasikumar	23
Exploring Mechanical Properties of Hemp, Sisal Fibers and Silicon Carbide Particle Reinforced Hybrid Epoxy Resin Composites	
M.S. Prakash, M. Nallusamy, V.S. Sree Balaji and C. Dharanidharan	33
BFRP Epoxy Composite's Impact Strength Enhancement by Hand Layup Method Addition of New Warmed Nano Clay Particles	
P. Dhiravidamani, P. Rajendran, S. Durai and T. Kandasamy	41
Improving Wear Resistance of Aluminium Alloy by Reinforcing TiB₂ & ZrO₂	
M. Amarnath, A. Mohanraj, K. Gopalakrishnan, N. Logesh, P. Karthik and R. Elangovan	49
An Investigation to Enhance the Flexural Modulus of the Natural Fibre Composite Using Hemp Fibre Polymer Matrix	
S. Rahul, A. Mohanraj, M.N. Ahamadhu, A.M. Arafath, S.L. Mohanesh and S. Saran	57
Experimental Investigation of Mechanical Properties for Borassus Flabellifer and Carica Papaya Fiber Reinforced Polymer Hybrid Composites	
R. Palaniyappan, S. Theivasigamani, A. Balamurugan, V. Kaviyarasu, M. Ravikumar and B. Vignesh	73
Investigation on Mechanical Physicochemical Properties of Novel Natural Fiber from Bauhinia Racemosa and its Epoxy Composites	
S. Theivasigamani, S. Chinnappan, M. Bhuvaneshwaran, R. Bhuvaneshwaran, K. Ajay and K. Jagadeep	83

Chapter 2: Additive Manufacturing and Welding

Characterizing the Microstructure and Performance of Mechanical Properties in Polylactic Acid/Copper Metal Infill Polymer Composites Fabricated through Fused Deposition Modeling	
K. Kiran, B.R. Kannan, R.R. Rinto and N. Suprateek	95
Investigation on Mechanical Properties of Bio-PETG Filament in FDM 3D Printing	
V.P. Pradeep, A.K. Palaniappan, R. Karthikeyan, K.G. Aravind and M. Vignesh	105
Experimental Investigation on Mechanical Properties and Characteristics of Jute and Hemp Fiber Composites Manufactured by Fusion Deposition Modelling	
A.K. Palaniappan, S.P. Rajesh, V. Sivaprasad, A.R. Karthik Bharathi and R.M. Mukesh	115
Investigation on the Weldability, Mechanical and Metallurgical Properties of Activated Tig Weldments of Aluminium Alloy 7075	
S. Rajkumar, K.S. Aadhityaa, E. Venkatachalam and M. Vasanthraj	131
