

Table of Contents

Preface

Chapter 1: Structural Metals

Fabrication and Characterization Study of Al₂₅Ni₂₅W₂₅Cr₂₀V₅ Refractory High Entropy Alloy through Mechanical Alloying D. Jeyasimman, H. Hajamoideen, B.H. Raghavan and M. Aswin	3
A Critical Review on Ultrasonic Assisted Electric Discharge Machining and Various Processes S. Kalakonda, P.S. Rao and R. Kant	11
Analysis of Corrosion Behavior on Rotary Friction Welded NiTiInol Alloy Subjected to Heat Treatment A. Shashikala, H. Pakkappa, R. Shadakshari, M. Muniraju and P.S. Dabeer	22

Chapter 2: Semiconductors

Strain Dependence on the Threshold Current between InP Substrate and InP/Si Substrate LDs G.K. Periyanyagam, K. Agata, T. Ishizaki, J. Zhang and K. Shimomura	41
Advancements in MOSFET Channel Materials a Comparative Review S. Sania, P. Gangwani, M. Mohil and R. Kaur	52
FinFET vs Planar MOSFET: A Performance-Based Comparative Study S. Sahu, T. Saikia, P. Gangwani and R. Kaur	65
Morphology-Dependent Magnetism and Raman Modes Induced by Surface-Disorder and Cation-Site Defects in Indium-Substituted SnO₂ Thin Films S. Ghosh	79
Comprehensively Improved Performance of ZnO Nanomaterial Based Solar-Blind UV Photodetector Embedded in PVA Matrix. S.A. Mulla, A.B.U. Rahman, P.M. Khanzode, S.J. Shaikh, M.S. Khandekar and K.A. Bogle	90

Chapter 3: Functional Nanomaterials

The Impact of Gold and Silver Nanoparticles on Blood Flow Behavior in Constricted Artery S. Kumar and S. Kumar	97
Optimization of Electrical Conductivity of Green Synthesized Metal Nanoparticle R. Singh	109
Enhancement of Thermoplasmonic Characteristics in Hg-Au/Ag Core-Shell Nanoparticles S. Sharma and P. Bhatia	118
Study on the Catalytic Activity of Bentonite-Carbon Nanodot Composite P. Pushpaletha and M.S. Sruthi	125

Chapter 4: Applied Physical Research

Study of Variation of Nonlinear Current in Plasma for Terahertz Radiation Generation R. Gill and R. Malik	135
A Comprehensive Study of Bulk Nd_{1-x}Sr_xNiO₂: Understanding the Absence of Superconductivity P. Das	140

Chapter 5: Materials for Wastewater Treatment

Thermodynamic Behavior of Procion M Dyes under Hydrolysis and Alcoholysis Conditions R. Kumar and N.K. Sharma	153
Eco-Friendly Synthesis of Manganese Dioxide Nanoparticles for Degradation of Methyl Orange Dye G. Sreekala and R. Minitha	164
Photodegradation of Methyl Orange Dye Using Mg Modified ZnS in Presence of Visible Light S.K. Choubey, T. Jyoti and K.P. Tiwary	172

Chapter 6: Composite Materials

Thermal Stability of Oil Palm and Nettle Fibers Reinforced Functionalized Polyethylene Hybrid Composites H.S. Gupta and S. Palsule	183
Heat Treatment Effect on Mechanical Properties of Si₃N₄ Reinforced Al7075-T6 Composite D. Jeyasimman and R. Suresh	190

Chapter 7: Geological Engineering

Importance of Geophysical Investigations in Underground Urban Metro Tunnel Projects S. Krishna and G.S. Ingle	201
Comparative Study of Factor of Safety of Tunnel Segment by Adding Macro-Synthetic Fiber Using Ansys A. Sawant and G.S. Ingle	212
Application of Tunnel Seismic Prediction (TSP) in the Geologically Sensitive Eastern Himalayas B. Dutta, S.R. Shekokar and P.C. Dhang	222
Regression Analysis of Q- Value Data for Shale Rock in Tunnels: Implications for Support System Design M. Dutta, S. Tirpude and S. Potnis	243

Chapter 8: Advanced Technologies

Sustainable approach of Solar Photovoltaic system for Generation of Hydrogen Used as the Fuel of Automobiles IC Engine for Jaipur, India S. Kumawat, S. Agrawal and S. Lal	263
Sustainable Development and Environmental Impact of Critical Infrastructure: Integrating Textile Waste into Concrete Materials M. Lalariyan and S. Deb	271
