

Table of Contents

Preface

Chapter 1: Materials Science

Research on Mechanical Properties of PBO Microfibers Based on Molecular Scale Dynamics	
H.Y. Zhang, D.Y. Wang, S.H. Li, H.Z. Wei, J. An and W.F. Xing	3
Research on Mechanical Properties of Different Carbon Fiber Reinforced Epoxy Resin Composite Materials	
J.Q. Zhang	9
Compression Failure Model of Fiber Reinforced Composite Materials	
D.Y. Wang, H.Z. Wei, S.H. Li and W.F. Xing	15
Research on Microscopic Morphology Analysis Model of Carbon Fiber	
H.Z. Wei, D.Y. Wang, S.H. Li and W.F. Xing	21
Research on the Formation Mechanism for Formation Mechanism for Formation Mechanism for Micro-Damage of Alloy Blades of Wedge	
K. Huang, S. Fang, Y.Q. Chen and Y.Y. Lin	27

Chapter 2: Modeling, Design and Applied Mathematics

Calculation and Analysis of Windproof Measures of Cable Trough Box of Roof Photovoltaic Engineering	
C. Shi, L. Xiao and Y. Zhang	37
Based on Transparent Soil Test to Carry out Research on the Soil Stability Discrimination under the Suffusion	
Y.K. Liu and J.W. Wang	43
Reconfiguration of Higher Education Teaching Buildings Based on Spatial Adaptability	
P. Su, Z.X. Wang and L. Jiang	51
Genetic Bat Algorithm-Based Multi-Objective Selective Disassembly Sequence Planning	
Z.G. Xu	59
Using Meyer Wavelet Method to Identify an Unknown Source in the Heat Equation	
X.L. Lv and X.F. Feng	67

Chapter 3: Environmental Protection and Natural Resource Management

Study on the Construction of Ecological Control Technology Model Based on the Protection and Utilization of Coastal Landscape in the Bohai Bay Rim	
L.C. Huang, C.H. Peng, S.H. Bi, S.S. Cong, S.F. Li, L. Wang, Y. Li and X.Y. Jia	75
Characterization of the Hydrodynamics of Fine Channel Erosion on Slopes	
Y.F. Zhao, W. Zhang, Z.T. Shi, J.Y. Jin and W.H. Zhang	83
Formation Conditions and Distribution Law of Tight Oil in Fuyu Oil Layer, Sanzhao Area, Songliao Basin	
Q. Wang, F.J. Chen, J.W. Li, J. Li, J. Han, X. Li and Y. Li	89
Research on Coral Cultivation and Base Stone Material	
J. Xin, H.Y. Yang and S.P. Cao	97
