

# Table of Contents

## Preface

## Chapter 1: Advanced Composite Materials

<b>Programmable Shape Transformation of 4D Printed Fibre-Reinforced Composites</b> E. Yildiz, B.C. Kim and R.S. Trask	3
<b>Numerical Simulation-Based Design of Conductive Polymer Composites</b> J.C. Shang, S.C. Yang, Y.G. Cao, Y.Y. Chen, B. Sun and J.Y. Lu	9
<b>A Study on Maximum Friction Voltage and Half-Life of Composite Fiber Fabrics Containing Metal Oxide Particles</b> T. Nakamura, T. Hayashi, M.R. Harada and H.T. Uchida	15
<b>Multiscale Dispersity Analysis and Fatigue Life Prediction of Fiber-Reinforced Composites</b> B.Y. Shi, J.X. Sun, R.H. Wang and L.Y. Sun	21
<b>Modal Parameter Control and Forward Dynamic Design of Laminates</b> J.X. Sun, L.Y. Sun, R.H. Wang and B.Y. Shi	29
<b>Experimental Study on Model Fracture Toughness of Unidirectional Composite Laminates Using Digital Image Correlation (DIC) Technique</b> Z.T. Li, W. Wang, T. Liu, T.H. Yue, W.M. Cui, Z.Y. Wang and X. Qu	39

## Chapter 2: Functional Nanomaterials

<b>Synergistic Strengthening Mechanism of Hybrid Nanoreinforcement and Surface Pre-Treatment in Adhesive Joining with Alumina/SiC Nanoparticles</b> K. Nur Zalikha, N.D. Senu and H. Fricke	47
<b>Synthesis and Silica Coating of Nickel-Platinum Composite Nanoparticles</b> M. Yanase, N. Yamauchi, S. Tada and Y. Kobayashi	57

## Chapter 3: Innovative Approaches in Alloy Design and Processing

<b>Optimizing Mg-Pd-Ni Ternary Alloys for Hydrogen Storage: A Molecular Dynamics Study of Mechanical Durability</b> M.Y. Han, H.T. Uchida and M.R. Harada	69
<b>Research on Pulsed Current Assisted Differential Temperature Rolling of Ti/Cu with Gradient Heating</b> X.W. Guo, J.Z. Chen, D. Ha, P. Chen and Z.K. Ren	75

## Chapter 4: Building Materials

<b>Strength Evaluation of Marine Soil Treated with Cockle Shell and Nano Silica via Consolidated Undrained Testing</b> A.A. Harun, M.N. Ngah, M. Md Nujid and N. Md Nor	87
<b>Correlation of Crack Width with Acoustic Emission Energy for Reinforced Concrete Beams Subjected to Cyclic Loading</b> N. Md Nor, A. Saahal, S. Abdullah, M. Md Nujid and S.N. Mat Saliah	93
<b>Maximizing Mechanical Performance: An RSM-Based Optimization of Bamboo Fiber and Wood Ash in Concrete</b> K.D. Marcos and M.M.C. Rodriguez	99
<b>Central Composite Design-Based Optimization of Burnt Clay Brick Durability Using Recycled Ceramic Tile Powder</b> K.D. Marcos, M.G. Calamba, A.J.J. Mores and M.M.C. Rodriguez	107
