

Table of Contents

Preface

Chapter 1: Engineering Materials

Characterization for Different Temperatures to Achieve Sustainable Protection by Using an Eco-Friendly Corrosion Inhibitor (SiO-NPs) Synthesized in the Lab S.N. Shattab and K.F. Alsultani	3
Scalable Fabrication of High-Performance UV Photodetectors Using Spin-Coated SWCNT/Polyaniline Nanocomposites K.A. Hubeatir, I.N. Nassef, H. Khudeir and B.M. Sabbar	21
Mechanical Properties Improving the Surfaces of the Solar Collectors Using PLD with Nona Materials S.S. Faraj, A.E. Jabri, S.O. Waheed, A.Y. Qasim, A.A. Mutlaq, A.D. Salman and S.M. Awad	33

Chapter 4: Water and Wastewater Treatment

Effects of Storage Temperature and Sunlight Exposure on the Physiochemical Properties of Bottled Drinking Water A.K. Kareem, I.F. Hadi, F.J. Sarhan, G.A. Mohammed, H.S. Mahdi, H.A. Hassan and N.A.R. Issa	47
Influence of pH on Nitrate Removal from Groundwater Using Shredded Tire Rubber A.M. Khalid and H.A.K. Karaghool	71
The Efficiency of Walnut Shells Filter in the Removal of Cooking Oil Residues from Domestic Kitchen Wastewater Z.H. Ali, A. Z. Al-Qaisi, M.A. Al Yousif and D.H. Musa	77
Comparative Evaluation of <i>Fittonia argyroneura</i> and <i>Syngonium podophyllum</i> in Phytoremediation of Synthetic Domestic Wastewater under Different Contact Times A.I. Abdulkareem and H.A.K. Karaghool	85

Chapter 5: Solid Waste Treatment

Recycling Plastic Medical Waste as a Second Life Application A.K. Kareem, I.F. Hadi, I.R. Ali, M.A. Kadhem, M.A. Sahab, F.E. Ali, A.R. Tayeh, T.H. Rahim and G.M. Hussein	95
Techno-Economic Assessment of a Biomass Power Plant Utilizing Agricultural Residues in Latifiyah, Iraq Using SAM Software O.A. Abdulrazzaq, Z.A. Khadim, S.O.W. Khafaji, A.A. Mutlaq and Y.A. Abbood	113

Chapter 6: Heat and Mass Transfer Analysis in Engineering Applications

Analysis of Photovoltaic Solar Thermal Collector Performance Using Compound Parabolic Concentrator and Water Jet T.S. Gaaz, A.H. Jaaz, A.H. Mohsin and K. Sopian	131
Free Convective Thermal Transmission through Different Shapes of Enclosures: An Overview A. Al-Hadad	141
Sustainable Aerodynamics Analysis of Heavy Vehicles: Solution for Drag Reduction A. Abdulkadhim, F. AL-Daamee, M. Abdulsada and A.M. Abed	169
Investigation of Temperature Influence on Mass Transfer during Sustainable Biodiesel Production from Castor Oil S.M. Alagha, S. Rushdi and N.K. Hasan	177

Chapter 7: Construction Technologies

Application of Geopolymer Technology and Pile Raft Foundation in a Soil, Review Study Z.R. Najee, M.J. Al Waily and Z.F. Jawad	189
Enhancing the Sustainability of Road Projects Using Innovative Soil Stabilization Solutions T.M. Al-Asedi and M.J. Kadhim	197
Sustainability Assessment of Concrete vs. Steel Structural Systems: A Case Study on a Two-Story School Building B. Abdulhadi, A.H. Abd Ulameer, A.A. Hussein, M.M. Hasan and M.A. Razouki	205
