Preface

Chapter 1: Materials for Catalysis and Energy Conversion

Review a Comparative of the Use of Pore Formers to Increase Porosity in Planar Anode Elements of NiO YSZ Based SOFCs M.N. Amanullah, S. Sulistyo and M. Tauviqirrahman	3
Current Progress Material Solid Oxide Fuel Cell S. Solihin, M.N. Amanullah and R. Calista	13
Sustainable Materials for Biomass Gasification: Enhancing Syngas Quality through Catalytic and Green Innovation A. Faishal, M. Fadhlán and M.S. Arfian	25
Quasi-Atomic Nickel Hydroxides Loaded on Graphitic Carbon Nitride for Enhanced Light-Driven Catalysis A. Susanti, J. Phanthuwongpakdee and H. Sudrajat	33
Support-Driven Enhancement of WO-Based Composite Photocatalysts for Methyl Orange Degradation under UV Light A.I.M. A'srai, N.A.A.C.M. Khairudin, N.A. Roslan, K.A.M. Amin and M.H. Razali	39

Chapter 2: Polymers and Composites

The Role of Maleic Anhydride Polypropylene in Improvement Interaction Matrix – Reinforcement in Composites Based Waste Lignocellulose S.S. Bibit Sugito, S. Supriyono and R. Fatoni	49
A Comparative Study of Hot Pressed Resin Composite Reinforced with Teak Sawdust and Coconut Coir Fiber M. Fitri, E.H. Majlan, A. Noviyanto, D. Romahadi, M. Aziz, D.P. Susilo, S.S. Abdulmalik and S.D. Surya Jati	61
Optimization of Epoxy Resin Mixing Ratios on the Strength of Glass Fiber-Reinforced Composite Joints S. Sugiyanto, S. Sarjito and R. Fatoni	71
Antibacterial Enhancement of 3D Printed Dental Resin Photopolymer Using Titanium Dioxide Nanoparticles R. Rohmadi, W. Harwijayanti, K. Diharjo, U. Ubaidillah and J. Triyono	81

Chapter 3: Coatings

Self-Healing and Anti-Corrosive Bio-Inspired Coatings for Al-Si-Cu Die-Cast Alloys in Automotive Manufacturing I. Widarmadi, A.D. Anggono and A. Yulianto	91
Effect of UV Lamp Distance on Cracking Defects in the UV Coating Process: An Experimental Study R.B.S. Wulung and N.O. Prastiwi	99

Chapter 4: Advanced Materials and Structural Applications

Performance Evaluation of Magnesita – Chromite Refractory in the Flash Smelting Furnace of a Copper Smelting Industrial Area D.P.G. Sebayang, M.I.P. Hidayat and H. Purwaningsih	109
The Effect of the Member Thickness of the Platform Jacket on the Strength and Fatigue Life: Case Study of the Four-Legged Jacket Offshore Platform A. Anwar, R.W. Prastianto and D.M. Rosyid	117

Chapter 5: Cracking and Fracture Mechanisms in Engineering Materials

Susceptibility of 5% Nickel Steel to Stress Corrosion Cracking in Liquid Ammonia Y. Kayamori, T. Kamo, H. Igari, F. Yanagimoto and S. Nakayama	129
Comprehensive Review on Numerical Modelling on Crack and Fracture in Concrete H. Kusnanto, W.A. Siswanto, S. Supriyono and M.S. Mustapa	135

Chapter 6: Biodiesel

The Role of Nanoparticle Additives in Droplet Combustion of Biodiesel Blend Fuel : A Review P.I. Purboputro, M. Effendy and S. Subroto	149
The Role of CaO Additive in Biodiesel a Review S. Subroto, M. Effendy and P.I. Purboputro	157
Comprehensive Review of the Chemical Reactivity of B40 in Premixed Combustion Systems: Integration of Molecular Simulations and Thermal Experiments C. Hardiyanto, S. Supriyono and N. Aklis	165

Chapter 7: Waste Treatment

Adsorption of Remazol Brilliant Blue R Dye Using N-Doped Carbon Based on Palm Empty Fruit Bunches Modified with Magnetite S. Susanto, I.L. Kusuma, P. Prayitno, H.P. Buwono, M. Mufid, C.S. Widagdo and R. Hamzah	175
Turning Waste into Value: A Systematic Review of Eggshell Powder Applications in Green Soil Stabilization F. Harjanto, H. 'Azmi, T.I.K. Amar, S. Maghfuri and A.G. Laksita	189
