Preface

Chapter 1: Thin Films

Effect of Substrate and Film Thickness on Structural and Photocatalytic Properties of ZnO Thin Films	
I.J. Badovinac, R. Peter, A. Omerzu, K. Velican and I.K. Piltaver	3
A Simple Fabrication Route of Tellurium Nanocomposites via Solvothermal Recrystallization in Nitric Acid	
A. Afanasiev, O. Mocreac and D. Tsiulyanu	15
The Absorption and Dispersion of Visible and near IR Light in Glassy AsS₃ - GeS₄ Thin Films	
M. Ciobanu, A.M. Tiuleanu and D. Tsiulyanu	21
Functionalization of TiO₂ Surfaces with Copper Oxide Nanograins Grown by Atomic Layer Deposition for Enhanced Visible-Light Photocatalysis	
R. Peter, A. Omerzu, K. Velican, K. Salamon, M. Podlogar, I.J. Badovinac, I.K. Piltaver, D. Jardas and M. Petravic	31
Hydrogen Incorporation and Reduction of Oxidation States in WO₃ Thin Films Irradiated with Low-Energy H₂⁺ Ions	
I.K. Piltaver, R. Peter, K. Salamon, N. Lazarević, J. Lazarević, M. Mičetić and M. Petravić	43

Chapter 2: Ceramics

The Effect of Rare-Earth Dopants on Dielectric Behavior and Energy Storage Performances of NBST-Based Relaxor Ferroelectric Ceramics	
X.J. Meng and Y. Yuan	59
Microwave Sintering Modification of 85M₇Z₃CLT Microwave Dielectric Ceramics	
L. Zhao, G.Y. Li, J.F. Liu, X.F. Cai, Q. Hu, Y.Y. Hu and Y.L. Jiang	69

Chapter 3: Applied Materials

Comparative Analysis of Flax Fiber-Reinforced Composites and Hybrid Configurations for Enhanced Low Energy Impact Performance	
S. El Khoury Roupheal, T. Truong-Hoang, G. Lebrun and F. Touchard	79
Sealability Analysis of Aged Elastomer O-Rings for Usage in Solar Thermochemical Water-Splitting Reactors	
E. Vega Puga, S. Brendelberger, F. Pierno, J. Wischek and C. Sattler	91
Hemp Shives: A Sustainable Biosorbent for Water Purification by Dye Removal	
P. Díaz, C. Díaz, E. Muñiz and M. Díaz-Somoano	103
Study on High Densification M-Type Ferrite Sintering Technology	
L. Zhong, P.Y. Ren, C.J. Wu, Q.F. Li, X.N. Jiang, K. Sun, Z. Yu and Z.W. Lan	117

Chapter 4: Design of Optical Devices

Design and Fabrication of Volume Holographic Gratings with Large Angular Bandwidth and High Diffraction Efficiency	
Q.B. Feng, Y.S. Guo and G.Q. Lv	127

Chapter 5: Modern Technologies in Architecture
