

Table of Contents

Preface

Chapter 1: Infrastructure Resilience and Hazards Analysis

- Application of Seismic Vulnerability Analysis on Building Structures: A Case Study of Al-Wildan Islamic Internasional School Dormitory in Sekarbela District, Mataram**
H. Hakiki, D.S. Agustawijaya and N. Ngudiyono 3
- Uplift Pressure Analysis of the Cijurey DAM Spillway for Enhancing Infrastructure Resilience to Extreme Hydrological Events**
A. Praptawati, S. Marsudi, N.L. Khomsiati and U.M. Lufthansa 11

Chapter 2: Structural Engineering

- Flexural Performance and Cracking Mechanism of Reinforced Concrete Beams with Ground Granulated Blast Furnace Slag and Steel Fiber**
C.A. Putri, A. Amalia and Y. Setiawan 23
- Numerical Study of the Strength of Laminated Bamboo Hollow Section Beam and Column Connection Using Glued-In Rod-Steel Box**
N. Salsabihanum, K. Karyadi, E. Santoso, N. Nindyawati and A. Andoko 33
- Energy Dissipation in Laminated Bamboo Hollow Section Beam and Column Connection Using Glued-In Rod and Bracket**
K. Airlangga, K. Karyadi, M. Sulton and N. Nindyawati 45
- Finite Element Analysis of CHS Column-to-Baseplate Connections with Various Stiffener Configurations for Column Protection**
D.F. Muhammad, A.F. Handayani and S.F. Nastiti 55
- Facade Design Analysis to Reduce the Cooling Load of Ar Rozy Hospital, Probolinggo City, Based on the WWR, AASF and Glass U-Value Aspect**
G.N. Sukma and D. Ariestadi 63

Chapter 3: Road Engineering

- Wind Energy Utilization Strategy to Support Sustainability and Operational Efficiency of Road Projects in Coastal Areas**
N. Diandra, S. Emelia, A. Setiyudin and D. Fajar 75
- Comparative Analysis of Bamboo Pile and Sheet Pile Reinforcement for Steep Road Embankments on Narrow Riverbank Sites Using Finite Element Method**
N.L. Khomsiati, I.A. Faisal and A. Praptawati 87

Chapter 4: Integrated Water Resources Management

- Assessment of the Santong River's Consistent Discharge Potential to Meet the Energy Requirements of the Santong Micro Hydro Power Plant in North Lombok Regency**
R. Evayanti, Y. Aprilina and D. Lestari 97
- Water Quality as an Indicator of Environmental Sanitation in Densely Populated and Less Densely Populated Areas in Sukun District, Malang City**
J.R. Pratiwi, S.H. Tambunan, M.P.P. Rajendra and R.C. Telaumbanua 107
- Evaluation of Clean Water Pipeline Network in Clungup Mangrove Conservation (CMC), Malang Regency**
V.A.K. Dewi, A. Sahrina, H. Masruroh and S.I.D. Ariusta 115
