

Table of Contents

Preface

Chapter 1: Composite Materials

Luminescent Metal-Ceramic Phosphor Composite L.H. Kan, C.Y. Wu, H.F. Chen and H.Y. Chang	3
Fabrication and Characterization of NaOH-Treated Nito (<i>Lygodium circinnatum</i>) Fiber-Reinforced Composite E.T.T. Aranas, J.C. Sayurin, C.S. Emolaga and J.C. Millare	9
Enhancement of <i>Bambusa blumeana</i> Fiber-Reinforced Concrete's Structural Performance through Alkali-Silane Treatment M. Dayao, D.R. De Leon, C.S. Emolaga and J.C. Millare	15

Chapter 2: Polymers

Enhancing Antimicrobial and Irradiation-Shielding Properties of Poly(Butylene Succinate) Composites with Nanolignin for Active Biodegradable Packaging Applications W. Wanmolee, B. Hararak, W. Kraithong and C. Winotapun	23
Effect of Infill Percentage and Pattern Variations on the Compressive Strength and Material Properties of 3D Printed HDPE Materials M.S.M. Al-Kharusi and M.S. Al Owimri	29

Chapter 3: Functional Materials

White-Beam X-Ray Sectional Topography of Anthracene Single Crystals Grown by Physical Vapor Transport Technique S. Jo, K. Kajiwara and H. Yoshikawa	39
Nano-Titanium Dioxide Coatings for Enhanced Performance of Pantograph Support Insulators in Electric Railway Systems N. Tonmitr, A. Suk Sri, W. Kampeerawat, N. Kano, M. Suwannaruang and S. Tanusilp	45

Chapter 4: Cracks and Failures in Laminates and Hybrid Materials

Comparison of a Hybrid Pipe Design for Replacement of New and Corroded Steel Pipes Subjected to Transverse Impacts P. Townsend, A. Nevarez and M. Carboneras	53
An XFEM-Based Analysis on the Effect of Pre-Existing Cracks on the Woven GFRP with Central Side Edge Notch D.R. Mohapatra, S. Behera and S. Mondal	59
The Application of a Hybrid Damage Modeling and Simulation Methodology to Composite Laminate Ultimate Strength Predictions G. Qi, H.H. Liu, I.Y. Kim and D. Wowk	65
Evaluation of a Fiberglass Patching Kit for Repairing Cracked Steel Plates via the PZT-SLDV Lamb Wave Technique N. Amiri and L.Y.L. Yu	71
Effect of Notch Shape and Size on the Mechanical Performance of Woven GFRP Laminate: A Numerical Investigation D.R. Mohapatra, S. Behera and S. Mondal	77
