

Table of Contents

Preface

Chapter 1: Functional Materials

Extraction and Characteristics of Melanin from Black Soldier Fly (BSF) Pupal Skin as Biopolymer Raw Material	
F. Sakinah, Z. Mustakim, G. Handayani, J. Wintoko and C.W. Purnomo	3
Biodiesel Preparation from Roselle Seeds by Ultrasonic Cavitation	
P. Tantichaipakorn and P. Kittipoomwong	11
Removing Oil from Produced Water Using Electrochemical Method	
N. Monnuch, P. Tantichaipakorn and P. Kittipoomwong	17

Chapter 2: Polymers and Composites

Bio-Coating of Poly(Lactic Acid) on Thermoplastic Starch for Disposable Cutlery	
R. Padungkomaet, S. Thananthong, R. Yeetsorn, N. Surathin and W. Prissanaroon-Ouajai	25
Effect of Surfactant on Properties of Bio-Based Polyurethane Foams	
P. Pongmuksuwan and W. Kitisatorn	31
Pressure Distribution of Polyurethane Foam Based on Palm Oil Content	
W. Kitisatorn	37
Poly(Vinylidene Fluoride-Co-Hexafluoropropylene)/Amethyst Composites: Preparation, Properties, and Potential for Sustainable Energy Materials	
S. Khawkom, N. Sukhawipat, S. Glabsawat, T. Rompoche, J. Yuennan, N. Tohluebaji, P. Pasetto and T. Panyachan	43
Effects of Copper-Modified Activated Carbon on Natural Rubber Composite for Dielectric Materials	
T. Yingshataporn-A-Nan, N. Sukhawipat, P. Thusanaphoom, T. Lardsaluk, N. Moolchai, W. Jeunthanasirigool and N. Sosa	51

Chapter 3: Materials and Technologies for Biomedical Application

Phytochemical Characterization of <i>Ochna integerrima</i> roots and their <i>In Vitro</i> Anti-Tyrosinase Property	
S. Preepram, A. Joompang, S. Jadsadajerm, S. Phosri and A. Wisetsai	61
Effect of Starch-Based Adhesives in the Production of Plaster Casts from Industrial Waste	
S. Thaoto, J. Kaiananthip and N. Trongsirawat	69
Techno-Economic Analysis between Traditional and Fused-Deposition Modeling-Based Additive Manufacturing	
C. Nivasanon, P. Anussornnitisarn and K. Ransikarbum	75

Chapter 4: Materials and Technologies of Civil and Geotechnical Engineering

The Study of Improved Silty Sand with Stone Columns under Consolidation Condition	
A. Noorak, M. Jamnongwong and U. Rochanavibhata	85
Performance of Using Geocell for Slope Erosion Control Compared in Different Geocell Installing Areas	
S. Chuenjaidee, N. Thanasisathit and U. Rochanavibhata	95
Influence of Temperature on Strength and Elastic Stiffness Behaviours of Ottawa Sand under Triaxial Compression Test	
K. Jariyatatsakorn and W. Kongkitkul	101

Enhancing the Mechanical Properties of Cement-Stabilized Soil Using Microcellulose and Styrene-Butadiene Emulsion P. Pongmuksuwan and W. Kitisatorn	109
Effect of Microcellulose Modified Styrene-Butadiene Emulsion on Mechanical and Hydraulic Properties of Cement-Stabilized Soil W. Kitisatorn	117
The Mechanical Properties of Laterite Substituted with Cement and Bottom Ash S. Lhajai, M. Jamnongwong and N. Thanasisathit	125
Evaluating the Efficiency of Dust Stone as an Improvement Material for Cement Gravel Column T. Pansuwannakun, R. Sukkarak, P. Voottipruex, S. Maneekaew and I. Meepon	131
Evaluating Physical Properties of Biochar-Modified Bitumen: An MCDM Approach Using TOPSIS and VIKOR G. Balotiya, A. Gaur, P. Somani, A. Sain and S.C. Bairwa	141
Phase Change Material for Energy-Efficient Concrete Pavement: Evaluating Mechanical and Thermal Performance P. Somani, A. Gaur, A. Sain and G. Balotiya	149
Experimental Investigation of Internal Erosion of Gap-Graded Sands K. Chawanaputorn, J. Prasomsri and S. Likitlersuang	157
Using Triaxial Geogrid in Reinforcing Crushed Rock Base Constructed on Soft Soil Subgrade H. Poorahong and P. Kruavit	167
